

February 28, 2019

The Select Board
Town of Coventry, VT

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Coventry, VT, as of and for the year ended June 30, 2018. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information previously in a letter dated June 14, 2018. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Town of Coventry, VT are described in Note 1 to the financial statements. No new accounting policies were adopted. However, the Town made several prior period corrections and changes in the application of accounting principles. The following is a description of the prior period changes:

The Town has restated the beginning fund balance of the General Fund from \$2,309,914 to \$2,455,362 for the following changes; report the fund balance, \$111,886, of the Cemetery Fund as a separate special revenue fund, report the net position, \$41,136, of the Edmunds-Douglas-Price Endowment Trust as a separate private purpose trust fund, reduce property tax receivables, \$39,109, to the Town's listing of delinquent taxes, decrease the General Fund due to other funds, and increase the Roads and Bridges Fund, \$337,579, for capital lease payments made in 2017. The Town has restated the beginning fund balance of the Cemetery Fund from \$0 to \$117,525 to report the balance previously reported into the General Fund, \$111,886, and to increase the cemetery investments, \$4,890, to fair value. The Town has restated the beginning net position of the governmental activities from \$11,791,196 to \$11,700,432 to reflect the above prior period adjustments, as applicable, and to adjust the notes receivable, \$15,409, to the proper balance.

We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the governmental activities' financial statements was:

Management's reporting of historical cost and useful lives of capital assets is based on estimated information because the Town had not been tracking, depreciating and accounting for capital assets prior to the fiscal year ended June 30, 2014. We evaluated the key factors and assumptions used to develop the valuation and useful life of the capital assets in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such material misstatements. The misstatements corrected by management are shown in the accompanying listing of adjusting journal entries. The misstatements not corrected by management are shown in a separate schedule, uncorrected misstatements

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated February 18, 2019.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

Management Comments

We would like to thank Amanda for her help and assistance through the audit process. Additionally, we recognize her efforts in overseeing the financial documents of the Town including maintaining well organized deposits, vendor invoices, warrants, and bank statement reconciliations

During our audit, we became aware of several matters that are opportunities for strengthening internal controls and operational efficiency. We previously reported on the Organization's internal control in our report dated February 18, 2019, in which we identified certain deficiencies in internal control over financial reporting that we considered to be material weaknesses and significant deficiencies. Our management comments are as follows:

Time Rate Approval

We recommend that the Select Board approve and document the annual salary or hourly wage rates of all Town employees. Such approval should be documented either in the employee's personnel file or a Town-wide employee wage rate sheet.

Capital Assets

The Town does not have a formal capital asset policy and adjustments to the capital asset listing were not posted to the general ledger prior to the audit process. We recommend that the Town develop and adopt a formal capital asset policy which identifies a dollar threshold which can be used to identify those assets which the Town deems necessary to capitalize. Additionally, a capital asset listing should be maintained and updated annually.

Purchasing Policy

We recommend that the Town develop and formally adopt a purchasing policy identifying key policies related to the authority of Town personnel to initiate purchases.

Grand List Reappraisal

Due to the history of the previous Town Clerk/Treasurer, we recommend that the Town complete a town-wide reappraisal to ensure the validity of the data contained in the Grand List.

Required Supplementary Information

We applied certain limited procedures to the statements of revenues and expenditures - budget and actual for the general fund and the highway fund, schedule of net pension liability and schedule of pension contributions, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

Supplementary Information

We were engaged to report on the *Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balance* for the nonmajor governmental funds, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restrictions on Use

This information is intended solely for the use of the Select Board and management of Town of Coventry, VT and is not intended to be, and should not be, used by anyone other than these specified parties.

We welcome the opportunity to discuss the results of the audit with you in person and would be pleased to attend a Board Meeting or have a phone conversation at your convenience.

Very truly yours,

Pace & Hawley, LLC

INDEPENDENT AUDITOR'S REPORT

The Select Board
Town of Coventry, Vermont

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Coventry, Vermont, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Except for the matter described in the "Basis for Qualified Opinion on General Fund" paragraph, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

Basis for Qualified Opinion on General Fund

We were unable to obtain sufficient appropriate audit evidence about the amount recognized for delinquent property tax receivables, as of June 30, 2018, due to potential deficiencies in the Town's Grand List and incomplete records from prior years. The amount by which this scope limitation could affect the assets, liabilities, fund balance, revenues and expenditures of the General Fund has not been determined.

Qualified Opinion

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion on General Fund" paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the General Fund of the Town of Coventry, VT, as of June 30, 2018, and the changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information, schedule of the proportionate share of the net pension liability and schedule of pension contributions on pages 20 to 26 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Coventry, Vermont's basic financial statements. The combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 18, 2019, on our consideration of the Town of Coventry, Vermont's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Coventry, VT's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Coventry, Vermont's internal control over financial reporting and compliance.

TOWN OF COVENTRY, VERMONT
Notes to Financial Statements
June 30, 2018

1. Summary of significant accounting policies

The Town of Coventry, Vermont (the Town) is a unit of local government organized under the statutes of the State of Vermont. The Town operates under a Select Board form of government and provides the following services: public safety, streets and highways, public improvements, planning and zoning, and general administrative services.

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The financial statements of the Town have been prepared in conformity with generally accepted accounting principles as applied to governmental entities. The following is a summary of the Town's more significant accounting policies:

A. Reporting entity - The Town is a primary government under reporting criteria established by the GASB. In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units and evaluated them against the criteria established by the GASB. Based on these criteria, there are no other entities that are considered to be component units of the Town that should be included in these financial statements.

B. Basis of presentation

Fund accounting: The accounts of the Town are organized on the basis of funds. A fund is a separate accounting entity with a self-balancing set of accounts which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

Government-wide statements: The Statement of Net Position and the Statement of Activities present financial information about the Town's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. The effect of interfund activity has been removed from these statements. Governmental activities include programs, which normally are supported by taxes and intergovernmental revenues. The Town has no business-type activities that rely to a significant extent on fees charged for support.

Fund financial statements: Fund financial statements are presented according to each fund category; governmental and fiduciary. Separate financial statements are provided for each of these categories. Major governmental funds are reported as separate columns in the fund financial statements. All remaining funds are aggregated and reported as non-major funds.

The Town reports the following major governmental funds:

General Fund - This fund is used to account for the primary activity of the Town. Property tax revenues and other sources of revenue used to finance the fundamental operations of the Town are included in this fund. This fund is charged with all costs of operating the government for which a separate fund has not been established.

Highway Fund - This special revenue fund is used to account for activities related to the highway department.

Building and Maintenance Fund - This special revenue fund is used to account for resources held by the Town for building repairs and maintenance.

Roads and Bridges Fund - This special revenue fund is used to account for resources held by the Town for street and bridge repairs and maintenance.

TOWN OF COVENTRY, VERMONT
Notes to Financial Statements
June 30, 2018

1. Summary of significant accounting policies (continued)

The Town also reports fiduciary activities for the Edmunds-Douglas-Price Endowment Trust.

- C. Measurement focus and basis of accounting - The accounting and financial reporting treatment applied to a fund is determined by its measurement focus and basis of accounting. Measurement focus refers to what items are reported on the financial statements. Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when they occur, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this model, revenues are recognized when both measurable and available for use. Expenditures are recorded when the liability has occurred if measurable. Measurable means that the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the Town considers property tax revenues to be available if they are collected within 60 days of the end of the fiscal year and other revenues to be available if they are collected within 6 months of the end of the fiscal year. Expenditures related to principal and interest on long-term debt that has not matured, compensated absences, and claims and judgments are recorded only when payment is due.

Fiduciary fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Additions are recorded when they occur and deductions when a liability has occurred, regardless of the related cash flows.

- D. Governmental fund equity - In the fund financial statements, governmental fund balance is presented in five possible categories:

Nonspendable – Resources which cannot be spent because they are either a) not in spendable form; or b) legally or contractually required to be maintained intact.

Restricted – Resources with constraints placed on the use of resources are either a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed – Resources which are subject to limitations the government imposes upon itself at its highest level of decision-making, and that remain binding unless removed in the same manner. For the purposes of defining the committed fund balance category, the Town considers the taxpayers, through voted Town articles, its highest level of decision-making authority.

Assigned – Resources neither restricted nor committed for which a government has a stated intended use as established by the Select Board or a body or official to which the Select Board has delegated the authority to assign amounts for specific purposes.

Unassigned – Resources which cannot be properly classified in one of the other four categories. The General Fund is the only fund that reports a positive unassigned fund balance amount. Unassigned balances also include any negative residual balance resulting from expenditures exceeded amounts restricted, committed or assigned for a specific purpose.

TOWN OF COVENTRY, VERMONT
Notes to Financial Statements
June 30, 2018

1. Summary of significant accounting policies (continued)

For the classification of governmental fund balances, the Town does not have a formal policy regarding which classification should be reduced first when more than one classification is available. However, the Town has generally considered an expenditure to be made from the most restrictive first when more than one classification is available unless specifically determined.

- E. Budgetary accounting - The operating budget of the General Fund and the Highway Fund is prepared by the Town on the modified accrual basis of accounting. The budget is approved at Town Meeting and the Select Board sets the municipal property tax rate based on the grand list and approved budget.
- F. Estimates - The preparation of the financial statements require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and, disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenues, expenditures, or expenses, during the reported period. Actual results could differ from those estimates.
- G. Cash and cash equivalents - Cash and cash equivalents consists of cash and short-term investments with an original maturity of three months or less.
- H. Investments - Investments are recorded at fair value based on quoted market prices. Unrealized gains and losses in the value of investments are included in revenue.
- I. Receivables - The Town has recorded an allowance for doubtful accounts of \$10,000.
- J. Capital Assets - Capital assets, which include property, plant, equipment, and infrastructure are reported in the applicable governmental or business-type activities columns in the government-wide statements and in the proprietary fund financial statements. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The Town does not have a formal policy establishing criteria above which assets are capitalized. However, major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Donated capital assets are recorded at acquisition value at the date of donation. Capital assets of the Town are depreciated using the straight-line method over the following useful lives:

Building and improvements	40 years
Equipment, machinery and vehicles	5 years
Infrastructure	40 years

- K. Property tax calendar - Property taxes attach as an enforceable lien on property as of April 1st. Property taxes for fiscal year 2018 were payable in one installment due on November 2, 2017. Taxes not paid by the due date were declared delinquent and turned over to the Delinquent Tax Collector.
- L. Interfund balances and transfers – Interfund receivables and payables represent transactions incurred within the fund for other funds. These accounts are expected to be eliminated in the normal course of operations. Interfund transfers represent flows of cash or goods from one fund to another without a requirement for repayment.
- M. Deferred outflows/inflows of resources - In addition to assets and liabilities, deferred outflows of resources and deferred inflows of resources, if applicable, are reported as separate sections in the Government-wide Statement of Net Position and the Balance Sheet - Governmental Funds. A deferred outflow of resources is a consumption of net assets by the Town that is applicable to a future reporting period. A deferred inflow of resources is an acquisition of net assets by the Town that is applicable to a future reporting period.

Notes to Financial Statements
June 30, 2018

1. Summary of significant accounting policies (continued)

N. Notes receivable - The Town has received grants and advanced funds to upgrade and construct affordable housing. Until repaid, loans of grant awards, are offset by deferred inflows, which are taken into revenue as payments are received.

2. Cash and cash equivalents

As of June 30, 2018, the carrying amount of all Town deposits was \$2,368,999.

Custodial credit risk – Custodial credit risk is the risk that, in the event of a bank failure, the Town’s deposits might not be recovered. The Town does not have a deposit policy for custodial credit risk. As of June 30, 2018, the Town’s bank balance was \$2,443,458. Of this amount, \$250,000 was covered by the Federal Deposit Insurance Corporation (FDIC), \$500,000 was collateralized through participation in a public unit deposit and backed by a letter of credit from the Federal Home Loan Bank of Boston and \$1,693,458 was uninsured and uncollateralized.

3. Investments

As of June 30, 2018, the classification and fair value of investments held at June 30, 2018 were as follows:

<u>Investment</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Totals</u>
Money market funds	\$ 732,377	\$ -	\$ -	\$ 732,377
Corporate bonds	25,365	-	-	25,365
Corporate equity	59,166	-	-	59,166
Municipal bonds	51,318	-	-	51,318
Mutual funds/ETFs - equity	139,153	-	-	139,153
Mutual funds/ETFs - int'l equity	94,552	-	-	94,552
Mutual funds/ETFs - fixed income	3,295,683	-	-	3,295,683
Non-qualified variable annuity	-	-	2,640,352	2,640,352
Other	46,048	-	-	46,048
	<u>\$ 4,443,662</u>	<u>\$ -</u>	<u>\$ 2,640,352</u>	<u>\$ 7,084,014</u>

The Town classifies its investments into Level 1, which refers to investments traded in an active market; Level 2, which refers to investments not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to investments not traded in an active market and for which no significant observable market inputs are available. Generally, Level 3 investments are valued based upon information provided by fund managers, including audited financial statements of the investment fund. The levels relate to valuation only and do not necessarily indicate a measure of risk.

Interest rate risk - Changes in market interest rate will affect the fair value of an interest-earning investment over time. The Town does not have a specific policy regarding interest rate risk. Maturities of interest-earning investments at June 30, 2018 were as follows:

	<u>Fair Value</u>	<u>Investment Maturity</u>		
		<u>Less than One Year</u>	<u>1 to 5 Years</u>	<u>6 to 10 Years</u>
Corporate bonds	\$ 25,365	\$ -	\$ 25,365	\$ -
Municipal bonds	51,318	25,686	-	25,632
	<u>\$ 76,683</u>	<u>\$ 25,686</u>	<u>\$ 25,365</u>	<u>\$ 25,632</u>

TOWN OF COVENTRY, VERMONT
Notes to Financial Statements
June 30, 2018

3. Investments (continued)

Credit risk - The Town's investment in corporate bonds and municipal bonds are subject to credit risk. Credit risk is the risk that the bond issuer will not fulfill its obligation. The Town does not have a specific investment policy regarding credit risk. The rating of the Town's investment in corporate and municipal bonds was unavailable at June 30, 2018.

Foreign currency risk - The Town's investments in international equity mutual funds and exchange traded funds (ETFs) are subject to foreign currency risk. Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment.

General investment concentration - Of the \$7,084,014 reported as investments as of June 30, 2018, 83% was invested in two securities; a fixed income mutual fund holding United States government securities and a single non-qualified variable annuity insurance contract.

Subsequent activity - Subsequent to June 30, 2018, the Town liquidated its non-qualified variable annuity and incurred a penalty of \$111,626 for early cancellation of the insurance contract. This surrender charge will be reported as a fiscal year 2019 expenditure and accordingly the June 30, 2018 fair value has not been adjusted.

Investment policy -The Town adopted a formal investment policy on August 14, 2018 to provide transparent guidelines for the investment advisory relationship between the Town and its investment advisor. The policy identifies that the portfolio objectives are focused on total return and growth with no special considerations or preferences from an investment selection or asset allocation perspective.

4. Capital assets

Changes in governmental activities capital assets consisted of the following:

	Balance July 1, <u>2017</u>	<u>Increase</u>	<u>Decrease</u>	Balance June 30, <u>2018</u>
Capital assets, not depreciated:				
Land	\$ 374,694	\$ -	\$ -	\$ 374,694
Capital assets, depreciated:				
Buildings and improvements	1,730,948	130,994	-	1,861,942
Furniture and equipment	755,083	79,509	44,500	790,092
Infrastructure	-	411,165	-	411,165
	<u>2,486,031</u>	<u>621,668</u>	<u>44,500</u>	<u>3,063,199</u>
Less accumulated depreciation for:				
Buildings and improvements	345,119	48,387	-	393,506
Furniture and equipment	471,923	153,465	44,500	580,888
Infrastructure	-	10,279	-	10,279
	<u>817,042</u>	<u>212,131</u>	<u>44,500</u>	<u>984,673</u>
Total capital assets depreciated, net	<u>1,668,989</u>	<u>409,537</u>	<u>-</u>	<u>2,078,526</u>
Capital assets, net, governmental activities	\$ <u>2,043,683</u>	\$ <u>409,537</u>	\$ <u>-</u>	\$ <u>2,453,220</u>

Depreciation expense in the governmental activities totaling \$212,131 was allocated to the following functions: general government \$3,275, highways and streets \$185,315, cemetery \$408, culture and recreation \$23,133.

TOWN OF COVENTRY, VERMONT
Notes to Financial Statements
June 30, 2018

5. Risk management

The Town is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The Town manages these risks through commercial insurance packages and participation in public entity risk pools covering each of those risks of loss.

6. Notes receivable

As of June 30, 2018, the Town reported a note receivable in the principal amount of \$50,000 and accrued interest of \$24,298. Terms of the note require principal and interest repayment of \$376 monthly commencing October 2017 through September 2037. Interest accrues at a rate of 2.0% compounding annually. As of June 30, 2018, the Town reported a note receivable in the principal amount of \$36,500 due in one installment, September 2037 with no interest.

7. Interfund balances

Interfund receivable and payable balances at June 30, 2018 were as follows:

	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$ -	\$ 555,778
Highway Fund	146	-
Building and Maintenance Fund	301,363	-
Roads and Bridges Fund	315,276	-
Nonmajor Governmental Funds	-	61,007
	<u>\$ 616,785</u>	<u>\$ 616,785</u>

The interfund receivable and payable from the General Fund and Nonmajor Governmental Funds to the Building and Maintenance Fund and Roads and Bridges Fund resulted from the pooling of cash in a common bank account.

8. Interfund transfers

Interfund transfers for the year ended June 30, 2018 consisted of the following:

	<u>Transfers In</u>	<u>Transfers Out</u>
General Fund	\$ -	\$ 1,000,510
Highway Fund	247,266	-
Building and Maintenance Fund	163,244	-
Roads and Bridges Fund	400,000	-
Nonmajor Governmental Funds	190,000	-
	<u>\$ 1,000,510</u>	<u>\$ 1,000,510</u>

The \$247,266 transfer from the General Fund to the Highway Fund was approved by the Select Board in January 2019 effective June 30, 2018 to eliminate the deficit in the Highway Fund. The \$753,244 transfer from the General Fund to the Building and Maintenance Fund, Roads and Bridges Fund, and Nonmajor Governmental Funds was approved by voters at the March 2018 Town Meeting.

TOWN OF COVENTRY, VERMONT
Notes to Financial Statements
June 30, 2018

9. Contingencies

The Town receives significant financial assistance from the State of Vermont and Federal Government through grants and other forms of state aid. Entitlement to these resources is generally based on compliance with terms and conditions of grant agreements and applicable regulations, including the expenditure of the resources for eligible purposes. These funds are subject to audit by the granting authority in order to ensure compliance. Any disallowance as a result of these audits becomes a liability of the Town. Management believes that there are no significant contingent liabilities relating to compliance with grant agreements and applicable state regulations.

10. Pension plan - Vermont Municipal Employees' Retirement System

Plan description – The Vermont Municipal Employees' Retirement System (VMERS) is a cost-sharing, multiple-employer, defined benefit pension plan that is administered by the Vermont State Treasurer and its Board of Trustees. The plan was established effective July 1, 1975. The State statutory provisions, found in Title 24, V.S.A. Chapter 125, govern eligibility for benefits, service requirements, contribution requirements and benefit provisions. The general administration and responsibility for formulating administrative policy and procedures of the retirement System for its members and their beneficiaries is vested in the Board of Trustees. All assets are held in a single trust and are available to pay retirement benefits to all members. VMERS does not issue stand-alone financial reports, but instead are included as part of the State of Vermont's Comprehensive Annual Financial Report (CAFR). The CAFR can be viewed on the State of Vermont's Department of Finance and Management's website.

Benefits – Full-time employees of participating municipalities are covered under VMERS. Municipalities elect coverage under Groups A, B, C or D provisions. VMERS provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. Benefits are based on average final compensation, years of creditable service, age upon retirement, and on the benefit structure of the Group. Vesting occurs upon the attainment of five years of creditable service.

Contributions – Municipal employees participating in the plan are required to contribute 2.5%, 4.875%, 10.0%, and 11.35% of gross wages for Groups A, B, C and D, respectively. The municipal employer contributes 4.0%, 5.5%, 7.25%, and 9.85% of gross wages for Groups A, B, C and D, respectively.

Employees of the Town are covered under Group B. Town employees contributed \$6,276 to VMERS for the year ended June 30, 2018. The Town contributed \$7,081 to VMERS for the year ended June 30, 2018.

The State of Vermont has provided the following information to all employers participating in VMERS; net pension liability, each Town's proportionate share of the net pension liability, expected rate of return on investments and discount rates. The information specific to the Town is based on its proportionate share of VMERS relative to all participating employers. Actuarial reports and schedules of employer allocations can be obtained by visiting the office of the Vermont State Treasurer at the following internet address: www.vermonttreasurer.gov.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions – As of June 30, 2018, the Town reported a liability of \$41,692 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016. The Town's proportion of the net pension liability was based on the Town's proportionate share of employer contributions to the total contributions to VMERS during the fiscal year. At June 30, 2017, the Town's proportion was 0.03441%, which was an increase of 0.00533% from its proportion measured as of June 30, 2016.

TOWN OF COVENTRY, VERMONT
Notes to Financial Statements
June 30, 2018

10. Pension plan - Vermont Municipal Employees' Retirement System (continued)

For the year ended June 30, 2018, the Town recognized pension expense of \$11,798, related to VMERS. At June 30, 2018, the Town reported deferred outflows of resources and deferred inflows of resources related to VMERS from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Net difference between expected and actual experience	\$ 607	\$ 1,032
Changes in assumptions	8,728	-
Net difference between projected and actual earnings on pension plan investments	6,944	-
Changes in proportional share of contributions	4,751	58
Town contributions subsequent to the measurement date	7,080	-
	<u>\$ 28,110</u>	<u>\$ 1,090</u>

\$7,080 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be amortized and recognized in pension expense over a period of 4 years.

Actuarial assumptions – The total pension liability, as of June 30, 2017, was based on a June 30, 2016 actuarial valuation using the following actuarial assumptions: investment rate of return 7.50%, salary increases 5.00%, inflation 2.50%, cost of living adjustments 1.15% to 1.30%. Mortality rates were based on RP-2014 tables.

The long-term expected rate of return of pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of June 30, 2017, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return</u>
US equity	16.00%	6.07%
Non-US equity	16.00%	7.42%
Global equity	9.00%	6.85%
Fixed income	24.00%	2.41%
Real estate	8.00%	4.62%
Private markets	15.00%	7.80%
Hedge funds	8.00%	3.95%
Risk parity	4.00%	4.84%
	100.00%	

Discount rate – The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions will continue to be made in accordance with the current funding policy at the rates set by the Board of Trustees.

TOWN OF COVENTRY, VERMONT
Notes to Financial Statements
June 30, 2018

10. Pension plan - Vermont Municipal Employees' Retirement System (continued)

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the Town's proportionate share would be if it were calculated using a discount rate that is one percent lower (6.50%) or one percent higher (8.50%) than the current rate:

	1 % Decrease <u>(6.50%)</u>	Current Discount Rate <u>(7.50%)</u>	1 % Increase <u>(8.50%)</u>
Town's proportionate share of the net pension liability	\$ 74,438	\$ 41,692	14,534

11. Agency funds

The Town acts in an agency capacity for the State of Vermont for the purpose of collecting and distributing property taxes which are used to pay for public education. During the year ended June 30, 2018, the Town collected and distributed \$1,456,910 in education property taxes as instructed by the State of Vermont.

12. Governmental fund equity

As of June 30, 2018, governmental fund balances consisted of the following:

	<u>General Fund</u>	<u>Highway Fund</u>	<u>Building and Maintenance Fund</u>	<u>Roads and Bridges Fund</u>	<u>Nonmajor Governmental Funds</u>	<u>Total Funds</u>
Restricted for:						
Cemetery	\$ -	\$ -	\$ -	\$ -	\$ 117,525	\$ 117,525
Committed for:						
Building and maintenance	-	-	3,256,464	-	-	3,256,464
Roads and bridges	-	-	-	3,016,677	-	3,016,677
Solid waste	-	-	-	-	26,727	26,727
Reappraisal	-	-	-	-	276,258	276,258
Grader	-	-	-	-	75,959	75,959
Gravel pit	-	-	-	-	767,050	767,050
	<u>-</u>	<u>-</u>	<u>3,256,464</u>	<u>3,016,677</u>	<u>1,145,994</u>	<u>7,419,135</u>
Unassigned	2,106,648	-	-	-	-	2,106,648
	<u>\$ 2,106,648</u>	<u>\$ -</u>	<u>\$ 3,256,464</u>	<u>\$ 3,016,677</u>	<u>\$ 1,263,519</u>	<u>\$ 9,643,308</u>

Amounts defined as committed in the Highway Equipment Fund and Other Governmental Funds have been established under the authority of taxpayer voted articles. Additions to these amounts may be authorized by subsequent taxpayer voted articles.

13. Prior period restatement

The Town has restated the beginning fund balance of the General Fund from \$2,309,914 to \$2,455,362 for the following changes; report the fund balance, \$111,886, of the Cemetery Fund as a separate special revenue fund, report the net position, \$41,136, of the Edmunds-Douglas-Price Endowment Trust as a separate private purpose trust fund, reduce property tax receivables, \$39,109, to the Town's listing of delinquent taxes, decrease the General Fund due to other funds, and increase the Roads and Bridges Fund, \$337,579, for capital lease payments made in 2017. The Town has restated the beginning fund balance of the Cemetery Fund from \$0 to \$117,525 to report the balance previously reported in the General Fund, \$111,886, and to increase the cemetery investments, \$4,890, to fair value. The Town has restated the beginning net position of the governmental activities from \$11,791,196 to \$11,700,432 to reflect the above prior period adjustments, as applicable, and to adjust the notes receivable, \$15,409, to the proper balance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Select Board
Town of Coventry, VT

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Coventry, Vermont, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of Coventry, Vermont's basic financial statements and have issued our report thereon dated February 18, 2019, in which our opinion stated that the Town had insufficient documentation to permit us to provide an opinion on the property tax receivables of the General Fund and therefore our opinion over the respective financial position of the General Fund as of June 30, 2018, and the respective changes in financial position for the year then ended was qualified.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Coventry, VT's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Coventry, VT's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Coventry, VT's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings, we did identify certain deficiencies in internal control that we consider to be a material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings as 2018-001 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings as 2018-002 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Coventry, Vermont's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Select Board
Town of Coventry, Vermont

Response to Findings

The Town of Coventry has not reported management's response to the findings as required by *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Pace & Hawley, LLC

Berlin, VT

TOWN OF COVENTRY, VERMONT
Schedule of Findings
For the Year Ended June 30, 2018

2018-001: Balance Sheet Accounts

Condition: Several of the key balance sheet accounts; property tax receivables, host fees receivables, notes receivable, grants receivable, capital assets, accounts payable, school taxes liabilities, were not reconciled to supporting documentation. We proposed several audit adjustments to properly reflect these balances as of June 30, 2018.

Criteria: Reconciling general ledger balance sheet accounts is a critical control to ensure that the Town's financial statements are properly reported in accordance with Generally Accepted Accounting Principles.

Cause: Town personnel did not have enough time to devote to this matter.

Effect: Without reconciliation, and correction of any identified discrepancies, the Town's financial statements would be misstated.

Recommendation: We recommend that the Town formulate and document end-of-year procedures to ensure that all significant balance sheet accounts are reconciled at least annually. The process should include procedures to identify and correct differences between known documentation and the general ledger. For example, a listing of invoices paid after June 30th for services incurred in the prior year should be created and reconciled to the end-of-year accounts payable balances. Transactions should be posted to properly reflect the accounts payable balance at year end.

Management's response: The cause noted was a lack of time to devote to the matter. With the transition to a new Treasurer this should not be an issue moving forward. Many of the items noted in the recommendations are scheduled to be performed on a monthly basis to ensure accuracy and identify any discrepancies as they occur. Since the completion of the audit, the Select Board has also hired a Bookkeeper which has increased the delegation of duties. With a new Treasurer settling in, and a new Bookkeeper starting, the process will be monitored and evaluated in the coming months. Changes will be made for a more efficient and secure system, as well tasks will be added as everyone gains a better understanding of what needs to be addressed. In the coming year the Town will have an established system as we strive to ensure proper checks and balances in all areas.

2018-002: Treasurer's Responsibilities

Condition: The Treasurer has bank signature authority and access to the Town's general ledger accounting system. Generally, these are duties that should be segregated to separate individuals.

Criteria: Best practice related to internal control over financial statements.

Cause: The Town is currently in the process of redefining roles and responsibilities of Town personnel.

Effect: Town assets could potentially be misappropriated without detection.

Recommendation: We recommend that the Treasurer retain bank signature authority but only have read-only access to the Town's general ledger.

Management's response: The Treasurer will maintain access to the general ledger as well as having authority over signing the checks. The Treasurer's responsibilities have been limited to those statutorily granted to them. Besides reporting to authorities and agencies, the Treasurer's main function is to reconcile, balance and manage accounts; and, by statute, sign checks. All payables are processed by the Bookkeeper or the Town Administrator; the Select Board approves the Warrant for payment before the Treasurer receives and signs. This ensures multiple eyes on each payment prior to any check being issued. As an extra measure of security, the Town Administrator will perform a monthly overview of accounts and reconciliations to ensure any unusual activity is quickly identified. As noted in the previous response though; the procedures are just newly defined in the office and will be monitored and evaluated going forward. Due to past events, the Select Board, all of its Officials and residents, are very conscious of the potential for misconduct and are working hard to put systems in place to ensure the safety of the Towns assets.
