

Yes! for PV Students is a political action committee that formed in 2004 to advocate for the passage of Paradise Valley Unified School District ballot issues. We are a group of parents, teachers, business leaders, community members, and alumni who have experienced first-hand the critical role PV Schools have played in our lives. We are committed to continuing the excellent educational experiences for current and future students of the district. Join us in advocating for the passage of the 2019 Bond & DAA Override!
