

Here We Grow Again!

The storefronts of the historic **Estes Brothers Grocery** building (left), **Hayden Store** (center), and **Floyd's Grocery** buildings have been painted and await finishing touches ahead of our planned March opening of Phase I. This will include an expanded Art & Science Center, new Visitor Center, expanded Artisan Gift Shop, expanded archives, and new foundation offices. Phase II will include a heritage center that will be triple the size of our current museum space.

Interior framing is nearly complete. We were able to reuse walls from inside the building which saved on lumber costs and recycled these precious resources. Our facility will be energy-efficient, visitor-friendly and historically preserved.

Our project is on-time and under-budget. Here is a view of our project budget:

Building Acquisitions	\$130,000
Energy Efficient Windows	\$ 8,000
Heat/Air & Electrical	\$ 15,000
Insulation & Drywall	\$ 10,000
Flooring & Finishing	\$ 15,000

Our community has contributed \$25,000 to this project and we have been awarded a \$50,000 challenge grant from the **Windgate Foundation**. Help us secure the Windgate matching funds with your tax-deductible contribution:

Calico Rock Museum Expansion
104 Main Street
Calico Rock, AR 72519

For questions, call 870-373-0083.

This was the view of these historic buildings just a few weeks ago as we started our expansion project. Help us keep the progress going.
