

## **Carpet Repair**

Sometimes, despite the best of care, accidents happen. Perhaps it's a small cigarette or cigar burn, or a tear from moving furniture, or a stain that just won't come out.

All Star has years of experience piecing and repairing carpet. It's not just a skill, it's an art - making sure that the margins of the repair are undetectable takes a practiced eye.

When we repair a carpet, it can be treated like an undamaged section. It can be deep-cleaned or stretched just like an undamaged section.

In fact, our greatest hope is that someday you'll say to a friend "we had this carpet repaired, I think - but I couldn't tell you where."
