2102 Copper Kettle

4501 Slate Green

2601 Redwood Tile

431 Bright Gray

3305 Dodge City Tan

This chart represents a random series of Dex-O-Tex “base” pigments sold as Dex-O-Tex ColorPax LIP that are field blended with the sold product and which are then applied at variable rates onto random Dex-O-Tex finishes.

The examples in the Color Chart reference the ColorPax LIP number and color name and represent one ColorPax LIP after it is mixed at a ratio of one ColorPax LIP to 5 gallons of mixed Mirastain applied over Dex-O-Tex Resistite which is tooled and textured to further enhance variegation.
