

Sterling®

Your reputation is only as good as your solder.

Make it Sterling®, the unmatched choice of professionals for over 20 years.

Sterling® is the best flowing lead-free solder available, with a lowest melting temperature of 410° F and a highest tensile strength of 7130 psi. It meets the highest product standards including NSF 61-G Certification for safe use in potable water applications. And since it is completely free of antimony or nickel, Sterling is 100% environmentally safe.

Worthington is the leading global supplier of pressure cylinders and related products, including Sterling® Premium lead-free solder.
