

Membership Benefits

As a member of Salt Creek Camera Club you have several benefits included in your membership. We hope you will take advantage of these.

1. **Competitions:** Members may enter prints and/or digital images in our club competitions. Entries compete for honorable mention, award, and image of the month ribbons. We also have special subject and “President’s Choice” competitions for awards (DPI only for the President’s Choice competition). Members who compete regularly accumulate points for the end-of-year overall awards.
2. **Club Web Site:** Members have access to the “members only” pages of our club web site. These pages provide access to club documents, instructional materials, galleries, and other items of interest.
3. **Access to the Chicago Area Camera Club Association:** CACCA offers you the opportunity, as a SCCC member, to enter into their individual competitions. CACCA competitions are held on a regular basis, with the annual “Salon” being the premier event. Our CACCA representative will be happy to instruct you in how to compete.
4. **Photographic Society of America:** SCCC competes in the PSA inter-club competition which showcases images from clubs throughout the United States. We select images from club winning entries for submission to PSA. We also urge members to join PSA as an individual to take advantage of the many programs offered to PSA members.
5. **Education:** SCCC is dedicated to helping all of our members improve their skills. We try to offer each month a program on current topics or those of interest to our members. In addition, we try to keep our members informed about other educational opportunities. SCCC also owns the complete educational series of DVDs on Fundamentals of Photography which are available to any member on a first come – first served basis.
6. **Outings:** Members of SCCC will try to schedule outings to locations of interest to our members. At these outings members share their knowledge of how to photograph that particular location or event.
7. **Mentoring:** A new addition to our club benefits is our mentoring program. Individuals who would like to take advantage of this program are paired with a club veteran who will share their knowledge and experience one-on-one.
