

Reimagine 3

REIMAGINE 3 will test if the investigational medicine can safely lower blood sugar and body weight in people with type 2 diabetes treated with once-daily basal insulin.

Who can join this study?

You may qualify for the REIMAGINE 3 study if you:

- Are 18 years or older
- Have a BMI ≥ 25 kg/m²
- Have had type 2 diabetes for more than 180 days (6 months)
- Take insulin once daily alone or in combination with metformin for 90 days prior to screening
- Not pregnant or planning to become pregnant
