For Commercial Construction and Government Contracting, Nothing Compares to the Vantage Advantage

Thank you for visiting Vantage Construction Group. We are a full-service general contracting and construction management company that specializes in commercial projects and government contracting services.

But our true specialty is understanding our client's vision and making it a reality: Great places to work. Fun places to dine with friends. Enjoyable places to be when you're traveling. Safe and efficient places to rest and recoup. Well-designed, well-built environments that make a community a better place.

ABOUT US PAGE

The Vantage Advantage

Big Company Expertise.

Lean Management Efficiency.

Personalized Attention.

Vantage Construction Group is a full-service general contracting and construction management company. We specialize in commercial building projects: retail, restaurant, hospitality, healthcare and office construction and government contracting services.

Our company's management experience, market knowledge, financial strength and reputation for quality are a winning combination. Our commitment is to not only satisfy the high standards of our clients, but to also enhance the community as a whole. Those principles are instilled in every member of our project team and ensure quality is maintained in every aspect of construction.

Vantage has successfully completed numerous complex commercial, federal and municipal projects as a Prime Contractor, Subcontractor and Construction Manager. Our overriding focus is on creating environments that are comfortable, efficient and meet the high expectations of our clients.

While our team has more than 65 years of combined construction experience, Vantage is not as large as the national companies. We like it that way. We work as a team of highly-skilled professionals, with good coordination among different specialties and efficient progress on each day's work. We maintain excellent communications with our clients, providing a level of service and involvement in details not always found in larger companies.

Vantage Construction Group is a certified Minority and Disadvantaged Enterprise and is part of the Certified SBA 8(a) Program. We have an outstanding safety record and train and re-train our team members in safety measures prior to the commencement of any project. Our Project Managers are all OSHA-certified.

We are proud of our work and invite you to view our portfolio of recent projects. Then give us a call and tell us about your dream project. We'll show you how the Vantage Advantage will make it a reality.

The Vantage Advantage**Deep Industry Experience.****Tight Budget Management.****Obsessive Quality Control.**

Every industry has its own set of priorities and unique challenges. One advantage of choosing Vantage Construction Group is our in-depth experience in multiple industries:

- **Commercial**
 - VCG has extensive experience in hotels, restaurants & hospitality, healthcare and medical facilities, retail commercial centers and office building complexes
- **Government**
 - VCG has completed federal, state and municipal contracts including airports and military installations

No matter what the nature of the project, your Vantage Construction Group team will ensure the construction process meets and surpasses your expectations. Our process includes:

- Kickoff meeting with the owner's management team
- Timely documentation with submissions to licensing parties and to the owner's team, including two-week look-ahead schedules
- Site-specific logistics plans, including safety elements built into every phase
- Strictly-enforced budget guidelines for our team and subcontractors
- Regular reports from the Project Manager
- A complete training session for the owner's team at commissioning
- Warranty/Guarantee process to resolve any post-construction issues

Want to know more? Tell us about your upcoming project and we'll submit a detailed proposal – wait till you see what the Vantage Advantage can do for you!

Buttons for "Commercial" and "Government" initiate dropdowns.

Each project name is a hyperlink to a PDF of the project with visuals and details.
