WHY YOUR MOM IS A BOSS

Once you turn 18, you've been alive for over **157,000 hours**, and your mom didn't get any time off from being a parent.

If your mom was paid the current average national minimum wage for those hours, she would have earned over **\$63,000 a year.**

THE INFLUENCE of a Mother IN THE LIVES OF HER CHILDREN IS BEYOND calculation

2. She is the short-cut for faith and love.

Teach these commandments
to your children
and talk about them
when you are at home
or out for a walk;
at bedtime
and the first thing
in the morning.
Tie them on your finger;
wear them on your forehead
and write them
on the doorposts
of your house.

Part 3. For the Sheep without Shepherd

3. She hears the cries of her own children.

*Researchers have found that a cry activates the amygdala – that's the part of the brain that controls the flight or fight response. It's a primitive reaction that floods the body with adrenalin, gets our hearts racing and escalates our blood pressure. A **baby's cry** can even make a mother's hands and feet sweaty and gets her alert and **ready for action**. In other words, it's pretty hard to ignore.*
