Medical Writing and Editing Services

p | +1 615 346 5346 e | info@DaVinciResearchSolutions.com w | www.DaVinciResearchSolutions.com

Da Vinci Research Solutions' medical writing and editing staff and consultants possess the skills and relevant medical and scientific education to produce expertly written documents and presentation materials. Our internal cross-checking and editing processes ensure accuracy and consistency.

Da Vinci Research Solutions offers medical writing as a component of a **full-service program** or as an **ad hoc service**. Depending upon the client's wishes, we will use our in-house templates or client templates, and we will follow client style guides upon request.

Right on target, every time

The medical writing specialists at Da Vinci Research Solutions are experienced, **professional translational medicine experts** skilled in targeting materials at the correct level to the appropriate audience. Our trusted statisticians are involved at every stage of the product life cycle, from initial study design through postmarketing compliance.

Experienced medical writers produce

high-quality documents and presentations, which speeds review and approval.

Access up-to-the-minute clinical data

Da Vinci Research Solutions has **full-text online access** to an extensive digital library of electronic journals, books, databases, and other electronic resources. In addition to regulatory submissions, FDA briefing materials, and manuscripts for peer review, our specialists will effectively plan for conference engagements and will work one-on-one with you to prepare customized abstracts, presentation materials, and other communications, while keeping you informed of the latest clinical advances in your therapeutic area.

Essential Knowledge

The medical writing team at Da Vinci Research Solutions is experienced with MedDRA term selection, as well as ICH, ICMJE, CONSORT, STROBE, PRISMA, STARD, and GPP2 writing guidelines.

Our team is trained and in Microsoft Office® and Adobe Creative Cloud applications (Acrobat Pro® XI, InDesign®, Photoshop®, and Dreamweaver®), as well as SPSS®, GraphPad Prism® 6, and EndNote® X7 software.

DRS offers a

creative, focused, and detail-oriented

approach to medical writing.

- Journal manuscripts, abstracts, posters, presentations
- Medical communications (newsletters, white papers, etc.)
- Clinical study protocols and informed consent forms
- Investigator's brochures
- FDA submissions (IND, IDE, NDA, BLA, PMA, 510(k))
- Data analysis; safety, interim, and annual reporting
- Clinical study reports
- FDA briefing summaries and documents
- Post-approval submissions and compliance documents
- CE/Literature reviews for Health Technology Assessments
- Executive summaries for safety and efficacy

Ensure the accuracy and precise presentation of your findings and ideas.

Don't risk errors. The PhD-level editors at Da Vinci Research Solutions understand the expectations of FDA review committees and journal editors, and are experienced with international clinical reporting guidelines. We will apply our expertise to ensure that your documents and presentations are tailored to meet the requirements of your target audience.

For client-generated materials, we offer three levels of editing services with fast turnaround times and rush capability. You can rest assured that your project will be handled with **utmost care and guaranteed confidentiality.**
