This is Our 18th Year of bringing Women together to learn the fine arts of Primitive Skills

Women's Primitive Skills is a weekend for Women to share crafts, skills and conversation. To step back in time to the "Mountain Man/Colonel" era. This was the time period between 1780 and 1840 in North America. We learn to do and make those things our ancestors used to survive in the primitive world of trappers and traders. We have women who attend from all over the US and Canada.

Early registration is advised since we fill up fast.

♥ Attention This is a Women's Only Event! ♥

We only except Women 13 years and up.
