Warning: Choking hazard! These dolls are for decorative purposes. They should not be used or advertised as toys, as they contain small parts that can accidentally detach. After opening, carefully remove and dispose of their cellophane bags.

Packaging

We offer four packaging options:

1. Standard Individually Packaged Dolls – each doll in a cellophane bag with their card stock packaging attached, ready for sale

Advantages:

- you get them ready to display for sale to the final customer in their packaging

Disadvantages:

- more expensive shipping – less individually packed dolls fit in a shipping box versus the bulk ones
- more storage space required and careful handling is needed, so the package does not get bent or wrinkled

2. Bulk Dolls with Bulk Packaging Materials - bulk packed dolls on Styrofoam tray in cellophane bag (maximum 20 dolls per tray), together with their bulk card stock packaging and cellophane bags

Advantages:

- cheaper shipping –double the number of bulk dolls fit in a shipping box versus individually packed ones
- less careful handling and storage needed, no worries about packaging getting bent or wrinkled
- easy three step final package assembly process
- you are able to actually hold them and study their craftsmanship

Disadvantages:

- extra time (~1 minute per doll) on packaging them individually with the provided materials (cellophane bag and card stock packaging) according to the packaging instructions provided if you choose this option
- the packaging requires a stapler and your own staples

3. Bulk Dolls without Packaging - bulk packed dolls on Styrofoam tray in cellophane bag (maximum 20 dolls per tray), without individual packaging materials, discount \$0.15 per doll

4. Custom Individually Packaged Dolls - each doll in a small cellophane bag with label, that fit in an Easter egg, ready for sale, discount \$0.10 per doll
