

THE GREAT AMERICAN ECLIPSES

The Great American Total Solar Eclipse darkens the skies all the way from Oregon to South Carolina on August 21, 2017. The expanse of the shadow along a stretch of land is about 70 miles wide. The eclipse has a magnitude of 1.0306 and is visible along the narrow corridor through the heartland of the United States as if it is 'dividing' it in half. The Longest Duration of 'Totality' will be 2 minutes 41.6 seconds at the map coordinates of 37°35'0"N 89°7'0"W. This point is in the Shawnee National Forest just south of Carbondale, Illinois. The Greatest Extent or Maximum is at the map coordinates of 36°58'0"N 87°40'18"W. This point of intersection is at Cedar Lake. Interestingly, the entire eclipse phenomenon incorporates the coefficient of the number 33. This number reoccurs numerus times. Primarily, there will be 33 days from the Great Eclipse to the Great Sign in the Heavens. This Great Sign in the Heavens pertains to the astronomical alignment that many purport to be the fulfillment of the Revelation 12 Sign of Virgo. There is also the factors of Oregon, where the eclipse starts happens to be the 33rd state in the Union. The eclipse will exit on the 33rd latitude and the Moon that causes the eclipse, called the Black Moon occurs on the 33rd day. The planet Venus will be at a 33 degree angle from the eclipse and the last time such a similar eclipse occurred, in 1918 was 99 years. Or a factor of 33-33-33.

Is the event a harbinger of the coming division of the USA, physically as it is morally, economically, politically and socially?

Those that study a measure of astronomy and Biblical prophecy will early-on realize that Leo specifically pertains to the Redeemer, the Conquering Lion of the Tribe of Judah.

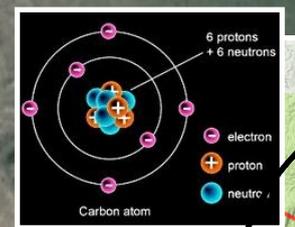

Leo is the type of Christ that was promised, came and will again. It is also the end of the Mazzaroth or Zodiac as Virgo is the start or the commencement of it.

TOTAL SOLAR ECLIPSE

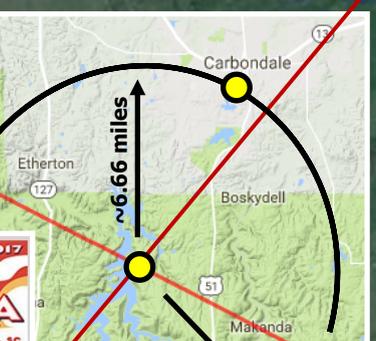

Duration of Totality	2m40.1s
Obscuration	100.00%
Type of eclipse	Nature Total
Gamma	0.4367
Magnitude	1.0306
Maximum	160 sec (2 m 40 s)
Coordinates	37°N 87.7°W
Max. width of band	115 km (71 mi)

Times (UTC)

(P1) Partial begin	15:46:48
(U1) Total begin	16:48:32
Greatest eclipse	18:26:40
(U4) Total end	20:01:35
(P4) Partial end	21:04:19
Saros	145 (22 of 77)
Catalog # (SE5000)	9546

Carbon 6-6-6

10 REASONS WHY THE NUMERICAL FACTOR OF 33 found associated with this 2017 Great American Eclipse could very well be prophetic.

- 1 - Eclipse enters through the 33rd state, Oregon.
 - 2 - Eclipse exits at the 33rd latitude just north of Charleston.
 - 3 - Eclipse occurs 33 days out from the Great Sign of Revelation 12 on (9-23)
 - 4 - The Moon will be approximately 239,000 miles away during eclipse (9-23?)
 - 5 - Sun rises to a darkness with a 'Black Moon' that occurs only every 33 months.
 - 6 - Venus will be 33 degrees at an angle from the eclipse of the Sun.
 - 7 - Eclipse last occurred 99 years prior, a factor of 33+33+33.
 - 8 - The average shadow width (170-70 miles) will be 66 miles 33+33.
 - 9 - August 21 is the 233rd day, 2-33.
 - 10 - Trump's 1st day in Office Jan 21, 2017 to Aug 21, 2017 = 7 months exactly or 30 weeks, 3 days (33) with end day included.
- At point of Greatest Eclipse, the speed of the eclipse will be 2323 mph/33 = 40 (judgment).
 - August 21, 2017 is Elul 1, which means 'Harvest'.
 - April 8, 2024 is Nissan 1, is the Religious New Year
 - From point of Totality, 33° heading to Georgia Guidestones
 - Charleston is home to 'Mother Lodge' of 33° Masons

6 years, 7 months, 19 days

The solar eclipse occurs in the Leo constellation that has the Royal Star. It is known in the Cosmos as Regulus which conjoins the total solar eclipse at this time. It is also exactly 1 month away from the astronomically alignment of the Great Sign of Virgo of the book of Revelation 12.

Will this conjoining signal some type of event that will have the USA play a key role pertaining to a 'royal' debut or event that will lead the nations to a coming judgment? Solar eclipses are a bad omen for the Gentile nations.

BLACK MOON

The New Moon that will cause the total solar eclipse will be a Black Moon. These Black Moons are a rarer and occur about once every 33 months. In certain forms of Pagan religions such believe that certain actions become more potent when performed on the night of a Black Moon.

The both eclipses will travel across 10 states. The number 10 according to BibleStudy.org, signifies testimony, law, responsibility and the completeness of order. Ten therefore represents man's responsibility to keep the commandments of YHVH, which the USA as a divided nation has not at this stage of its final 'division'.
