CHESS SUPERSITE CORPORATION
NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS

1. Organization, Nature of Business, Going Concern and Management Plans

Organization and Nature of Business

Chess Supersite Corporation ("Chess Supersite" or "the Company") was incorporated on July 2, 2013 under the laws of the state of Delaware to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions. The Company's current business comprises the operation of an extensive Chess gaming website. This comprehensive user friendly web site www.chessstars.com, is currently offering a state-of-the-art playing zone, broadcasts of the major tournaments, intuitive mega database, chess skilled contests and much more.

In May, 2014, the Company effected a change in control by the redemption of the stock held by its original shareholders, the issuance of shares of its common stock to new shareholders, the resignation of its original officers and directors and the appointment of new officers and directors.

On July 6, 2015, the Company filed its form S-1/A, to amend its form S-1 previously filed on January 26, 2015 and December 11, 2014. The prospectus relates to the offer and sale of 1,500,000 shares of common stock (the "Shares") of the Company, \$0.0001 par value per share, offered by the holders thereof (the "Selling Shareholder Shares"), who are deemed to be statutory underwriters. The selling shareholders will offer their shares at a price of \$0.50 per share for the duration of the offering.

The maximum number of Shares that can be sold pursuant to the terms of this offering by the selling shareholders is (in aggregate) 1,500,000 Shares. Funds received by the selling shareholders will be immediately available to such selling shareholders for use by them. The Company will not receive any proceeds from the sale of the Selling Shareholder Shares.

On July 13, 2015, the Company received a notice of effectiveness from the SEC for the registration of its shares.

On September 22, 2015, the Company was able to secure an OTC Bulletin Board symbol *CHZP* from Financial Industry Regulatory Authority (FINRA).

Going Concern and Management Plans

The Company has not yet generated significant revenue since inception to date and has sustained operating losses during the nine months ended September 30, 2016. The Company had working capital deficit of \$1,720,156 and an accumulated deficit of \$5,357,740 as of September 30, 2016. The Company's continuation as a going concern is dependent on its ability to generate sufficient cash flows from operations to meet its obligations and/or obtaining additional financing from its members or other sources, as may be required.

The unaudited condensed interim financial statements have been prepared assuming that the Company will continue as a going concern; however, the above condition raises substantial doubt about the Company's ability to do so. The condensed unaudited financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result should the Company be unable to continue as a going concern.

In order to maintain its current level of operations, the Company will require additional working capital from either cash flow from operations or from the sale of its equity. However, the Company currently has no commitments from any third parties for the purchase of its equity. If the Company is unable to acquire additional working capital, it will be required to significantly reduce its current level of operations. The Company has, however, managed to raise financing in the amount of \$480,000 during the period and is using these funds towards the development, operation and marketing of its Chess gaming website.

NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies

Basis of Presentation

The unaudited condensed interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) for interim financial information and the rules and regulations of the SEC and are expressed in US dollars. Accordingly, the unaudited condensed interim financial statements do not include all information and footnotes required by US GAAP for complete annual financial statements. The unaudited condensed interim financial statements reflect all adjustments, consisting of only normal recurring adjustments, considered necessary for a fair presentation. Interim operating results are not necessarily indicative of results that may be expected for the year ending December 31, 2016 or for any other interim period. The unaudited condensed interim financial statements should be read in conjunction with the audited financial statements of the Company and the notes thereto as of and for the year ended December 31, 2015.

Reclassification of comparative figures

Certain of the prior period figures have been reclassified to align with Management’s current view of the Company’s operations.

Use of Estimates

The preparation of the unaudited condensed interim financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed financial statements and the reported amounts of revenues and expenses during the reporting periods. Estimates may include those pertaining to accruals. Actual results could materially differ from those estimates.

Revenue recognition

In accordance with ASC 605, revenue is recognized when persuasive evidence of an arrangement exists, services have been performed, the amount is fixed and determinable, and collection is reasonably assured.

During the period ended September 30, 2016, the Company earned revenue of \$5,019, which comprises an amount of \$4,500, as consideration for the arrangement of equipment and personnel to setup and produce a live streaming internet chess show and \$519 as membership fee for the Company’s chess gaming website.

Fair Value of Financial Instruments

ASC 825-10 defines financial instruments and requires disclosure of the fair value of financial instruments held by the Company. The Company considers the carrying amount of cash, accounts receivable, accounts payable and accrued liabilities, to approximate their fair values because of the short period of time between the origination of such instruments and their expected realization.

The Company also analyzes all financial instruments with features of both liabilities and equity under ASC 480-10, ASC 815-10 and ASC 815-40.

The Company adopted ASC 820-10 on January 1, 2008. ASC 820-10 defines fair value, establishes a three-level valuation hierarchy for disclosures of fair value measurement and enhances disclosure requirements for fair value measures. The three levels are defined as follows:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets;
- Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the assets or liability, either directly or indirectly, for substantially the full term of the financial instruments; and
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value.

The Company used Level 3 inputs for its valuation methodology for the conversion option liability in determining the fair value using the Black-Scholes option-pricing model with the following assumption inputs:

	September 30, 2015
Annual dividend yield	-
Expected life (years)	0.5
Risk-free interest rate	0.52%
Expected volatility	260%

	Carrying Value As of September 30, 2016	Fair Value Measurements at September 30, 2016 Using Fair Value Hierarchy		
		Level 1	Level 2	Level 3
Liabilities				
Embedded derivative liabilities	482,339	-	-	482,339
Total	\$ 482,339	\$ -	\$ -	\$ 482,339
	Carrying Value As of December 31, 2015	Fair Value Measurements at December 31, 2015 Using Fair Value Hierarchy		
		Level 1	Level 2	Level 3
Liabilities				
Embedded derivative liabilities	Nil	-	-	-
Total	\$ Nil	\$ -	\$ -	\$ -

For a roll-forward analysis of embedded derivative liabilities refer to *Note 5*.

At September 30, 2015, the Company had derivative liabilities of \$482,339. For the nine months ended September 30, 2016, the Company had gains on the fair valuation of derivative liabilities of \$259,044. As of September 30, 2016, the Company did not identify any other assets or liabilities that are required to be presented on the balance sheet at fair value in accordance with ASC 825-10.

Recently Issued Accounting Standards

The Company evaluated all recent accounting pronouncements issued and determined that the adoption of these pronouncements would not have a material effect on the financial position, results of operations or cash flows of the Company.

CHESS SUPERSITE CORPORATION
NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS

Subject to preferences that may be applicable to any outstanding shares of preferred stock, the holders of common stock are entitled to share ratably in dividends, if any, as may be declared from time to time by the board of directors in its discretion from funds legally available therefor.

Holders of common stock have no pre-emptive rights to purchase the Company's common stock. There are no conversion or redemption rights or sinking fund provisions with respect to the common stock. The Company may issue additional shares of common stock which could dilute its current shareholder's share value.

On March 17, 2016, the Company issued 65,000 shares of common stock at a price of \$0.50 per share for an aggregate price of \$32,500 in cash. Proceeds of \$12,500 were received during the year ended December 31, 2015 and proceeds of \$20,000 were received during the nine months ended September 30, 2016.

On November 25, 2015, the Company filed a registration statement on Form S-8 for 10,000,000 shares of common stock to be issued as compensation to officers, directors, employees, advisers and consultants. Preferred Stock

Shares of preferred stock may be issued from time to time in one or more series as may be determined by the board of directors. The board of directors may fix the designation, powers, preferences and rights of the shares of each such series and the qualifications, limitations or restrictions thereof without any further vote or action by the stockholders of the Company, except that no holder of preferred stock shall have pre-emptive rights. Any shares of preferred stock so issued would typically have priority over the common stock with respect to dividend or liquidation rights. The board of directors does not at present intend to seek stockholder approval prior to any issuance of currently authorized stock, unless otherwise required by law or otherwise.

7. Loss Per Share

FASB ASC 260, Earnings Per Share provides for calculations of "basic" and "diluted" earnings per share. Basic earnings per share includes no dilution and is computed by dividing net income (loss) available to common stockholders by the weighted average common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of an entity similar to fully diluted earnings per share. Diluted EPS excludes all dilutive potential shares if their effect is anti-dilutive.

8. Subsequent Events

The Company's management has evaluated subsequent events up to November 14, 2016, the date the financial statements were issued, pursuant to the requirements of ASC 855 and has determined the following material subsequent event:

In October 2016, the Company issued 1,580,000 shares of common stock to individuals as consideration for advisory and consultancy services, which were recorded at fair value.

Overview

Chess Supersite Corporation ("Chess Supersite" or "the Company") was incorporated on July 2, 2013 under the laws of the state of Delaware to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions. The Company has limited operations to date. The company was formed to provide a method for a foreign or domestic private company to become a reporting company with a class of securities registered under the Securities Exchange Act of 1934.

The Company registered its common stock on a Form 10 registration statement filed pursuant to the Securities Exchange Act of 1934 (the "Exchange Act") and Rule 12(g) thereof. The Company files with the Securities and Exchange Commission periodic and current reports under Rule 13(a) of the Exchange Act, including quarterly reports on Form 10-Q and annual reports Form 10-K.

In May, 2014, the Company effected a change in control by the redemption of the stock held by its original shareholders, the issuance of shares of its common stock to new shareholders, the resignation of its original officers and directors and the appointment of new officers and directors.

The Company issued 1,000,000 shares of its common stock pursuant to Section 4(2) of the Securities Act of 1933 at par representing 66.7% of the total outstanding 1,500,000 shares of common stock as follows:

500,000	Rubin Schinderman
500,000	Alexander Starr

With the issuance of the 1,000,000 shares of stock and the redemption of 20,000,000 shares of stock, the Company effected a change in its control and the shareholder(s) elected new management of the Company. The Company changed its name as part of the change in control.

Business and Plan of Operations

The Company is designed to become an online chess site featuring sophisticated playing zone, game broadcasts with software analyses and top analysts' commentaries, education and other chess oriented resources. With the availability of global high speed Internet access, the Company anticipates that it will be able to deliver a high quality product featuring broadcasts of top worldwide games, education, interactivity, playing and other services.

The Company believes that chess players have two major needs: (1) to play against each other and (2) to watch games of top players including Grandmasters. The viewing of chess games is particularly adaptable to the Internet to allow for real time or archived viewing while enjoying the comments, announcements and analyses of top experts. The Company anticipates that the playing zone will utilize two-level architecture allowing thousands of users to watch and play as individuals and/or as teams. Web-based services designed for browsers and table computers will be the project's centerpiece and main point of focus. The Company anticipates that such an Internet site will have a great appeal to the vast worldwide chess playing population.

The Company, acquired certain assets (the "Acquisition") of Chess Supersite, Inc., a corporation existing under the laws of Ontario, Canada. The Acquisition was consummated pursuant to the terms of the Asset Purchase Agreement (the "Agreement") dated July 23, 2014 and in exchange for the issuance of 5,000,000 shares of common stock to Chess Supersite, Inc. The purpose of the Acquisition was to develop the Company's business and build substantive operations from this initial base of assets, as well as to facilitate and prepare the Company for a registration statement and/or public offering of securities. On December 11, 2014 the Company filed a form 8-K, changing the status of the company from shell to operating.

During the current period, the Company has started to generate revenues. There is currently no income or cash flows from operations, however due to the high initial costs. The Company's independent auditors have substantial doubt about the Company's ability to continue as a going concern. At present, continuation of the Company as a going concern is dependent upon financial support from its stockholders and its ability to obtain necessary equity financing to continue its operations.

Currently, the Company is in the process of completing its comprehensive user friendly web site www.chessstars.com. The portal is going through extensive testing by our professionals and public-at-large. The website is currently offering a state-of-the-art playing zone, broadcasts of the major tournaments, intuitive mega database, chess skilled contests and much more. It is expected to be fully tested by the year end 2016, including the program for the opening date (matches, tournaments, chess skilled contests), incentives for the public (such as 1 year free Platinum Membership to those registered under their real names) etc. The Company has also involved World's top Grandmasters as members of the advisory board, commentators, and as event programming managers, etc. Design, operation and continuous improvement of the website has been possible at the cost of significant time and expense. These expenses have been reported by us on the statement of operations as website development and software development expenses, and represent a major value to the Company and its investors. On July 11, 2016, the Company successfully filed an international patent protection for its online chess competition entitled "Choose Your Moves and Win" which utilizes an interface mechanics developed by the Company based on live chess broadcasts. The nature of the Company's patent is to create a practical, educational yet enjoyable mechanism helping students to understand the selection of moves by strong grand masters who play a match online. Besides the game itself, students see on their screens 3 hints (best moves) selected by one of the strongest computer programs, while listening to grand master commentary, all in real time. Once the game is over, all students/spectators are invited to participate in an analysis of the game just played, along with the players and commentators.

On July 6, 2015, the Company filed its form S-1/A, to amend its form S-1 previously filed on January 26, 2015 and December 11, 2014. This prospectus relates to the offer and sale of 1,500,000 shares of common stock (the "Shares") of Chess Supersite Corporation. (the "Company"), \$0.0001 par value per share, offered by the holders thereof (the "Selling Shareholder Shares"), who are deemed to be statutory underwriters. The selling shareholders will sell the shares offered herein at the fixed price of \$0.50 per share for the duration of the offering.

The maximum number of Shares that can be sold pursuant to the terms of this offering by the selling shareholders is (in aggregate) 1,500,000 Shares. Funds received by the selling shareholders will be immediately available to such selling shareholders for use by them. The Company will not receive any proceeds from the sale of the Selling Shareholder Shares.

On July 13, 2015, the Company received a notice of effectiveness from the SEC for the registration of its shares.

On September 22, 2015, the Company was able to secure a OTC Bulletin Board symbol *CHZP* from Financial Industry Regulatory Authority (FINRA).

Evaluation of disclosure controls and procedures

Pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 (“Exchange Act”), the Company carried out an evaluation, with the participation of the Company’s management, including the Company’s principal executive officer and principal financial officer of the effectiveness of the Company’s disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Company’s principal executive officer and principal financial officer concluded that the Company’s disclosure controls and procedures were not effective as of September 30, 2016 to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms and (ii) is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Changes in internal controls

No change in our system of internal control over financial reporting occurred during the nine months ended September 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
