A bit about me: I was surrendered by my Owner because the little humans were allergic to me. I have had one family my entire life and get along with other dogs, never met a cat. I enjoy laying in the sun and going on strolls. I'm housebroken. A toy, a treat, some love...is that too much to ask for?

A bit about me: I was an Owner Surrender. I am a sweet, super quiet, adorable and loving little gal who needs walks to lose some weight. Too many treats and not enough attention has led me to be slightly plump. My ideal person will be a retired person who wants a lap dog and someone to go on light strolls with, someone to keep you company and give you pug kisses. Let's grow old together, enjoying simple pleasures.

A bit about me: I was saved from a high kill shelter in CA. I was moved to AZ to find my forever home. I am scared of thunder and other loud noises. I absolutely adore kids. I will do best in a home with another dog or children and I prefer to have someone at home with me all day as I get vocal when left alone. It is short lived but it happens just the same. I am friendly, love walks and playing chase

A bit about me: I came to the rescue with severe medical needs. My ears were so infected and compacted with infection that I almost lost my hearing, I was a walking infection from all of my allergies. I am a bit overweight because my thyroid disorder was going untreated. But things have changed. I am now healthy and happy and take a daily pill for my thyroid. I love walks, treats, and cuddles but please don't touch my feet. Dog parks aren't my thing as I am allergic to grass. Belly rubs are one of my favorite things. I am a Pug mix.

A bit about me: I was found at a high kill shelter with my fur friend. She was adopted and I was left to be killed. Luckily I was rescued and am learning how to live in foster care as my we look for my forever home. I had to learn out to trust again after my ordeal on the streets and at the shelter. I am living with puggles and cats and with a proper introduction I should be okay with new fur siblings. I would prefer a home where I can be spoiled, lay on your lap, get cuddles and walks. If you garden I will enjoy laying in the sun and watching you. I'm super sweet just hesitant and shy at first. Once I know you aren't going to be mean or abandon me I will love you forever.

A bit about me: I am one of Winky's puppies that was adopted at 10 weeks of age. I found myself back at the rescue after a child scared me and I growled at her. I don't like loud noises, arguments, hitting or anything scary. A home should be peaceful, loving and calm. That is what environment I need. I also need someone who is active who will take me on walks or runs. A dog friend who is my size to play with. I enjoy car rides, lying next to you for cuddles, duck jerky, and Natural Balance small kibble Duck and Sweet Potato food as my mouth isn't made for large kibble. Did you see what combo of dog I am. LOL. I have a heeler mouth with a pug under bite. I am probably the most adorable pup you will ever see. My fur is the softest too. I love getting brushed. I would sit there for hours as you brush me. I know sit. I like squeaky toys, playing chase and fetch. I am doggie door trained/housebroken.
