Dear All,

[Ekasila Foundation USA](#) is proud to announce following list of development works recently completed. We were very fortunate to partner with couple of other non-profit organizations, [Rural Library Foundation](#) and [PURE](#). It gives an immense satisfaction and pleasure to see the children's faces and it's worth every penny. Myself and Srinivas Konda (our vice-president) had an opportunity to visit these places on our recent trip to India in August 2017.

Ekasila Foundation USA was able to establish libraries at following locations with help of corresponding donors, in association with Rural Library Foundation.

On behalf of Ekasila Foundation USA, we really appreciate the opportunity provided and thank each and every donor and volunteer who is involved in this effort. We are very glad to expand our reach from education to health and other related development activities. I am including brochures, media coverage and few pictures from our trips to various locations. We will update our website www.ekasilafoundation.org very soon with more pictures and details, please make sure to visit.

Just a simple closing, if you have any thought of supporting/executing any charity or development activity, please reach out to us. The idea may be simple or complicated, but we will discuss the possibility and try to execute as a team.
