

Kristofer Helgen

Kristofer Helgen is a Smithsonian Research Scientist and Curator of Mammals at the National Museum of Natural History in Washington, D.C. He works on biological surveys in many parts of the world, including Africa, the Americas, and SE Asia, and studies the biology and systematics of most groups of mammals, including small carnivores. He has published taxonomic reviews of raccoons (*Procyon*), coatis (*Nasua*), olingos (*Bassaricyon*), falanoucs (*Eupleres*), grisons (*Galictis*) and hog badgers (*Arctonyx*), has experience in the field with most genera of small carnivores, and many ongoing projects on small carnivores.
