

## PHYSIOTHERAPY ONE

orthopaedic and sports injury clinic  
2300 EGLINTON AVENUE WEST, SUITE G-05  
CREDIT VALLEY PROFESSIONAL BUILDING  
MISSISSAUGA, ONTARIO L5M 2V8  
TEL: (905) 820-2829 FAX: (905) 820-5393

Date: Feb 25/97

Doctor: Sevis

Patient: Paul Taylor

Physiotherapist: J Brice

### SUBJECTIVE

- back/neck pain with 20 minute sitting

### OBJECTIVE

- decreased lumbar ROM in all directions
- considerable tenderness over spinous processes
- neurological S/S elicited with pressure over vertebrae

### ANALYSIS/COMMENTS

- suspect soft tissue bruising is source of problem
- treatment: ultrasound, ROM program, work hardening
- as pain and decreased ROM persist, I don't expect return to work before Mar 10/97 unless "light duty" is available

Thank you for the referral

kind regards J Brice

### PHYSICIAN'S COMMENTS

Agree with the above

Paul
