2.0 GENERAL REQUIREMENTS

- You need to bring everything you need to play a complete game - GW FAQ(s), a copy of your army rules, templates, dice, tape measure, etc.
- Players should bring Wound Trackers for their army. GW Wound Trackers or any 10-sided die works perfect for this. Wounds should be marked as "Wounds Remaining" on the models.
- **5 Copies of your army list are REQUIRED.** Any delays caused by a player not having these lists may result in a team point reduction penalty. Army lists that are brought for other team's reviews should be restricted to 2 pages max in order to help better facilitate the player pairings each round. If you do not provide a printed army list for the opposing team during player pairings or you do not provide your opponent with a copy of your army list for your opponent, you will forfeit your game.
- Due to space requirements and physical table setup, it is strongly recommended that each player bring a laser pointer or Line Of Sight system and a display table or tray with legs to place their books and unused models on during the event.
- The venue has a concrete floor. Rubber floor mats made for standing on hard floors for long periods of time are highly recommended.
- Dice Apps. Dice apps will not be allowed at this year's event.

3.0 PAINTING, MODELLING & COMPOSITION

THERE ARE PAINTING AND MODELING REQUIREMENTS. In addition to the guidelines laid out here you should also review our official Model Policy Section of this rules pack. No painting or composition scores will be calculated into the overall Team Scores. Although painting quality is not a factor in the overall score, there will be an award for Best Painted Army at the event.

- **MODEL CONVERSION POLICIES**
- We all want to have fun modelling, theming, converting and painting our armies. The ATC always strives to promote strategy and competition while encouraging the hobby aspect of the game at the same time. To help ensure that both of the above aspects of the hobby are acknowledged we have established a few rules regarding the appropriateness of models used during the event.
- **Consider this a first warning/notification. Warnings regarding these model policies will not be given at the event.** Any models that become problematic that were not approved before the event will be subject to immediate removal from the event and may result in a game loss/game losses. If the model(s) in question would have affected more than the current game, the player will be issued a Yellow Card Foul. For details on player warnings/fouls/DQ's please see the ATC/ITC DQ Policies.

1. ALL models, for ALL game systems must be painted to a 3-color minimum standard unless otherwise specified in the event rules. This means that an honest attempt to paint all models MUST be exhibited and that 3 colors have not been simply applied to circumvent this policy. Primer counts as a color. Clear bases such as those found on skimmer models do not have to be painted and/or based in order to count as finished. To protect everyone's experience, you will be required to remove any models that do not meet these standards, from the table, immediately. Judges and TO's have the final say in what constitutes the spirit of this policy. As a general rule, if someone feels the need to justify why a model is completed, it probably isn't. In dire situations, (lost models on the way to or at the event, severely damaged models, etc.) we can make exceptions to this rule.

2. Units must always be represented by appropriate models. This is the single, most important rule. The 'What You See Is What You Get' (WYSIWYG) rule is in effect for all events. That means all units MUST be easily identifiable as the particular choice they represent and that any and all weapons/options taken for a unit MUST be clearly represented on the model(s). Exceptions MAY be made for themed units or armies. Furthermore, you need to contact us to let us know about any conversions you are planning on using, and MUST provide us with

photos of ALL models in question. Don't worry – we fully appreciate spectacular modelling skills, but we just want to make sure everything is super clear for your opponent so that no confusion can arise during games. **Players are required to email us to approve ANY and ALL conversions/etc. BEFORE THE EVENT** (See below for submission guidelines). To protect everyone's experience, you will be required to remove any models that have not been approved, from the table, immediately.

3. Your army should be primarily constructed of models from the given game system and the appropriate model range(s). Supplementing your army with models from outside the game system is acceptable but **MUST** be approved **BEFORE THE EVENT** by the ATC (See below for submission guidelines).

4. Game units that do not have a dedicated model may use any appropriate models to represent their force(s) as long as they are within the spirit of the game system and force which they represent, but **MUST** be approved **BEFORE THE EVENT** by the ATC (See below for submission guidelines).

5. The size and shape of all model bases **MUST** be appropriate for the given game system. Models, such as vehicles that do not require bases **MUST** maintain the intended size, shape, aesthetic consistency and height of the model represented.

6. It is **REQUIRED** that you use the current base size for all models in your army. Models that are supplied with two different types of bases (e.g., Chaos Daemons) must be fielded on the base type that is appropriate for the applicable game system.

7. Scratch built models and conversions can be used for units, but must adhere to the following guidelines and **MUST** be approved **BEFORE THE EVENT** by the ATC (See below for submission guidelines):

- Models may **NOT** contain significant elements of pre-assembled and/or pre-painted models or toys (A Gundam Model is not an Imperial Knight but an Imperial Knight model with a Gundam head would be acceptable).
- With the following exceptions, 3-D Printed models are **NOT** allowed:
 - A minimal amount of 3-D printed conversion bits **MAY** be allowed but **MUST** be approved beforehand. The print quality of these bits **Must** be a high quality.
 - 3rd Party Companies that only offer their models via 3-D files may be used but **MUST** be approved beforehand. The print quality of these models **Must** be a high quality.
 - 3rd Party Companies that produce physical models and also provide 3-D files for their models may be used but **MUST** be approved beforehand. The print quality of these models **Must** be a high quality.
- Models **MUST** be consistent with the look and feel of the game system they belong in. Scratch built models should aesthetically evoke the production-quality models they are intended to represent. For clarity, printed paper models or models constructed from building blocks, etc. **DO NOT** meet this requirement.
- Models **MUST** adhere to all the above restrictions.
- Resin cast “knock offs” (aka China Cast, etc.) are **Not Allowed**.

8. Count-as armies are allowed at the ATC as long as they follow all the above rules and restrictions. The onus is on the owning player to alleviate any and all avenues of confusion that might result from using count-as models/armies. Count-as models **MUST** be WYSIWYG, appropriately equipped and sized accordingly in order to best represent the model/unit in question. Count-as armies should demonstrate exceptional effort when it comes to conversions, simply using an existing army with a different battletome (as a proxy) is **NOT** allowed. Models **MUST** be approved **BEFORE THE EVENT** by the ATC (See below for submission guidelines).

9. When using detachments in your army that contain models with different <Bracket> Faction Keywords, then they must be easily distinguished from other, similar faction models. To protect everyone's experience, you will be required to remove any models that have not been approved, from the table, immediately.

10. Fliers MUST be mounted on a Games Workshop Flying Base of the appropriate size and MUST be modeled to the same height as if it were on the correct Games Workshop Flying base.

11. Models/armies should be appropriate for a family-friendly event. When in doubt, models should adhere to a typical PG-13 rating. The ATC reserves the right to remove any models deemed offensive. In extreme circumstances, the ATC reserves the right to disallow the use of any model, scratch-built model or conversion in any tournament due to playability or aesthetic reasons. Besides not being able to use a disallowed model for the remainder of the ATC, other tournament scoring penalties may be applied. This would not be a normal circumstance, and if you follow the guidelines outlined above in good taste, you will be fine.

SUBMITTING MODELS FOR APPROVAL

- All submissions for approval must be received no later than one week before the date that army lists for the event that they are to be used in are due.
- If you have any doubts to the appropriateness of a model or conversion, please use the following procedure to get approval from The ATC in advance:
 1. Create an email with at least 3 quality digital photos of the completed model(s). Include one picture with a standard infantry figure or infantry stand in order to display the scale of the scratch-built model or conversion.
 2. Send this email to registration@whatc.org
 3. Your model will be evaluated, and you will receive an official response from an ATC judge via email with our team's decision.

BEST PAINTED ARMY AWARD

Again, there are no painting or composition scores calculated into the overall Team Scores.

The information below is the guidelines/criteria used to judge armies that are submitted for the Best Painted Army Award at the event.

This part of the event will be overseen by Spikey Bits and is sponsored by Spikey Bits and The Long War Network.

Q: How do I submit my army to compete for Best Painted?

A: Spikey Bits will have a designated area near the ATC HQ area where they will be photographing and judging armies. Your army should be set up on your display board (or equivalent) and ready to be photographed as much as possible before coming to the submission area. Fill out the Team Name, Event, Player Name and Army lines on the sheet provided below (there will be copies on hand at the event).

Q: When can I submit my army?

A: You may submit armies to be photographed and judged at the following times during the event:

Saturday before the first round and anytime between rounds.

Saturday during lunch break and between rounds.

No submissions will be processed at the end of any day or on Sunday.

We suggest that as soon as your game has finished, you should begin gathering your army and getting to the submission area. The staff will process the submissions as quick as possible but you may have to bring your army back at a later time, as we will not hold up a round starting.

We will get all submissions photographed and judged and your help in being prepared and timely and patient will go a long way!

Q: What criteria will be used to judge Best Painted?

A: The Long War has taken the time to put together a fantastic grading guide that takes into account all aspects of the hobby, and they will be using that as a guideline for their judging and decisions.

Please see the form below for all of the details that the judges will be considering this year.

Once again, just a reminder that the scoring system below will in no way affect your event score.

4.0 SPORTSMANSHIP

- The current ITC Floor Rules will be enforced for this event with the additions/exceptions noted in the ATC Floor Rules Section below.
- Sportsmanship will be taken into account. Sportsmanship is always a very important factor in all of our events. We are playing a game (supposedly for fun) and any unsportsmanlike behavior will not be tolerated. Players yelling or being abusive towards other players or ATC staff will be removed from the event and may face a possible ban in future events. There will be a reasonable warning and penalty system in effect.
- Sportsmanship scores are used only to help inform the event coordinators and judges of any conduct issues that may need to be addressed.
- We expect all players to see the game through to the very end and not concede, as doing so can impact tiebreakers and, ultimately, the final rankings. If a player wishes to concede a game before it has reached its natural conclusion, a Judge must be called to help calculate the final score.

5.0 TOURNAMENT FORMAT

ROUNDS AND TIMES

- 4 Tournament Rounds, 2-Day Event
- 3 hour rounds plus a minimum of 15 mins pairing time.
- 4-Player Teams
- Army lists of all teams will be shared before the event. Details will be discussed in the Captain's Council.
- The ITC Floor Rules for conduct and penalty systems will be used.

ARMY SELECTION

- Armies of no more than 2,000 points
- Details for choosing your army can be found in the Pitched Battles section in the General's Handbook 2021.
- Battlehost restrictions on the Pitched Battle chart in the Generals Handbook 2021 will be used.
- Command traits and artifacts, as well as any battle tome specific spells, prayers, etc. must be included on your lists when you turn in your lists for the tournament. Choice of allegiance for the army must also be included on its roster. These will not change throughout the course of the tournament.
- Only Warscrolls and Warscroll Battalions with Pitched Battle Profiles may be used at the ATC 2022. This includes Forge World models that have a Pitched Battle Profile. Note that Allegiance Abilities can and should be used. Compendium warscrolls are also allowed if they have a Pitched Battle profile.
- If, before the first turn, one of the players in any given pairing has more leftover points than their opponent, then they will have the option to receive a Triumph as per the Triumph rule below.

MISSIONS

- Battleplans from the General's Handbook Pitched Battles 2021 will be used.
- BOARD SIZE - 60" x 44"

TERRAIN

- Table Layouts - Terrain will be set out on tables prior to Game 1. The terrain should be set up before the battle as per the rules for THE BATTLEFIELD in the Battleplan. The Terrain Chart lists what Scenery Rules each piece of Terrain has. For example a Shattered Stormvault is considered to be Defensible and Garrisonable. If the terrain is based then that base is used to define if a model is Wholly On Terrain.

- Faction Terrain - Every effort should be made to allow players to use their faction terrain that they have spent time to paint. If faction terrain cannot be placed then please speak to a tournament organiser who will adjust the battlefield to accommodate the piece.
- Mysterious Terrain – **CURRENTLY BEING DISCUSSED IN THE CAPTAINS COUNCIL.**

FAQ

All Current Games Workshop FAQ's will be used.

6.0 PAIRING AND SCORING

TEAM PAIRING

- Team matches will be random first round and then W vs W, L vs L, D vs D. The Individual player pairing system can be reviewed below.
- The first-round pairings of the ATC will be done randomly with the exception that no teams from the same game club will be paired against each other.
- The 2nd through fourth round pairings will be done strongest Team Total vs next strongest Team Total.
- After the second round of the event, we will not guarantee or adjust pairings in a manner that teams from the same game clubs will not be paired against each other.

INDIVIDUAL PLAYER PAIRING

- Teams will pair off into 4 individual games every round.
- Individual Pairing will take place as detailed below:

Captains have 20 minutes before each game to discuss with their team what the best strategy is for the round and to work out the pairings for the round. Rounds that start later than the allotted 20-minute mark should be reported immediately to the judges.

Step 1

For the first set of pairings, both teams select an army and place it face down on the table. When both teams have selected their armies, they are then revealed simultaneously. The teams then select two armies each to counter the revealed army of the opposing team, and place them face down on the table.

When all four armies have been placed, they are then revealed simultaneously. Out of the two armies placed by their opponents, each team selects one to play against the army that they placed initially.

For the second set of pairings, the unselected army remaining at the end of the Step 1 process remains on the table and will automatically play against the opposing armies left at hand.

Step 2

Team Captains roll off (using an official ATC die). The winner distributes the first two scenarios (A) on the scenario list for the current round to any two of the player matches that were determined in Step 1. The opposing Team Captain then determines the tables that these matches will be played on.

Then the Captain that lost the roll off will distribute the last 2 scenarios (B) on the scenario list for the current round to the two remaining player matches that were determined in Step 1 and the opposing Team Captain then determines the tables that these matches will be played on.

SCORING

Major win: 16 Tournament Points

Minor win: 12 Tournament Points

Draw: 8 Tournament Points

Minor loss: 4 Tournament Points

Major loss: 0 Tournament Points

Team points for every pairing will be summed for both sides and the team with more points will be declared the winner. In case of a tie, kill points obtained by each team will be used as a tiebreaker for match-up purposes. For this reason, all players should record kill points obtained and conceded at each game.

Point Cap:

One team can get between **20-60** TPs in one round. Individual scores are added up and entered on the team score card. A team that received more than 60 TP in a given round receives only 60 TP. A team that won less than 20 TP receives 20 TP, at minimum. This prevents teams who get easier opponents to massacre them, and skyrocket to the top, while weaker teams still have a chance to fight for mid table.

TIES:

In the event of a tie in the final standings, the following statistics will be used to break the tie:

First Tie Breaker = Number of individual player Game wins on a team

Second Tie Breaker = Total individual player points from a team

Third Tie Breaker = Margin of Victory

- When a team is registered and paid for, the team captain will be added to a special email list and given access to a forum that will consist of the other AoS team captains, ATC judges and Tournament Organizers. This is where the ATC staff will present the captains with event updates and most importantly where we will put forth topics for your input and discussion, such as, missions, pairings, event times, penalties, etc.

9.0 Health and Safety Guidelines

All health and safety guidelines in place at the time the event occurs will be strictly enforced. These guidelines may change as the ongoing Covid situation changes. Thank you for your understanding.

This event, as well as all staff and volunteers, will be following public health guidelines as laid out by the CDC as well as the State of Tennessee and the venue hosting us. We ask all attendees to follow them as well, which may include the wearing of a face mask or shield, the washing or sanitizing of hands, as well as general social distancing and/or providing proof of a negative test.
