## **Who I Am**

### **About Me**

As a Personal Photo Organizer, I'm dedicated to offering solutions to those who are overwhelmed with their photos and memorabilia. I understand how important photos are and the story they tell. Stories about who we are: our ancestry, experiences, joys, disappointments, achievements and milestones. Our stories, our traditions, the story of YOU, are being lost because there is no time-managed photo organizing system or person to keep up with it all. Through photos I help bring your most cherished moments back into your life.

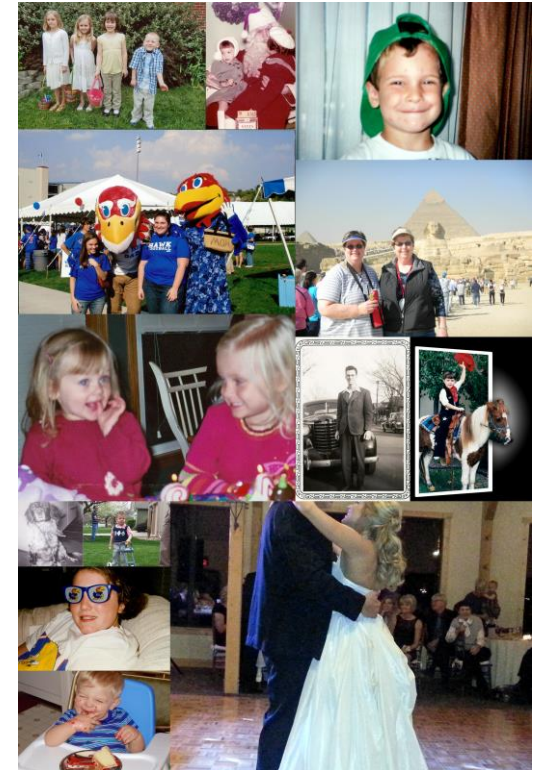

With five million photos taken daily coupled with almost yearly obsolete technology, it's crucial to keep it organized in order to preserve a family's story. You have a story – it deserves to be told, preserved and passed on for generations to come. I'm here to help you do just that.

### Photo & Document Scanning

Old photos fade away or get lost. I will scan and color correct your prints, as well as scan other memorabilia such as marriage/birth certificates, kid's artwork, deeds, newspaper articles, awards, armed services papers, etc.

### Photo Organizing

We can work together to organize your photos so that they are neatly categorized, safe and accessible. Whether you have a backlog of current prints or a collection of heritage photographs, I can guide you through the process of identifying what to keep and what to discard. Have a digital nightmare? I can help you organize that too.

### Archival Solutions

**Legacy™** boxes: Archive quality boxes to keep your photos, documents and other memorabilia safe and at hand. **Picture Keeper:** The simplest automatic, portable picture backup device. Backs up all your photos in just a few clicks.

*You don't need to go it alone.*

There is more to preserving your photos and memorabilia than just converting them to digital. Any scan service can do that.

### The Difference? Personalized Solutions

Don't pack up your treasured items and ship them off to a cookie-cutter scan service. Your digitized photos will be just as disorganized as they were in the shoebox. You don't want that! I can suggest the perfect solution based on your photo management goals and needs. Preserving photos is just one part of it. It's discovering, documenting and sharing the story behind your photos that really matter.

### Organizing Your Photos Is Key

Imagine finding every photo of "Joe" in an instant just by typing his name in a search field on your PC. It works for events, dates, locations and more. Finding what you need quickly is now a reality not just a dream.

And preserving your photos and memorabilia won't cost a fortune either. I can help as little or as much as you need.
