NATURAL LOOK

NATURAL LOOK is a rich and natural pot cream formulated to counteract the ageing process on short and long term basis.

From Indena, it contains:

ZANTHALENE®: documented as an instant lifting agent specifically tested on the crow feet area, it provides an immediate improvement in skin roughness and reduces fine wrinkles.

BOSEXIL™: it reduces the damages induced by photo-ageing, potentially severe in sun exposure due to its content of anti-inflammatory compounds according to the most updated "inflammaging" concept. Anti-inflammatory active compounds from *Boswellia serrata* in Phytosome® form provide a lenitive and soothing effect on irritated skin.
