

# ALL-IN-ONE BITLESS BRIDLE SIZING

**Noseband Measurement:** measure circumference just below the “facial/muzzle bone” that runs alongside your horse’s face.

**Throat Latch:** measure all the way around from poll, under throatlatch, back up to poll

**Side Face:** measure from just below the facial/muzzle bone to directly below your horse’s ear – this determines the length from nose knot to ear.

Review the chart below to determine which of our sizes will achieve the best fit for your horse.

The All-In-One Bitless Bridle is adjustable – [Click here](#) to watch how to adjust your All-In-One

*NOTE: All measurements are for distances between knots - not from the center of a knot*

Length in Inches	Halter Measurements					
	Arab	Small Horse	Standard	Draft Cross	Mule Draft	Draft
Crown	28	29	30	32	30	34
Cheek	9	9	10	11	10	12
Overall Noseband	10.5	11.5	12.5	13.5	14	14
Gullet	5	5	6	7	6	7
Throat	9	9	10	11	10	12
