Re: **Public Bulletin**
NWL-02001047 – James Street Storm Sewer Upgrades

The Town of Elk Lake is performing upgrades to the storm sewer system within James Street and surrounding areas. The project location includes parts of James Street, Edna Street, Main Street, Elk Street, and Smyth Street, as shown in the figure below.

Construction is slated to start the first week of October and is anticipated to last approximately two months. Residents may experience brief periods of water shutdowns, driveway closures and temporary road detours as a result of the construction.

Should you have any concerns or questions regarding the construction works, please contact the Town or EXP at the addresses below.
