

# Watershed Bus Tour

## June 8th, 2019

### Agenda - Stops Along the Way

- **Bayer Research Farm, Waterman**
  - \* View a cover crop demonstration and learn through a rainfall simulator how rainfall affects runoff.
- **Head waters of the South Branch of the Kishwaukee River**
  - \* Discussion of the area that is currently under planning and factors that effect water quality.
- **Kishwaukee Water Reclamation District**
  - \* Visit with staff and learn how waste waters are made safe to reincorporate into our rivers and streams.

- **Tour of the South Branch Kishwaukee Watershed - Best Management Practices**

- \* Hear from professionals about current and future projects in the watershed and how proper planning helps benefit our communities.

- **Lion's Park, DeKalb - Research information about invertebrates and water quality testing**

- \* Engage and learn about current water testing in the watershed and how some species of aquatic animals are used as measures for water quality.
