

Welcome to Fast ER Care Emergency Room. We are pleased that you have chosen our facility to meet your emergency medical needs and look forward to the opportunity to serve you and your family. We welcome any questions you may have or suggestions for improvement. Please do not hesitate to speak with our staff should you have any concerns during your stay.

Dealing with an emergency medical issue can be very frightening, especially if you are stuck waiting in an emergency room to see a doctor. Luckily, Fast ER Care is here to help you cut down your wait time while providing you with the ER services you need to begin the healing process.

Our staff of highly-skilled, Board Eligible/Board Certified physicians and Registered Nurses is available 24-hours-a-day, 7-days-a-week to provide you with the finest care imaginable. We are fully equipped with all of the equipment and knowledgeable staff members necessary to provide you with the emergency care services you need without the delay usually found in most hospital emergency rooms.

As a fully-equipped emergency room, the physicians and nurses on our staff are ready to provide you with all forms of medical, cardiac, respiratory, injury, or trauma care you need to get back into better health. Capable of working with both children and adults, we make sure you get the best care imaginable as we diagnosis your issue and help you get on the right path towards recovery.

Our team provides all of the services usually found in most hospital ERs at our conveniently located facility. Not only are we able to perform all of the ER services you would find in a normal hospital, but our team of Board Eligible/Board Certified physicians and Registered Nurses are capable of adding an extra level of personalization to all of the help you receive during your time with us.

Hospital emergency rooms see so many people come in through their doors that it can be easy for patients to start feeling like a number. That isn't an issue with our physicians and nurses; you will feel like you are being treated with the proper care you need throughout the entire emergency room process at our clinic.

We are a freestanding emergency medical care facility that provides care that is similar to the care you would receive in a hospital emergency room. Our staff is licensed to the same standards you would expect in a hospital setting. This facility's rates charged may be comparable to a hospital emergency room and there may be a facility fee. The facility or a physician providing care may possibly be outside of your benefit plan provider network and the physician may possibly bill separately for the medical care provided. Should you have any questions regarding your bill please ask to speak with a staff member for assistance.
