

Dulce  *de Leche*

About Us

en The *Dulce de Leche Márdel*, is a spreadable product with high nutritional value obtained from heat concentration of a mixture made principally from milk and sugar. Our company, with more than 20 years working in the sector, has the largest factory of dulce de leche in Spain following the Argentinean traditional recipes with all the necessary technology to achieve high quality products.

- The manufacturing capacity is 6.500.000 kg/year. We produce different types of dulce de leche according to the application. The options for using are innumerable, either to accompany desserts, fruits and crepes or for filling cakes, muffins and bonbons and for the ice cream industry.

- We offer a technical team with wide experience and first class machinery at your disposal to work together with your I+D department. We seek to guarantee you an excellent final result accompany all new product development. Our mission as a company is to achieve recognition by either our competitiveness, quality of the products and customer service. Innovation and continuous improvement are our main goals.
