Benefits of Leasing

No Down Payments! Lease 100%

Our leases finance 100% of the cost of the equipment. Plus, you can include "soft" costs in your lease such as shipping, software, training, and installation. Unlike a bank loan, no down payment or compensating balances are required.

Improved Cash Flow, More Working Capital

Cash is not tied up in equipment. Instead, money is available for opportunities such as marketing, working capital, or seasonal cash flow needs.

Preserve Your Credit Lines

Your existing lines of credit and borrowing availability are left untouched and ready to use for operational & short-term financing needs.

Tax Benefits

Unlike loan payments, lease payments may be fully tax-deductible as an operational expense.

Why Should My Business Consider Leasing?

Overcome Budget Limitations

More & more businesses, both large and small are faced with limited capital budgets in today's financial climate. Finding the right equipment you need to fit within that budget can be challenging.

Lease With An Experienced Lender

For over 22 years, TLE has built a solid reputation in the equipment leasing and financing industry.

Our approval process is fast and efficient. Just fill out our simple, one page application. The application is reviewed and in most cases, applications can be approved in 4 to 6 hours.
