RE: Dr. Richard Stieg

To Whom It May Concern:

Often is the case that an injured worker needs an impartial, well reasoned and objective medical opinion. Whether the opinion is for second opinion purposes regarding treatment or for medical legal issues, Dr. Richard Stieg is at the top of his class. Dr. Stieg's medical background, experience and expertise are well respected in both the medical field as well as the Colorado Workers' Compensation System. Dr. Stieg's reputation is one where neither party considers him a "hired gun", rather, his opinions are sought out to assist in further understanding the injured workers' need for treatment and ability to function.

Sincerely,

KAPLAN MORRELL, LLC

Michael H. Kaplan, Esq.
