Amylynn Trendowski's biggest joy is the safe travel of her mother, Diane Jensen and Chuck, visiting from North Carolina. Amy also is thankful that during this pandemic with coronavirus, she remains healthy even though her health is compromised with MS. She is, however, sad as she shared news that her dog Buttercup has an open growth that needs immediate surgery. Amy also asked for prayers for friend Al having some car problems and for friend Tina. She also let us know that her mother's friend is recovering from surgery in a nursing home.

Pray for first responders.

Carolyn Todd gave praise of thanksgiving for the details taken care of by those behind the scenes and the thoughts and prayers given throughout during this pandemic.
