DESCRIPTION: Rare highly regarded FASCO recurve. Birds Eye Maple riser. Light blue back limbs, and white face limbs. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes; No chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. Decal is in good shape. There is one flaw with this bow. There was a long thin scrape along the edge of the upper back blue limb. This was not deep and does not adversely effect performance or integrity in any way. A previous owner had filled the scrape with an off color filler. I tried to match the color and touch it up as best I could, but it is readily visible from up close (see pic on last page). Otherwise, this is a really nice bow in excellent condition for its age. If you looking for a smooth, accurate target bow in a light poundage, this is a good choice.
