

Pam Orsot

My name is Pamela Hancock Orsot. I am a graduate of Kountze High School. I now have been teaching and coaching for the past 29 years at Kountze High School and Beaumont ISD. My years of high school at Kountze was filled with lots of extracurricular activities to include Volleyball, Basketball, Track, Cheerleading, Student Council and National Honor Society. I graduated as salutatorian of my senior class. During all 4 years of high school, I participated in the state championship games. I played on 3 State Championship Volleyball Teams; my freshman, junior and senior year and my sophomore year we fall short of a State Basketball Title. My volleyball coach (Angela Cruse), mentor and coworker was a straight-forward disciplined coach that didn't settle for anything less than success. We were taught great ethics; hard work, dedication and disciplined, the same philosophy that I carry still to this day.

I attended college on a Volleyball Scholarship to Mary- Hardin Baylor. I am only 5'3 and my specialty was defense and left outside hitter: "I had a great Vertical Jump"...

I later transferred back home to Lamar University where I received my Bachelor of Science in Health Education. I also have certifications in Physical and Special Education. At one time or another, I have been a Head Coach of all High School Sports except Soccer, Golf and Swimming. Volleyball, being the one that I chose to pursue the most. Seems Like EAT, SLEEP, REPEAT! Throughout my years, I have coached many outstanding playoff teams, student athletes with volleyball scholarships as well as student athletes with numerous accolades to include the highest being the Most Valuable Player of the TGCA All-Star Volleyball team.

This is my 1st year coaching on the staff at FMTVA Chiefs, after being asked for the past several years, I finally decided to take it to the next level. I am still a firm believer as to "You Get Out What You Put In" and that having a strong foundation of fundamentals along with heart, courage and intellect will take you far. I am so looking forward to sharing and gaining volleyball knowledge under the leadership of Director Coach McLain and her dedicated Volleyball Staff.

Lastly, I have 2 amazing children, a young adult son, almost grown bright-eyed daughter, and an awesome extremely busy husband that "in spite of" is still very supportive of all the extracurricular activities that myself and children are/have been involved in. We both look forward to a great, exciting and successful season with the Chiefs.
