Writing

Writing starts with an outline. List the points that you want to make in order of importance & cover each point fully & individually. The lead should be ?style. It will convey vital information about what's following, in the shortest & simplest way. A lead needs to persuade the reader to continue reading. The main-body of your writing needs to be simple & concise. Opinions must be active & personal. Edit!

Plagiarize

Why rewrite something that is well written. Rather use it & expand on it. Re-writing is time wasting & not in the best interest of broadening the mind. A good piece of writing should be cherished not be mutilated by rewriting. Reading a good piece of writing encourages the mind to lift one's intellect to the high standard of the original. Stopping this thinking to concentrate on rewriting is mediocre education.

Threat

GM-CROP *(Evil-Seed)*

Genetic modified (*engineered*) **Crops** are based on Seeds(*Evil*) altered by humans of **1GOD's** original design for the purpose of Greed, Profiteering & insulting **1GOD**.

Background: During the US invasion of Indo-China (*South-East Asia*). The US Military ordered the develop & usage of Herbicides, a weapon of 'Mass-Destruction (*Agent-Orange*)' of Vegetation & Eco-system. Removing the foliage made it easier from the air to gun down fleeing children, women & livestock. The poisoned eco-system led to mutations. Result sick people & animals, birth-defects...

The Herbicide-manufacturers (*Greedy-profiteers*) expanded from Plant-killers into Seed-poisoners. A normal seed is modified using techniques learned creating 'Herbicides'. These modifications create unnatural mutations '**Monster-Seeds**'. Also modifications make seeds impotent to re-sowing from crop, forcing to always buy seeds each season (*Greed*).

Bees stay clear of GM-Crop knowing it is not good for them. More GM-Crop =less food for bees. Less food for Bees less bees,less honey... Less bees lower pollination of non-poisoned plants.

GM-Crop is grown for feed of Farm-Animals & manufacture **GM Food**. The food creatures eat influences their digestion. To digest Modified plants a creatures digestive system must modify (*genetic re-engineer*) itself via Evolution. This unnatural (*Anti-1GOD*) type Evolution creates unnatural new types of Mutations.

Genetic Modification (*GM*) is Anti-GOD, a threat to humankind, all other creatures & the environment. GM-Crop because of the flow-on effect alters the whole Food-chain. Creating mutations which create new Diseases & Life-threatening Global-Plagues in all members of the Food-chain! People will become more sick, Die younger, more sick babies, more miscarriages...

GM-Food: Alfalfa, Baby-food, Bacon, Bread, Breakfast-Cereal, Canola, Chicory, Corn, Cotton-seed oil, Eggs, Ham, Margarine, Meat, Papaya, Peas, Potato, Poultry, Sausages, Soybean, Sugar-beet, Sugarcane, Sweet-Peppers, Tomatoes, Wheat, Zucchini,...

Cure to this threat to Humankind & the Ecosystem is Prevention & Treatment.

PREVENTION! Stop: GM-Research, GM Seed-manufacture & GM-Crop growing.

TREATMENT! Government prosecutes: GM-Scientist, manufacturing Executives, Directors, Owners & Crop-Growers for "Crime against Humankind & against the Ecosystem". **MS /R7.**

Government eliminates Threat by scorching GM-Research & Seed manufacturing facilities. GM Crops are burned. Contaminated Soil were GM-Crops were grown is scorched 3 years running. Government that doesn't implement this 'Treatment' is replaced.

GM-Crop via processing & stock-feed create GM-Food a threat to Human & Animal health. All production of GM-Food is stopped all production facilities are incenerated by the Shire. Production owners & senior staff are prosecuted **MS /R7.** Government that doesn't end the production of GM-Food is replaced.

Genetic Modification is unnatural Anti-GOD. Don't Insult 1GOD!

The providers of Genetic modified (*engineered*) Seeds provide herbicides (*poison*) to kill vegetation. The poison flows through to the roots of a plant into the soil poisoning it. Seeping into waterways & reservoirs poisoning them ending up in the Ocean poisoning it.

All production of Herbicides is stopped all production facilities are closed down. Production owners & senior staff are prosecuted **MS /R7.** Government that doesn't end the production of Herbicides is replaced.

Protecting Humankind, Animals & Environment is everyone's civil & moral duty. Don't shun your responsibility. Grand children will, Thank You!
