

Eco Flower Fairies

Environmentally Friendly Pledge

Eco Flower Fairies is the U.S. brand of the beautiful flower fairy dolls handcrafted with love and care in the Waldorf tradition by SC Ambrosius Prodcom SRL in the city of Cluj-Napoca from Transylvania, Romania.

We pledge to always have our dolls made by caring hands out of environmentally friendly materials. Currently we use wool felt, wool, cotton interlock knit, recycled paper, pipe cleaner wire, wood and glass beads. Also, their packaging consists of recyclable paper and biodegradable cellophane. This way we show that we care for the future of our planet's children and flowers.

Will you pledge to always recycle their packaging?
Thank you!

Warning: Choking hazard! These dolls are for decorative purposes. They should not be advertised or used as toys, as they contain small parts that can accidentally detach.
