SILENCER

the STAG

Stemmler Compound Bows

The best of both archery worlds . . . the unique advantage of compound performance with fine bowyer's handcrafted styling in wood.

In 1977 Mike Fedora joined the Stemmler staff as Master Bowyer and design consultant. His custom bows, renowned for performance and design, have been consistent winners in many national tournaments. In 1978 our bow program continues under his careful guidance, and with three basic principles in mind: **Safety, reliability and soundless performance.**

We have designed two wheelers for their simplicity and efficiency: minimized maintenance and tuning, and improved performance. The combination of our own limb and eccentric wheel assembly design provides our bows with an extremely smooth draw: no jolt past peak, and some give at full draw. We use wood, a non-resonating material, in all of our handle sections because of its ability to dampen vibration, give warmth to the hand, and lend beauty to the bow.

the SILENCER

Model No. 2421

Our two-wheel compound featuring fully-tapered replaceable limbs using select maple cores. A quiet and reliable bow designed for hunting game in the greatest variety of conditions.

ARCHERY WORLD* had this to say in their bow report . . . "As adjunct to the chronograph test, we also shot the Silencer by hand. We found it to be a smooth draw, quiet shooting bow with very good stability and consistency. There was minimum recoil shock and no trouble with cable/fletching interference . . . The Silencer is rugged and well built with fine craftsmanship and good finish."

Specifications:

Size: 44 $\frac{3}{4}$ " axle to axle
 Brace height: 10 $\frac{1}{2}$ "
 Sight window: 5 $\frac{3}{4}$ " center shot
 Weight: 4 lbs.
 Draw lengths: 27" to 31"
 Let off: 35% to 40%
 Draw weights: 45/50; 50/55; 55/60 lbs.
 Replaceable limbs available
 Left-hand model available
 Drilled for sights and other bow accessories

*For a complete copy of the report, write us.

the STAG

Model No. 2424

A one-piece two-wheel compound with fully tapered limbs utilizing the same eccentric wheel elements as the costlier SILENCER. Compound performance with the look and feel of a handsome recurve bow. The back of the bow is one continuous piece of glass for great strength and durability. Built to withstand the toughest field conditions, the STAG comes tapped for stabilizer or bow-fishing reel. The flat riser surface permits easy sight mounting.

Specifications:

Size: 42 $\frac{1}{2}$ " axle to axle
 Brace height: 10 $\frac{1}{4}$ "
 Sight window: 6 $\frac{1}{4}$ " center shot
 Weight: 3 lbs.
 Draw weights: 45/50; 50/55 lbs.
 Draw lengths: 27" to 31"
 Drilled for mounting sights and other bow accessories
 Left-hand model available

the SLX-7

Model No. 2426

The latest addition for 1978 to our compound bow program. A quality one piece laminate limb compound; short (42" axle to axle) and light weight (2 lbs. and 8 oz.) with an unbeatable smooth draw. The SLX-7 has a wood riser with a superior palm fit to prevent bow tilt. Ideal size for tree stand shooting, and carrying in the brush. A quality bow at a popular price. No tuning required, minimal maintenance. All hardware elements are weather proof.

Specifications:

Weight: 2 lbs. 8 oz.
 Length: 42" axle to axle
 Let-off: 40% to 50%
 Draw Lengths: 29" and 31"
 Draw Weights: 45/50; 50/55 lbs.
 Tapped for stabilizers, bow quivers, and other bow accessories
 Riser colors:
 Forest Green; Natural
 Limb Glass: Black
 Bowstring: 36" monofilament serving, small loop

ECCENTRIC WHEEL ASSEMBLY

Materials were chosen for strength, lightness of weight, durability, weather resistance and friction and noise reduction. Self-lubricating Delrin wheels are not affected by temperature. Nylon washers minimize friction and sound; stainless steel axle; wide step-up wheel for maximum fletch pass; nylon coated cable for quiet shooting; powder-coated steel brackets.

GLASS REINFORCEMENT

In maximum stress areas, where eccentric wheel assembly is attached to limbs and where limbs rest on the handle section, glass reinforcement is used. The backs of the handle sections have glass layers for added strength at the pivot point.

Licensed under Allen Patent 3,486,495

TAKE-DOWN LIMB ATTACHMENT

The bolt and anchor system with its unique lineup pins provides positive limb attachment.

SPB-1 Model No. 2410

Versatile, simple, elegant . . . this takedown bow comes as powerful as you want it. It packs into a small carrying case (35" x 6³/₄" x 2¹/₂"). It has been designed in its entirety by

Mike Fedora whose bows have won many a National championship. Steel line-up pins allow positive limb alignment. Three layers of glass are used to reinforce the back of the riser and strengthen the pivot point of the bow. The handle sections are made of selected hardwoods, naturally finished without stains. The archer can select a set of hunting and target weight limbs.

Specifications:

Draw weights: 30 to 50 lbs.
Sight Window: 5³/₄" center shot
Length: AMO64
Weight: 3 lbs.
No. 2411 SPB-1 Extra Limbs
Specify bow handle serial number and draw weight

The SPB-1

Stalker Model No. 2440

The STALKER, the ultimate companion for the bow-hunter who knows what it means to put his skill on the line. Strength, stability and small size combine to produce results for the archer dedicated to the trouble-free recurve. No compromise on quality or materials results in one of the best hunting bows ever manufactured. Features include full working recurve, added glass laminates at the tips for extra strength; comfortable palm fit handle; tapped for stabilizer and other bow accessories. An ideal size for the tree stand hunter.

Specifications:

Draw Weights 45, 50, 55 lbs.
Length AMO54
Left-hand model available

Jaguar Model No. 2450

Using the same basic materials (selected hardwoods, maple limb cores, and glass laminates) as our popular STALKER, the JAGUAR is a longer hunting bow. It offers the advantages of longer limbs in modified recurve design to minimize finger pinch and allow less shock in release. The serious bowhunter who prefers a longer bow can take pride in his JAGUAR, secure in the knowledge that its reliability will complement his skill.

Specifications:

Draw Weights 45, 50, 55 lbs.
Bow Length AMO60
Left-hand model available

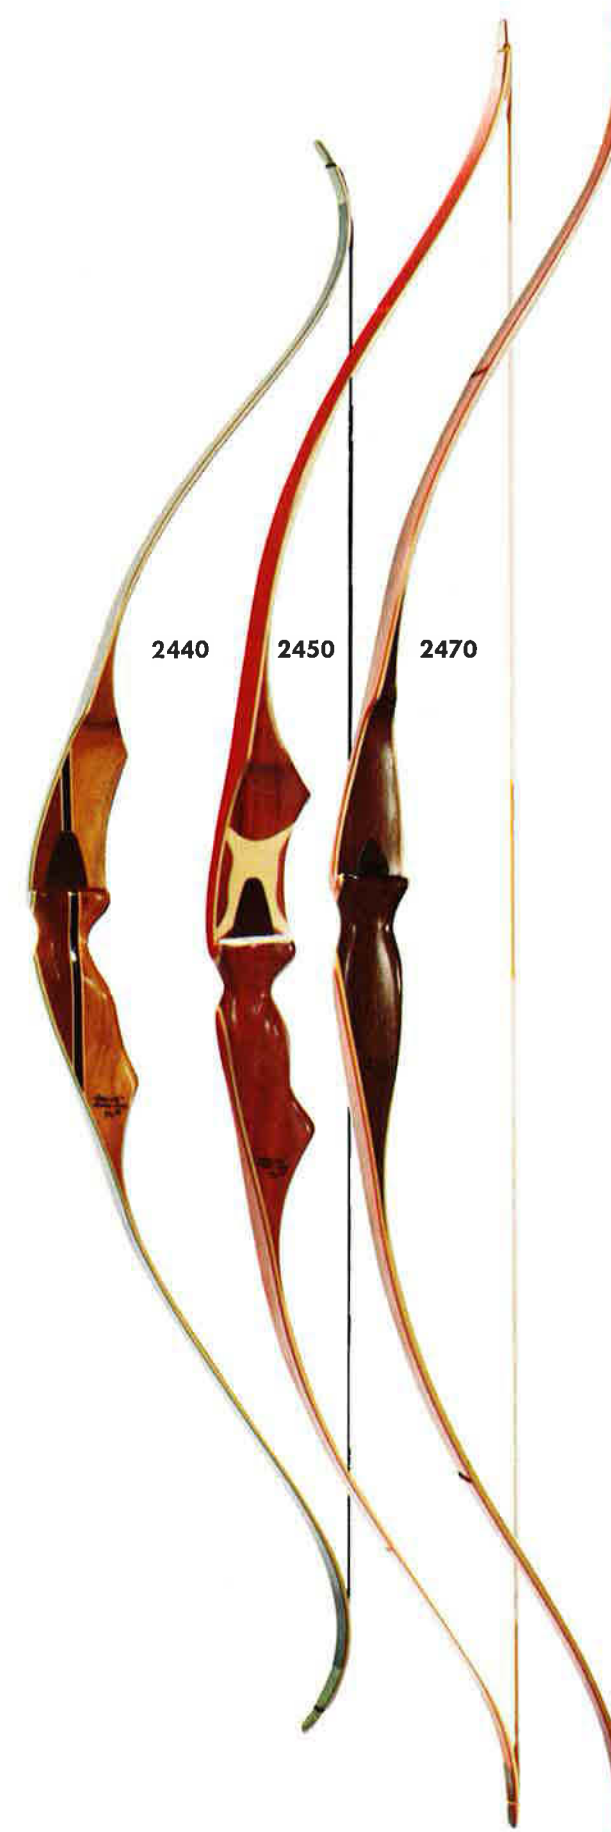

Squire Model 2470

The SQUIRE is a fine selection for the budding target archer, who, after much diligent practice with a fiberglass bow, is ready for the thrill of the smoother steadier action of longer laminate limbs.

The same bowyer's skills and materials that go into our finest bows are used in this fine beginner's target bow. A moderate investment, handsome to look at; it is guaranteed to whet the beginner's appetite for further ventures in archery.

Specifications:

Draw weights 20, 25, 30, 35 and 40 lbs.
Bow length AMO60
Left hand model available

Introducing... The Varsity Target Bow Series.

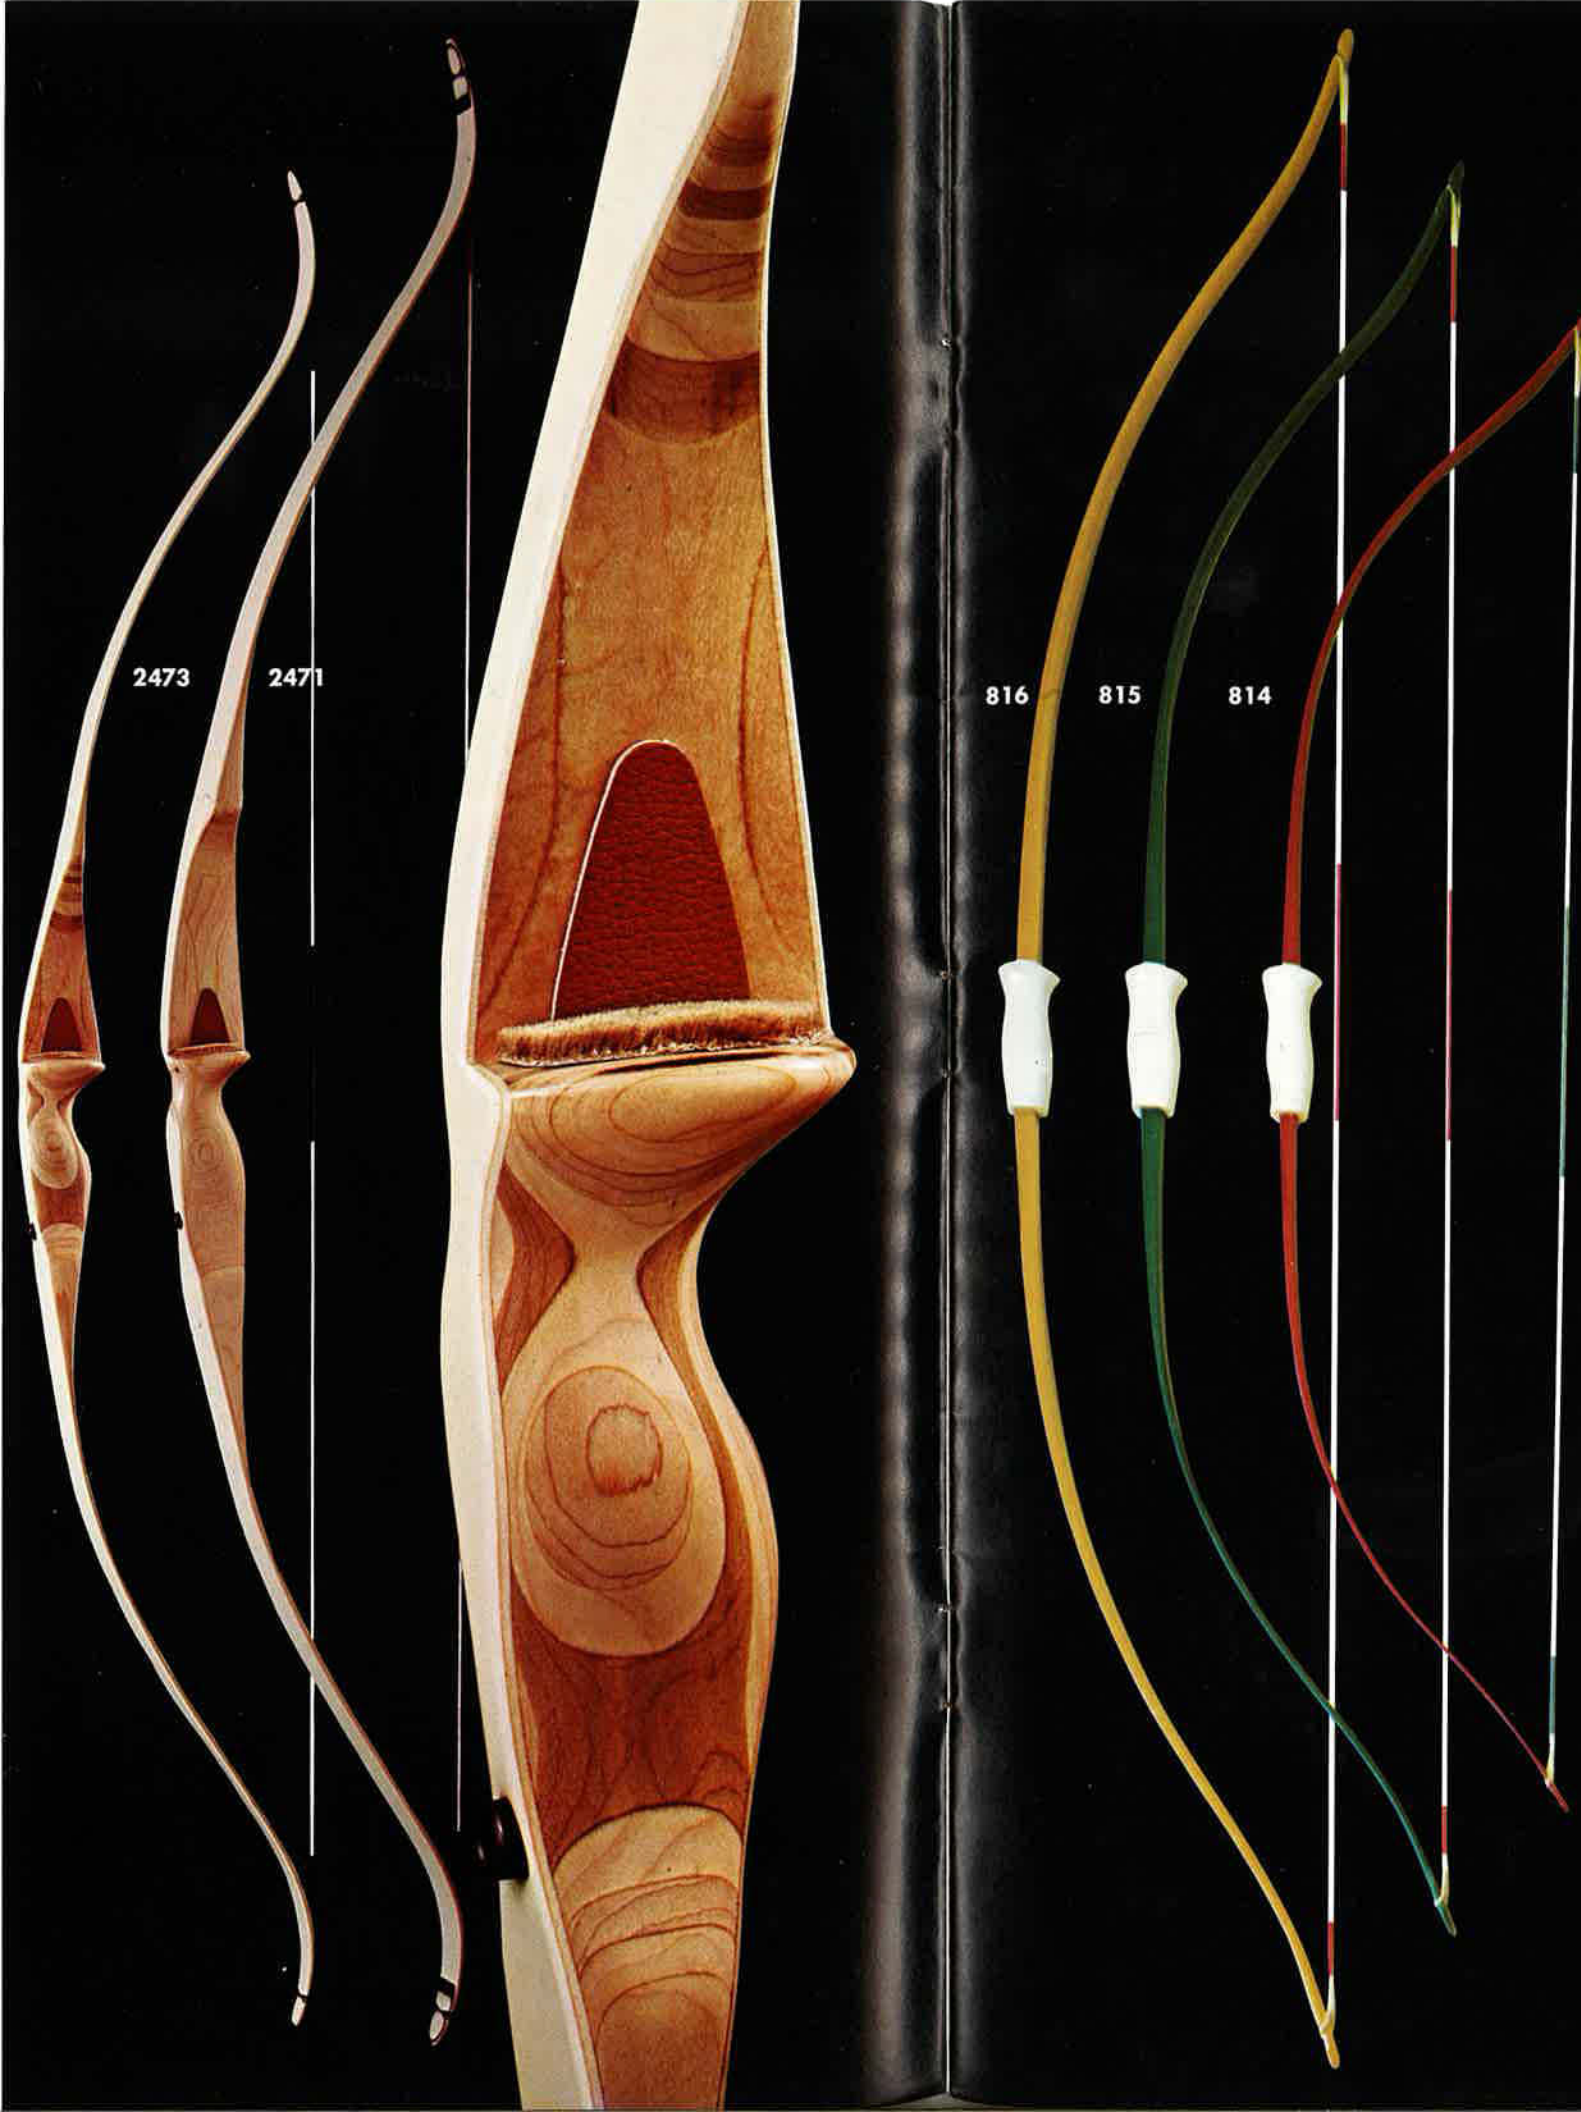

The Junior Olympic national program has inspired better archery training in physical education programs. As improvement in training archers goes on nationally, more and more schools and colleges are providing a mix of rugged fiberglass bows for beginners, and smooth shooting laminate recurve bows for intermediate and advance archers who need to develop accuracy over greater distances. In response to the growing demand for better equipment in school and college archery we have introduced a new item called the Varsity Target Bow Series.

Varsity I Model No. 2471

AMO66
Right or left hand models
7" sight window
1 3/4" limbs
Reinforced tips
Tapped for stabilizers
Draw weights: 20, 25, 30, 35, 40 lbs.
Laminated riser has natural finish that enhances wood grain
Full working recurve limbs

Varsity II Model No. 2473

AMO60
Right or left hand models
1 3/4" limbs
Tapped for stabilizers
Draw weights: 20, 25, 30, 35, 40 lbs.
Laminated riser has natural finish that enhances wood grain
Full working recurve limbs

Solid Fiberglass Bows

Years of experience have resulted in our production of the finest glass bows on today's market. Recurved bows are handcrafted from pre-stressed and hand laid fiberglass strands. Our process ensures maximum arrow cast as well as bows that are practically unbreakable. These beautifully finished bows have dual arrow rests for right and left hand shooters. Molded plastic handle and braided dacron bowstring.

Number	Length	Draw Weight #
814	AMO 40	15
815	AMO 46	15 to 25
816	AMO 52	25 to 35

As above with Custom Bow String

822	AMO 52	20 to 35
823	AMO 58	25 to 40

Bow Strings and Displays

SINGLE LOOP BOWSTRINGS

For all bow lengths. Single loop and tie end. Tie end is attached to a bow with a Timber Hitch. Blister Packed.

No. 7300 TEX-TITE BOWSTRING WAX. Formulated for synthetic fiber bow strings. Packed in handy push-out plastic container.

STEMMLER ARROWS.

As the sport of archery develops more sophisticated bows, the demand for arrow materials, styles and types becomes more varied. In order to serve these demands, we have one of the broadest arrow selections in style, price and versatility available anywhere. Ordering arrows calls for care. Here are some important things to keep in mind. The length of an arrow

is measured from the bottom of the nock slot, to the back of the head. When ordering arrows complete, we need to know the arrow length, and the draw weight of the bow to be used. All of our arrows conform to AMO arrow standards. Proper arrow selection is extremely important for consistent performance.

SWAP POINT SYSTEM

Every archer soon recognizes the need for three arrow types when in the field or on the range; HUNT, FIELD and TARGET. The SWAP-POINT system is designed to meet this need head on, creating greater versatility and economy. No longer does the archer have to be restricted to the permanently bound head. No special tools are required, the threading is standardized.

THE ELEMENTS:

No. 8920 INTERNAL ADAPTER.

Designed to fit (internal diameter) fiberglass and aluminum shafts. When ordering be sure to specify shaft size, or the sizes of your present stock.

No. 8809 BROADHEAD ADAPTER. Has an external taper that matches the internal taper of our hunting heads (92, 95, 96).

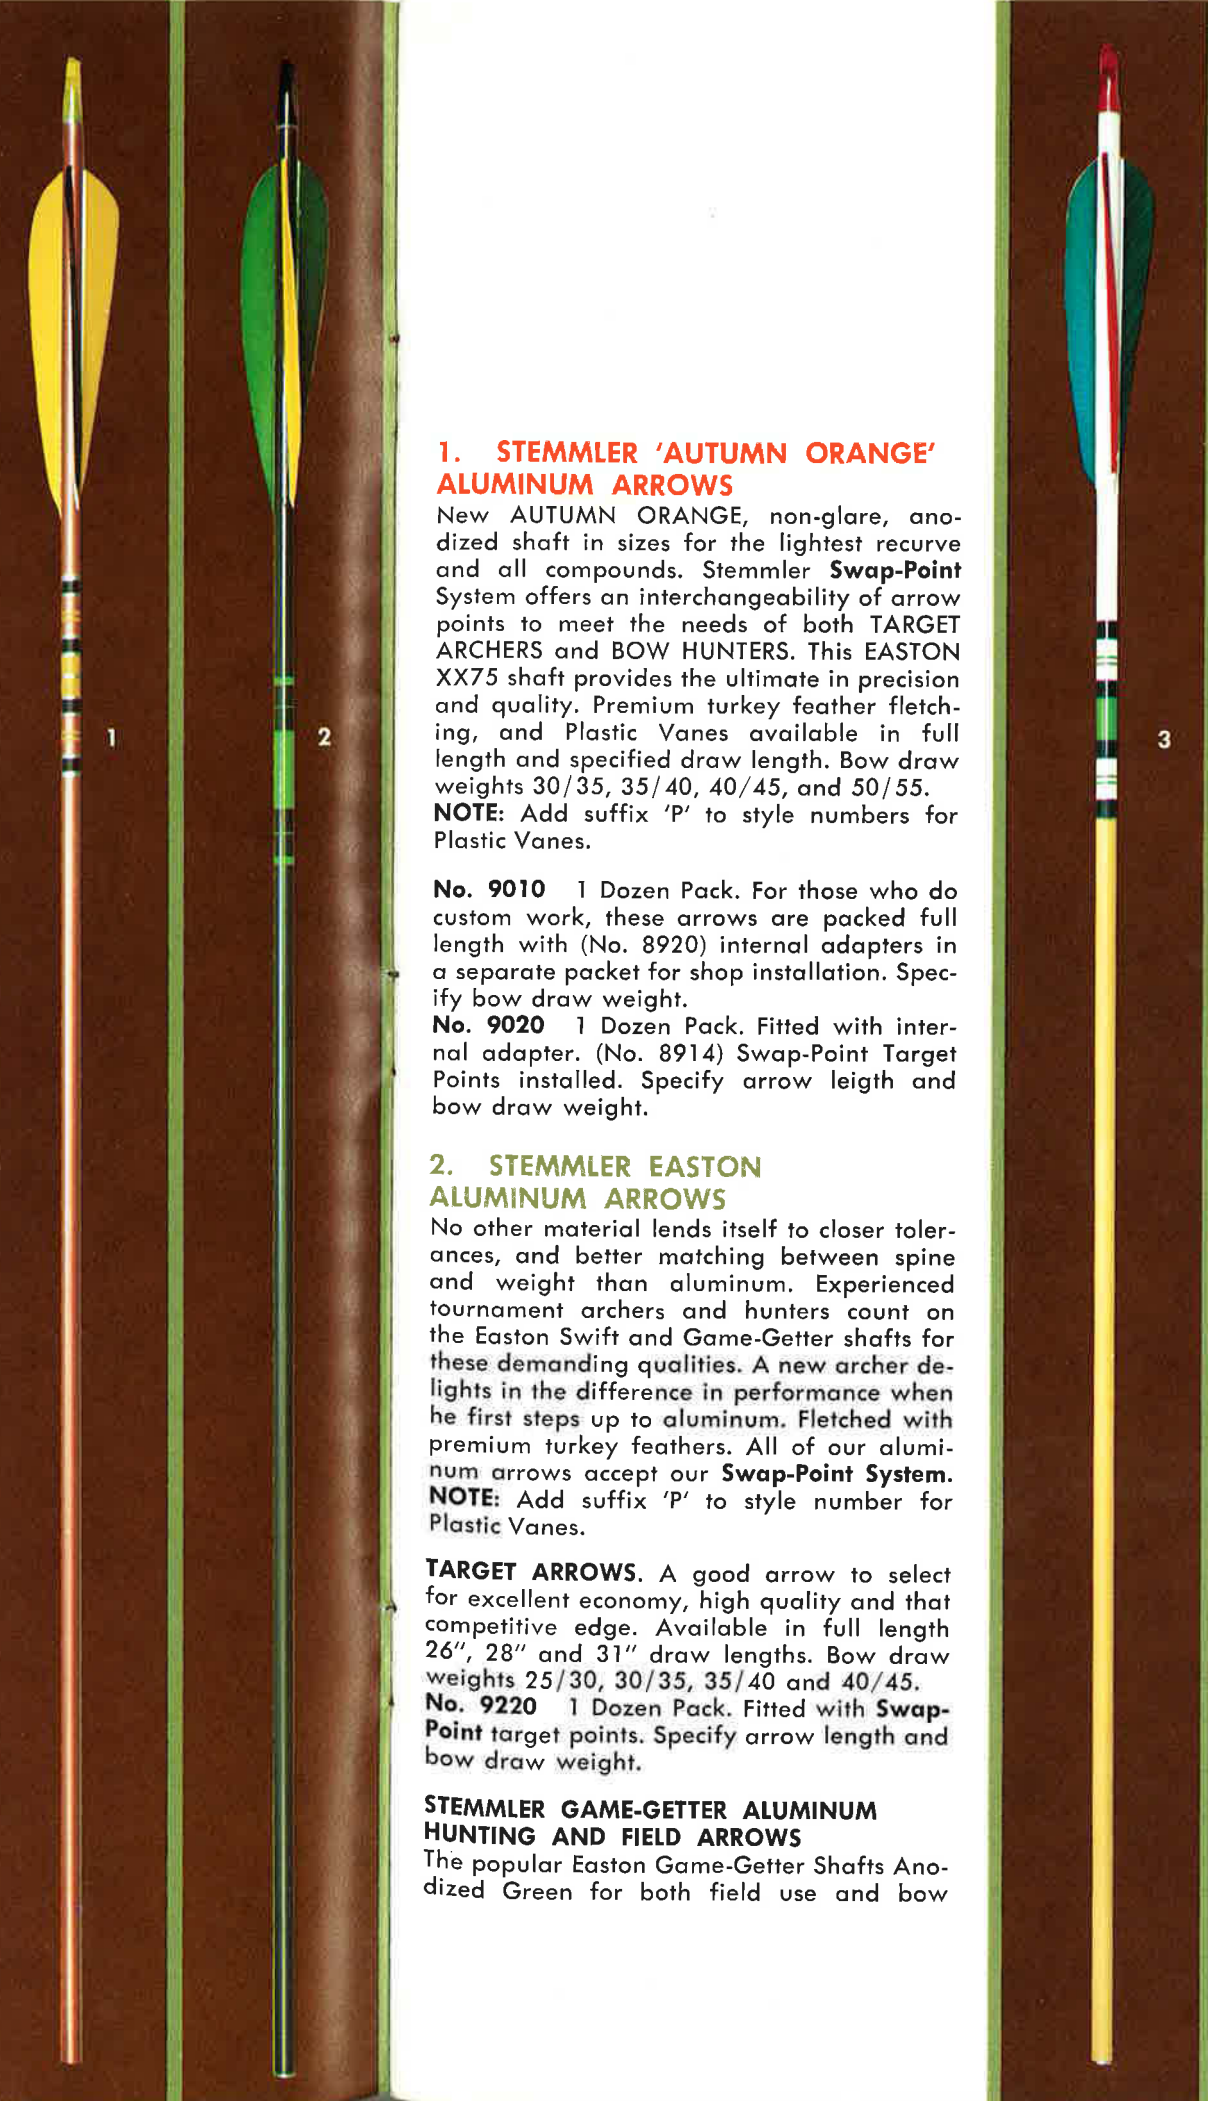

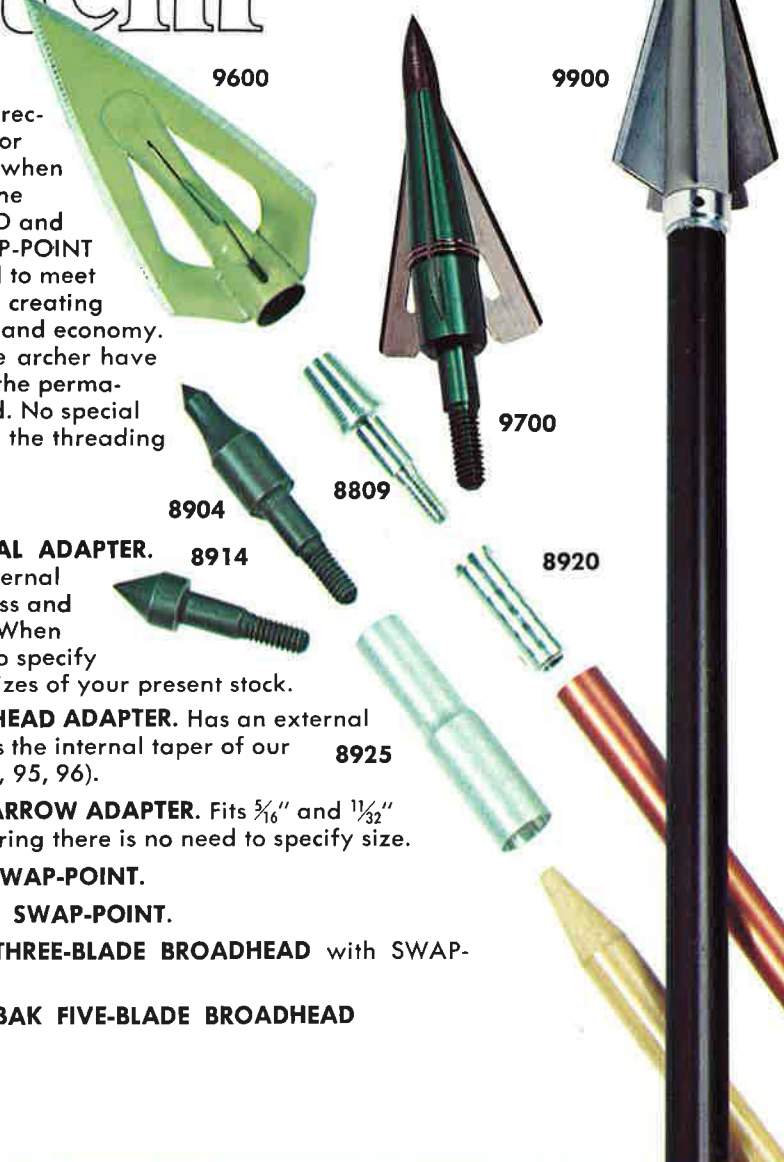

No. 8925 WOOD ARROW ADAPTER. Fits $\frac{5}{16}$ " and $\frac{11}{32}$ " shafts. When ordering there is no need to specify size.

No. 8904 FIELD SWAP-POINT.

No. 8914 TARGET SWAP-POINT.

No. 9700 WASP THREE-BLADE BROADHEAD with SWAP-POINT adaptor.

No. 9900 RAZORBAK FIVE-BLADE BROADHEAD

1. STEMMLER 'AUTUMN ORANGE' ALUMINUM ARROWS

New AUTUMN ORANGE, non-glare, anodized shaft in sizes for the lightest recurve and all compounds. Stemmler Swap-Point System offers an interchangeability of arrow points to meet the needs of both TARGET ARCHERS and BOW HUNTERS. This EASTON XX75 shaft provides the ultimate in precision and quality. Premium turkey feather fletching, and Plastic Vanes available in full length and specified draw length. Bow draw weights 30/35, 35/40, 40/45, and 50/55.

NOTE: Add suffix 'P' to style numbers for Plastic Vanes.

No. 9010 1 Dozen Pack. For those who do custom work, these arrows are packed full length with (No. 8920) internal adapters in a separate packet for shop installation. Specify bow draw weight.

No. 9020 1 Dozen Pack. Fitted with internal adapter. (No. 8914) Swap-Point Target Points installed. Specify arrow length and bow draw weight.

2. STEMMLER EASTON ALUMINUM ARROWS

No other material lends itself to closer tolerances, and better matching between spine and weight than aluminum. Experienced tournament archers and hunters count on the Easton Swift and Game-Getter shafts for these demanding qualities. A new archer delights in the difference in performance when he first steps up to aluminum. Fletched with premium turkey feathers. All of our aluminum arrows accept our Swap-Point System. **NOTE:** Add suffix 'P' to style number for Plastic Vanes.

TARGET ARROWS. A good arrow to select for excellent economy, high quality and that competitive edge. Available in full length 26", 28" and 31" draw lengths. Bow draw weights 25/30, 30/35, 35/40 and 40/45.

No. 9220 1 Dozen Pack. Fitted with Swap-Point target points. Specify arrow length and bow draw weight.

STEMMLER GAME-GETTER ALUMINUM HUNTING AND FIELD ARROWS

The popular Easton Game-Getter Shafts Anodized Green for both field use and bow

hunting. Available in full length; 29" and 31" draw lengths. Bow draw weights 40/45, 45/50 and 50/55. Also in Plastic Fletch.

NOTE: Add Suffix 'P' to style numbers for Plastic Fletch.

No. 9200 1 Dozen Pack. For those who do custom work, these arrows are packed full length with (No. 8920) internal adapters in a separate packet for shop installation. Specify bow draw weight.

No. 9216 As above, 1 Dozen pack cut to length, No. 8920 installed.

No. 9215 As above, 1/2 Dozen pack.

No. 9250 1 Dozen Pack. Fitted with Super Hilbre hunting points. Specify arrow length and bow draw weight.

No. 9255 As above 1/2 dozen pack.

No. 9260 1 Dozen Pack. Fitted with Razor-head hunting points. Specify arrow length and bow draw weight.

No. 9265 As above 1/2 Dozen Pack.

No. 9270 1 Dozen pack. Fitted with WASP Three Blade Heads. Specify arrow length and bow draw weight.

No. 9275 As Above, 1/2 dozen pack.

3. STEMMLER YELLOW FIBERGLASS ARROWS

Fiberglass arrows have no match for toughness. They will not warp, and for strength in the field or in schools and camps they are tough to beat. The yellow shafts are the finest fiberglass shafts on the market. We heartily recommend them for schools, camps and hunters. All of these arrows accept our Swap-Point System.

TARGET ARROWS. Durability and consistency combine to make this arrow a top performer for the accomplished archer and an economical arrow for the demands of school and camp use. Available in full length 29" and 31" draw lengths and 25/30, 30/35, 35/40 and 40/45 draw weights.

No. 8010 1 Dozen Pack. For those who do custom work, these arrows are packed full-length with (No. 8920) internal adapters in a separate pack for shop installation. Specify bow draw weight.

No. 8016 As Above, 1 dozen pack cut to length, No. 8920 installed.

No. 8015 As Above, 1/2 dozen pack.

No. 8020 1 Dozen Pack. Fitted with (No. 8914) target points.

No. 8025 As Above in 1/2 dozen pack

4. STEMLER GREEN FIBERGLASS ARROWS

A fine economy arrow constructed with the same fiberglass as top-flight shafts, perfect for the archer and bow hunter who wants performance with economy.

NOTE: Add suffix 'P' to style number for Plastic Vanes.

HUNTING AND FIELD ARROWS. The dual purpose flexibility and olive drab color make this arrow a favorite of bow hunters. Available in full length, 29" and 31" draw lengths. Bow draw weights 40/45, 45/50 and 50/55.

No. 8210 1 Dozen Pack. For those who do custom work, these arrows are packed full length with (No. 8920) internal adapters in a separate packet for shop installation. Specify bow draw weight.

No. 8216 As Above, 1 dozen pack cut to length, No. 8920 installed.

No. 8215 As Above, 1/2 dozen pack.

No. 8220 1 Dozen Pack. For those who do custom work, these arrows are packed full length with (No. 8920) internal adapters in a separate packet for shop installation. Specify bow draw weight.

No. 8250 1 Dozen Pack. Fitted with Super hilbre hunting points. Specify arrow length and bow draw weight.

No. 8255 As above 1/2 Dozen Pack.

No. 8260 1 Dozen Pack. Fitted with razor-head hunting points. Specify arrow length and bow draw weight.

No. 8265 As above 1/2 Dozen Pack.

No. 8270 1 Dozen Pack fitted with WASP 3 blade hunting heads.

No. 8275 As Above, 1/2 dozen pack.

STEMMLER DELUXE MATCHED CEDAR ARROWS

The finest grade Port Orford cedar arrows, matched to close 5 pound tolerances. Turkey feather fletching at proper length for target, field, or hunting arrows. Target arrows suitable for school or campus competition and hunting arrow for rugged adult use.

5 MATCHED TARGET ARROWS. Selected and polished cedar shafts with a metal pile head make this arrow perfect for use with high quality equipment. Supplied in 24", 26", 28", and 30" lengths. Stocked in 26" and 28".

No. 5020 1 Dozen Pack. Specify bow draw weight 20/30, 30/35, 35/40, 40/45 or 45/50.

No. 5025 Pack of 6. Same as No. 5020 but in standard pack of 6.

MATCHED FIELD ARROWS. Our top quality cedar field arrow closely matched to bow draw weight and fletched to the identical specs of hunting arrows. A good pre-hunting practice arrow. Fitted with 125 grain heads. Top quality 5" helical fletching for excellent flight characteristics. Available in lengths 29" and 31". Bow draw weights 40/45, 45/50, 50/55 and 55/60.

No. 7020 1 Dozen Pack. Specify bow draw length and draw weights.

No. 7025 1/2 dozen pack. Same as No. 7020 but packed 1/2 dozen.

No. 7035 6 dozen pack, assortment of spines and draw length in gross display.

6 MATCHED HUNTING ARROWS. Matched cedar shafts selected for rugged hunting use. Premium turkey feather 5" fletching with long low vanes to give maximum accuracy without wind planning. These arrows are for serious bowhunters. Available in lengths 29" and 31". Bow draw weights 40/45, 45/50, 50/55, and 55/60. Specify both bow draw length and draw weight.

No. 1500 1 Dozen Pack. Full length shafts without points. Specify bow draw weight. (You cut to length and attach points.)

No. 1530 1 Dozen Pack. Three blade heads attached. Specify bow draw weight length.

No. 1550 1 Dozen Pack. Super hilbre 4-blade heads attached. Specify arrow length and bow draw weight.

No. 1555 Same as No. 1550 but packed 1/2 Dozen.

No. 1560 1 Dozen Pack. Razor heads attached. Specify arrow length and bow draw weight.

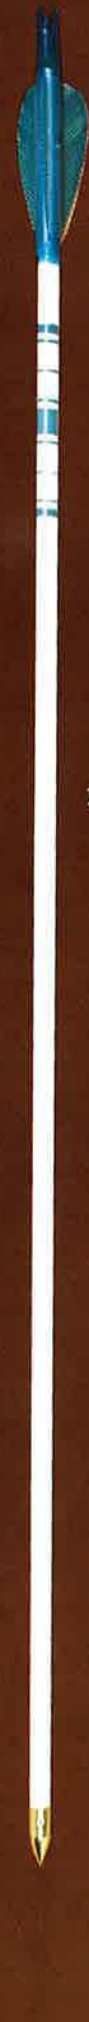

No. 1565 As Above, 1/2 dozen pack.

GROSS DISPLAY PACKED ARROWS.

Arrows attractively displayed for self-service selection. Fully lacquered shafts; crested, in popular lengths.

7 PRACTICE ARROWS. Youngster's practice arrows fitted with metal heads and fine-line crests. Lengths: 24", 26", 28". (Standard pack is 1/3 of each length.) May be had in any one length specified.

No. 2210 PRACTICE ARROWS. 1 Gross Pack.

No. 2220 PRACTICE ARROWS. 1 Dozen Pack.

8 TARGET ARROWS. Select Port Orford cedar arrows recommended for schools, camps and ranges. Colorful lacquer shafts with precision fine-line crestring. Turkey feather fletching and fitted with long bullet jacket heads. Lengths: 24", 26", 28", 30". Standard pack is one-half 26" and 28".

No. 3010 TARGET ARROWS. 1 Gross Pack.

No. 3020 TARGET ARROWS. 1 Dozen Pack.

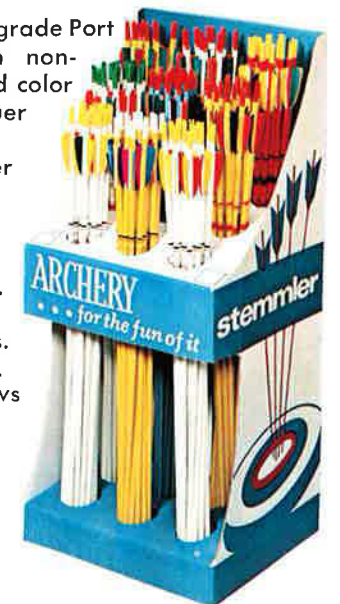

9 FIELD ARROWS.

Select grade Port Orford cedar arrows with non-skid field points. Assorted color shafts with full length lacquer and fine-line crestring. Appropriate turkey feather fletching length to assure excellent flight. Standard length 29".

No. 4010 FIELD ARROWS. 1 Gross Pack. Spined for lightweight bows, 3/16" shafts.

No. 4100 FIELD ARROWS. 1 Gross Pack. Spined to bows up to 50 pound bows, 11/32" shafts.

No. 4115 FIELD ARROWS. 1/2 Gross Pack. Same as No. 4100, but in standard pack of 1/2 gross.

FLU FLU ARROWS. A fine roving arrow for confined areas and as a hunting arrow for tree-perched animals. Spiral fletching acts as an air brake. After initial flight, the arrow slows quickly and dips sharply allowing its easy recovery.

No. 7500 FLU FLU ARROW. 3 Dozen Pack. 3/16" diameter. 30/40 Bow draw weight.

No. 7510 FLU FLU ARROW. 3 Dozen Pack. 11/32" diameter. 40/50 Bow draw weight.

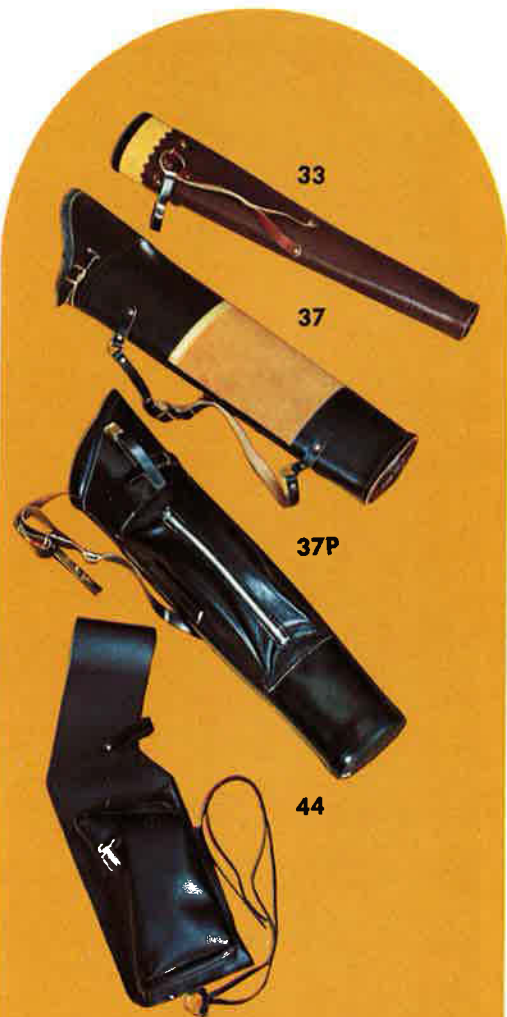

HEAVY LEATHERETTE QUIVERS

These quivers simulate in color and embossing the appearance of genuine leather.

No. 31 BELT QUIVER. This round 16" long belt quiver has earned great popularity with the beginning archer. Holds a dozen arrows easily. Belt loop for attaching.

No. 32 SHOULDER QUIVER. A moderately priced shoulder quiver measuring 2-1/2" round, and 18" long with leather bottom.

No. 35 JUNIOR HUNTING QUIVER. A popular over-the-shoulder quiver with extra large capacity. Contrasting leatherette cuff and heavy leather bottom.

TARGET AND FIELD QUIVERS

No. 33 SIDE SLUNG QUIVER. Top grain leather quiver with comfortable side sling harness.

No. 37 QUIVER. New style belt quiver for field and target archers. Top grain leather with side score card pocket and arrow divider strap. Will hold twelve field arrows easily. Adjustable harness attaches to belt for proper positioning.

No. 37P QUIVER. As above except with full zipper accessory pocket.

No. 44 HOLSTER STYLE QUIVER. Large accessory pocket, score card holder, pencil slot, holds 6-8 arrows, divider loop.

GENUINE LEATHER HUNTING QUIVERS

No. 34 HUNTING QUIVER. Top grain leather hunting quiver with arrow divider strap. Contour leather shoulder strap and buckle for easy shoulder carry. 20" long.

No. 36 DELUXE HUNTING QUIVER. 7" top, 18" long. Leather pocket 3-1/2" x 8-1/2" with zipper. Shoulder harness. All leather.

No. 38 HUNTING QUIVER. All leather quiver with contrasting leather cuff. Shoulder harness and buckle strap for comfortable shoulder carry. Leather bottom and large capacity for hunting arrows.

No. 588 SHIRT AND BLOUSE PROTECTOR. Mesh material for comfort. Specify large or small.

No. 29 FINGER TAB. Tough smooth leather. Small or large.

No. 29M FINGER TAB. Top grain leather in popular Marshall tab design. Specify small, medium or large.

ARMGUARDS FOR TARGET & HUNTING

No. 25N ARMGUARD. Top grain leather with steel reinforcing stay. Elastic cord attachment.

No. 26N ARMGUARD. Intermediate and adult vinyl armguard, reinforced steel.

No. 2610. As above with Velcro fasteners.

No. 27 ARMGUARD. Top grain skeleton-type. Spring steel center stay, maximum wrist protection. Leather lining.

No. 28A ARMGUARD. A 7" hunting and target armguard of top grain leather. Fully lined with a reinforcing steel stay. Sturdy leather straps.

No. 2820. As above with Velcro fasteners.

No. 28L ARMGUARD. Extra long armguard for maximum protection. Top grain leather with steel stay and adjustable straps.

No. 2810 VENTILATED ARMGUARD of Skeleton Design for cool comfort with maximum protection.

SHOOTING GLOVES

No. 30 SHOOTING GLOVE. A well designed shooting glove, soft vinyl back, single seam finger tips, adjustable wrist strap. Specify small, medium, large, or X-large.

No. 30S DELUXE SHOOTING GLOVE. Single seam top grain leather. Wide elastic form-fitting back and adjustable wrist strap. Specify small, medium, large, or X-large.

No. 3050 As above with Velcro fasteners.

Stemmler Archery Sets . . . Fun for the Beginner and Intermediate Archer

Pick an "All-In-One" Archery Package, and the backyard fun begins. The beginner will find a complete package that includes a recurved fiberglass bow, arrows, fingertab, armguard and paper target, plus Stemmler's ABC's of Archery.

No. 454 RECURVED FIBERGLASS BOW 42" includes four 21" practice arrows with point tip, armguard, fingertab, target face and instructions. Draw weight: 15 lbs.

No. 456 RECURVED FIBERGLASS BOW 54" Fun for the whole family, including Dad. This larger bow is matched with four 26" cedar arrows. Also included are target face, armguard, fingertab, instructions and a braided Dacron bowstring. Draw weight: 25, 30 and 35 lbs.

JC 44 Youngsters archery set with four cedar arrows and target face. Bow length AMO 40. Draw weights: 15 lbs.

No. 632

No. 631

JC44

Bow-Fishing Equipment

You move towards the big fellow as he treads momentarily close to the surface. You're very careful that your shadow does not betray you. You nock your arrow onto the bowstring and soundlessly draw back. Steady. Release. Below, there's a momentary thrashing at the surface. The fish begins to lung and take line. Then silence.

Reel him in. He's yours. And so is all the fun of one of the oldest sports the world has to offer . . . BOW FISHING.

No. BFS-1 SPECIAL BOW-FISHING SET. Handsomely boxed. Fiberglass Arrow, Aluminum Bow Reel. 60 feet of line.

No. 86 DOUBLE BARB FISH POINT. Pointed tip unscrews and barbs may be removed. Head then is a fine Field or Target Point. Packed three heads per blister card.

No. 91 THREE INCH ALUMINUM FISH POINT. Sharp point with side fluke. A very efficient head that holds fish. Packed three heads per blister card.

No. 314-2 DELUXE ALUMINUM BOW REEL. Sturdy 6" diameter. Reel bracket tapes to bow. Reel dismounts from bracket. Rubber grommet holds line firmly before shot. Beautifully finished. Sixty feet of line included.

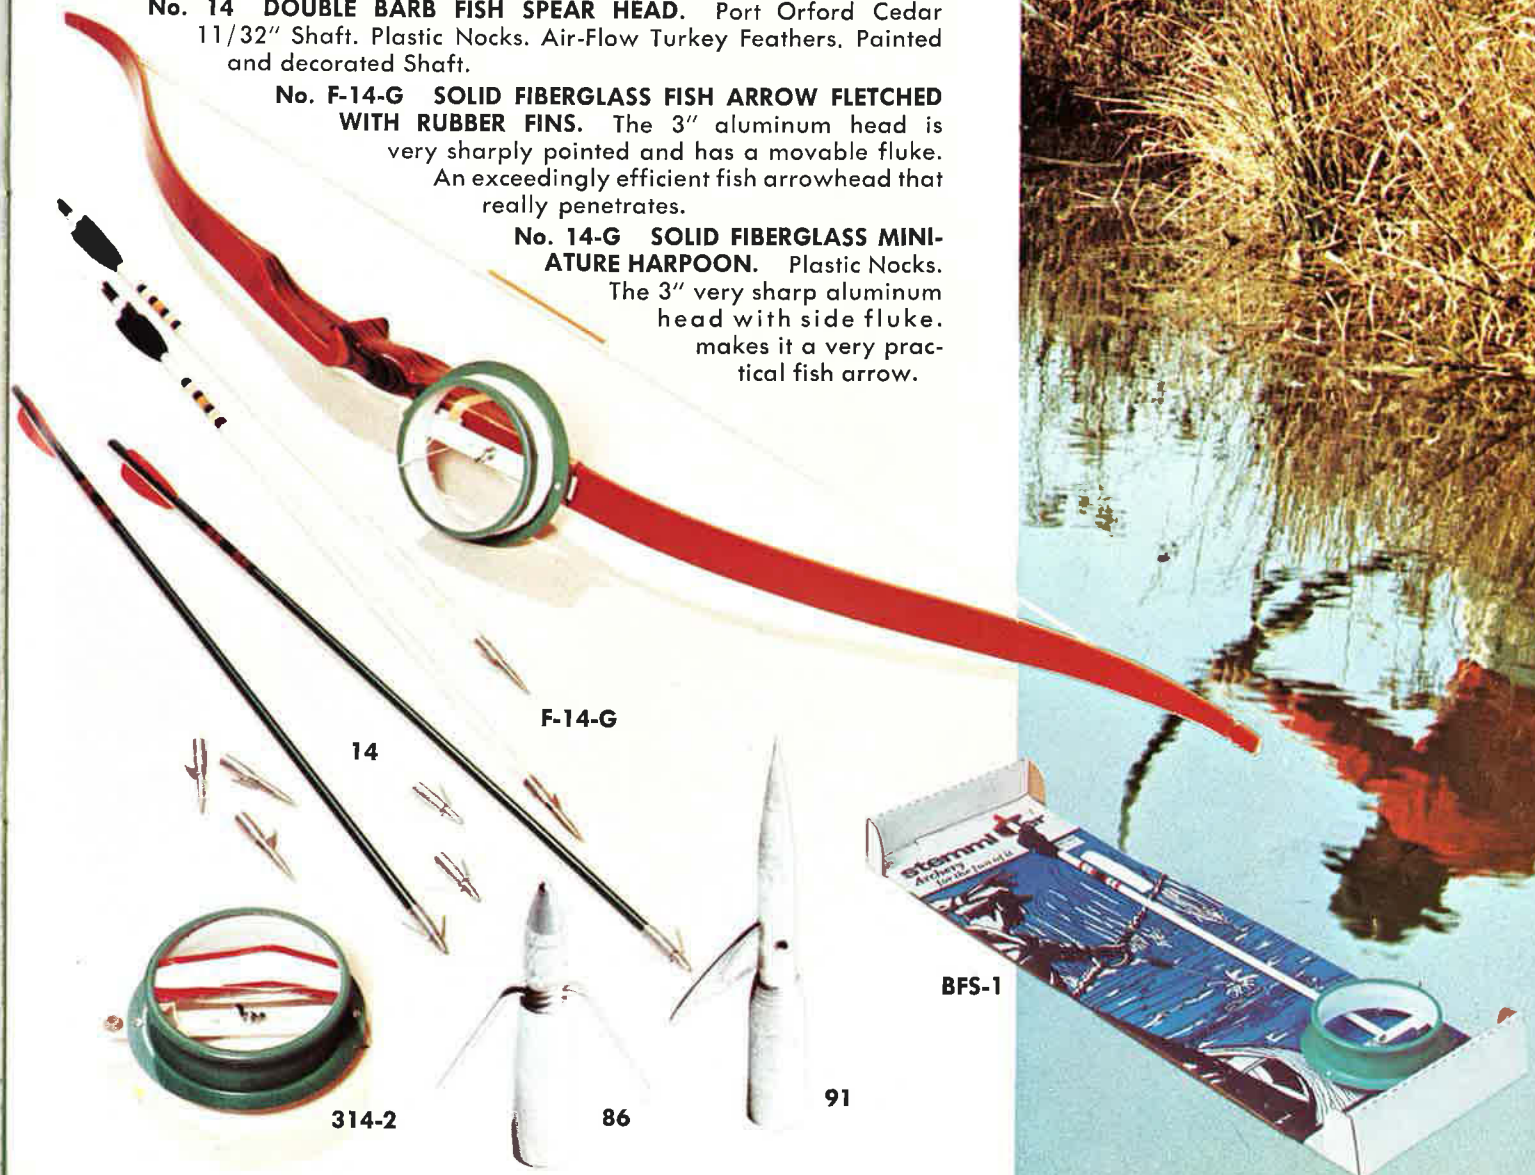

No. 14-SP PLASTIC BOW REEL SPOOL with 25 yards Bow Hunters' Special White Braided Nylon Line. Extra soft 72 lb. test.

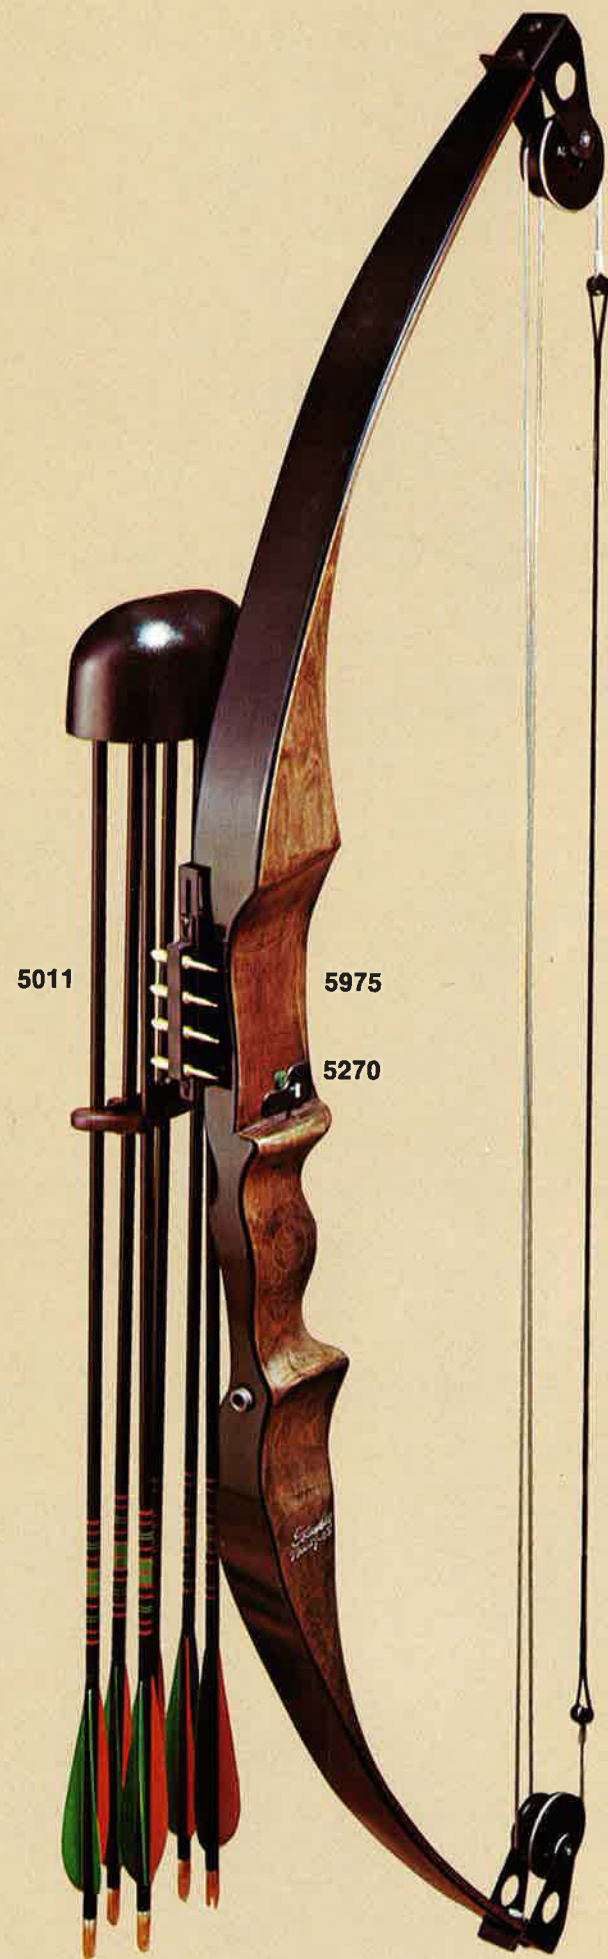

BOW-FISHING ARROWS

No. 14 DOUBLE BARB FISH SPEAR HEAD. Port Orford Cedar 11/32" Shaft. Plastic Nocks. Air-Flow Turkey Feathers. Painted and decorated Shaft.

No. F-14-G SOLID FIBERGLASS FISH ARROW FLETCHED WITH RUBBER FINS. The 3" aluminum head is very sharply pointed and has a movable fluke. An exceedingly efficient fish arrowhead that really penetrates.

No. 14-G SOLID FIBERGLASS MINIATURE HARPOON. Plastic Nocks. The 3" very sharp aluminum head with side fluke. makes it a very practical fish arrow.

Stemmler Accessories...

THE STAG BOW PACKAGE

The STAG, custom equipped with sight, quiver and rest... A new and better way to display and sell our compound. The STAG, factory equipped with the following accessories, ready to take hunting; no adjusting needed, just plenty of practice.

The accessories are mounted in such a way that they are easily adjusted or removed by the archer. The STAG wood riser has a permanent installation of brass screw bushings that permit changing accessories without damaging the riser. The accessories: **No. 5270** Flipper Rest II; **No. 5975** Stemmler Double Slot Hunting Sight with long pins and independent elevation and windage adjustment; **No. 5011** Kwikee Compound Bow Quiver.

OTHER COMPOUND BOW ACCESSORIES

- No. 5010** Adjustable Bow Quiver that utilizes stabilizer bushing (see Page 23)
- No. 5170** Kwick Lok Arrow Holder (see Page 24)

- No. 5990** Cushion Plunger (see Page 24)
- No. 6300** Pro-Matt 24" Compound Practice Target (see Page 26)

**Designed to Assist the
Archer in Obtaining Better
Results in the use of his Bow**

Broadheads

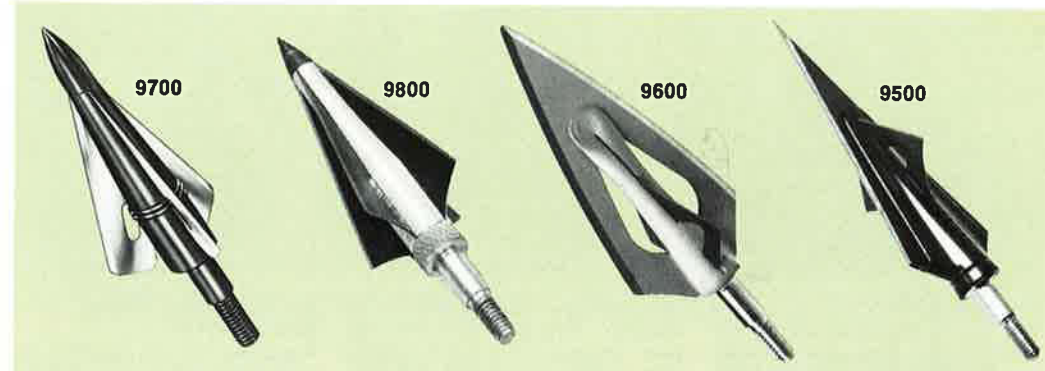

No. 9950 THE MODULAR BROADHEAD SYSTEM

A new approach to broadhead design for stability, balance and ease of assembly in the field. Off-center blade mounting allows maximum body surface in blade grooves to hold the four stainless steel blades securely no matter what the impact. All elements are replaceable and easy to assemble in the field without special tools.

The individual 5 and 10 grain collars slip onto the ferrule stem allowing a broadhead weight range of 120 to 160 grains. The bowhunter now has a system for weight balancing his own arrows for true flight and penetration. The nylon angle lock collars allow the blades to be aligned at the same angle on each arrow.

No. 9950 Packed 3 per card. See price list for additional components and packaging.

No. 9700 WASP THREE-BLADED BROADHEAD

A lightweight rugged well-designed broadhead, now 15 grains lighter than the earlier model (120 grains). Threaded insert is part of the aluminum body, therefore always perfectly aligned. Stainless steel blades (.0011"), superior aerodynamic design, steel nose. Shipped safely unassembled, instructions included.

No. 9700 Wasp 3-blade, 6 per blister card, 120 grains.

No. 9701 As above, 100 pack.

No. 9704 Wasp 6-blade, 6 per card, 135 grains.

No. 9705 As above, 100 pack.

No. 9703 Wasp extra blades, 1 vial of 18 blades.

No. 9706 As above, 50 vial pack.

No. 9800 SATELLITE

Satellite... A four blade replaceable razor-sharp broadhead that uses a unique principle to lock the blades to the shaft. A knurled screw socket in the back of the head gives positive locking to all four blades. Point is hardened steel swaged into place for strength and stability. Weight 125 grains. Packed 6 per blister card, unassembled, with instructions.

No. 9800 Satellite 4-blade, 6 per card, 125 grains.

No. 9801 As above, 100 pack.

No. 9802 Satellite extra blades, 1 vial of 24 blades.

No. 9803 As above, 50 vial pack.

No. 9600 RAZORHEAD

A four blade razor-sharp broadhead. A proven head for many years.

No. 9600 Razorhead, 4 per card, 125 grains.

No. 9605 As above, 100 pack.

No. 9610 Razorhead with Broadhead Adaptor installed, 4 per pack.

No. 9615 As above, 100 pack.

No. 9611 Razorhead auxiliary blades, 12 per card.

No. 9612 As above, 100 pack.

No. 9500 SUPER HILBRE

Four blade broadhead with rugged construction and strength to ensure deep penetration.

No. 9500 Super Hilbre, 4 per card, 125 grains.

No. 9510 As above, 100 pack.

No. 9511 Super Hilbre with broadhead adaptor installed, 4 per pack.

No. 9512 As above, 100 pack.

Swap-Points

No. 8809 SWAP-POINT BROADHEAD ADAPTOR

A screw-in adaptor made to accept all broadheads and tapered field points. Packed 12 per card.

No. 8810 As above, bulk packed 100.

No. 8904 SWAP-POINT FIELD POINT

A screw-in arrow point provides quick change to a field. Packed 12 per card.

No. 8905 as above, packed 100.

No. 8914 SWAP-POINT TARGET POINT

A screw-in arrow point provides arrow versatility. Packed 12 per card.

No. 8915 As above, packed 100.

No. 8920 SWAP-POINT INTERNAL ADAPTOR

Made to accept broadhead adaptor. Packed 12 per card. Specify shaft size.

No. 8921 As above, packed 100.

No. 8925 SWAP-POINT WOOD ARROW ADAPTOR

Internally tapered to fit all of our cedar shafts. Threading accepts field and target points. Specify shaft size.

No. 8930 BLUNT SWAP-POINT

Packed 12 per card.

No. 8931 As above 100 pack.

$\frac{3}{16}$ " & $\frac{1}{32}$ "

No. 8510 SNAP-ON-NOCKS TRANSLUCENT

$\frac{3}{32}$ ", $\frac{3}{16}$ " and $\frac{1}{32}$ ". 1 doz. pack.

Specify size and color: Lime, orange, ruby and blue.

No. 8515 As above, packed 100.

Arrow Rests

FLIPPER RESTS

The key to improving cast, eliminating fletch drag, and developing greater arrow velocity. Made from nylon, brass, teflon and stainless steel; materials chosen

to perform in all kinds of weather. Flipper rest combines firm support with quiet action; choose from either of the two mountings.

No. 5270 FLIPPER REST II
No. 5271 STANDARD MODEL

No. 527 HOYT PRO ARROW REST

Approved by top shooters as an outstanding rest. One per package.

No. 5275 SUPER PRO HOYT ARROW REST

One per package.

No. 5121 MOHAIR ARROW REST AND ARROW PLATE

A quiet arrow leaving the bow may mean success. Adhesive backing allows easy application. One assembly per card.

Bow Sights

No. 5975 STEMMLER HUNTING SIGHT

A simple well-designed double slot sight. 4 color pins... blue, white, red and green. Extra long pins (2") to accommodate sight windows of all sizes. Double slot allows finest possible yardage increments. Black plastic adjustment knobs provide positive locking that will not loosen from vibration. Allows independent elevation and windage setting. Special facing for yardage markings.

No. 5970 TRAINING PIN SIGHT

An ideal single pin training sight for new archers of any age. 5 1/4" adjustable range for elevation, that will accommodate all sight windows. Attached by screws or tape. 1 1/2" pin allows plenty of windage adjustment. Anodized flat black finish, aluminum frame... printed scale in tenths of an inch for fine adjustment.

No. 5972 WASP PEEP SIGHT

Allows 30% more light, providing clearer sight picture. Especially helpful on cloudy days, and at sunrise and sunset. Simple to install within bowstring strands.

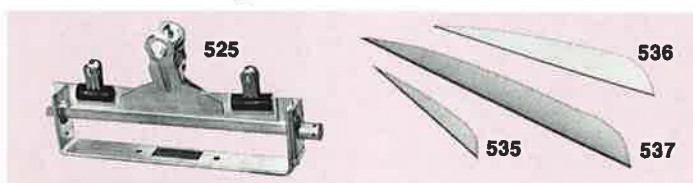

No. 5978 ACCRA SIGHT EXTENSION

An eight inch sight extension specifically designed for easy removal and positive alignment with every change. Bracket can be mounted on wood or metal risers and is designed to AMO Standards. Black anodized lightweight aluminum frame, can be used for front or back extension.

No. 5977 ACCRA SIGHT... TARGET

The finest target sight for the experienced archer. Designed for extension mounting. Full seven inch range for elevation adjustment. Micrometer elevation and windage adjustment. Distance notations can be made directly on the sight. Left-hand assembly available.

Arrow Repair

No. 525 PRECISION FLETCHER
For fletching 3 feather arrows with feathers up to 6" long.

No. 5095 FLETCH-TITE
Special super bonding fletching cement. Works with turkey of plastic vanes; on aluminum, glass, graphite, steel or cedar shafts. Excellent for archer's own repair work. 3/4 oz. tube.

PLASTIC FLETCH VANES

No. 535 2 3/4" PLASTIC FLETCH VANES
Three doz. pack.

No. 536 4" PLASTIC FLETCH VANES

Three doz. pack.

No. 537 5" PLASTIC FLETCH VANES

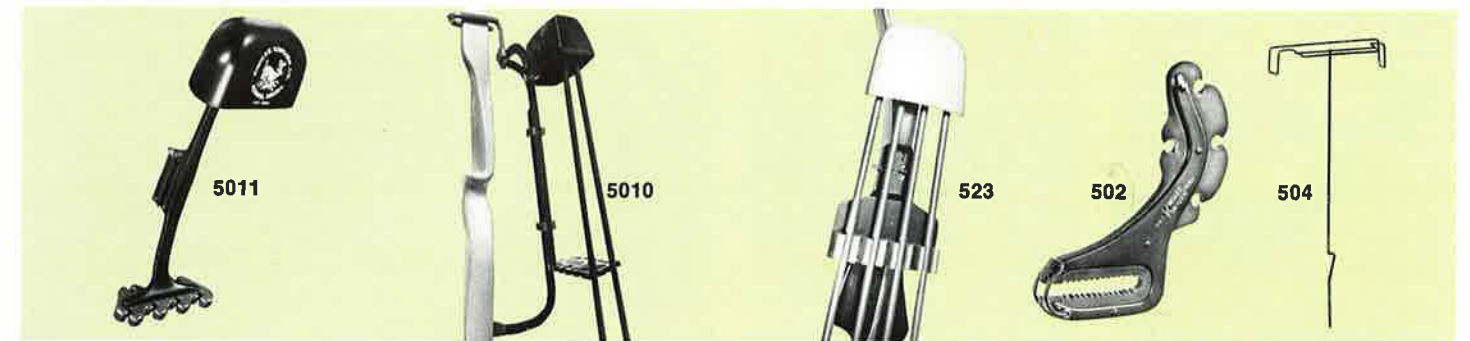

Three doz. pack.

TURKEY FEATHERS

No. 3GBS 3" SECTIONS
Streamlined, die-cut. Assorted colors. Sufficient cut feather sections to fletch one doz. target arrows.

No. 4GBH 5" SECTIONS
Die-cut for hunting arrows. Assorted colors. Sufficient cut feather sections to fletch one doz. hunting arrows.

Bow Quivers

No. 5011 KWIKKEE COMPOUND BOW QUIVER

A rugged, yet simple, bow quiver, that snaps onto the bow with a patented Kwik-lok bracket. Can be removed from bow without tools. Shield is sound insulated, and cannot be penetrated by broadheads. Holds six arrows that can be removed noiselessly. Fits compounds and other recurve bows, right or left hand.

No. 5010 ADJUSTABLE BOW QUIVER

Designed to fit bows with stabilizer insert on bottom limb. vinyl coated wire grip, fits all upper limbs. Frame slide adjustment allows fit for compounds and recurves. Quiet, sturdy and weatherproof. Specify left or right hand.

No. 523 QWIFFER BOW QUIVER

One model fits all bows, right or left hand. Sturdy arrow clip fits any size hunting arrow. Does not affect bow performance.

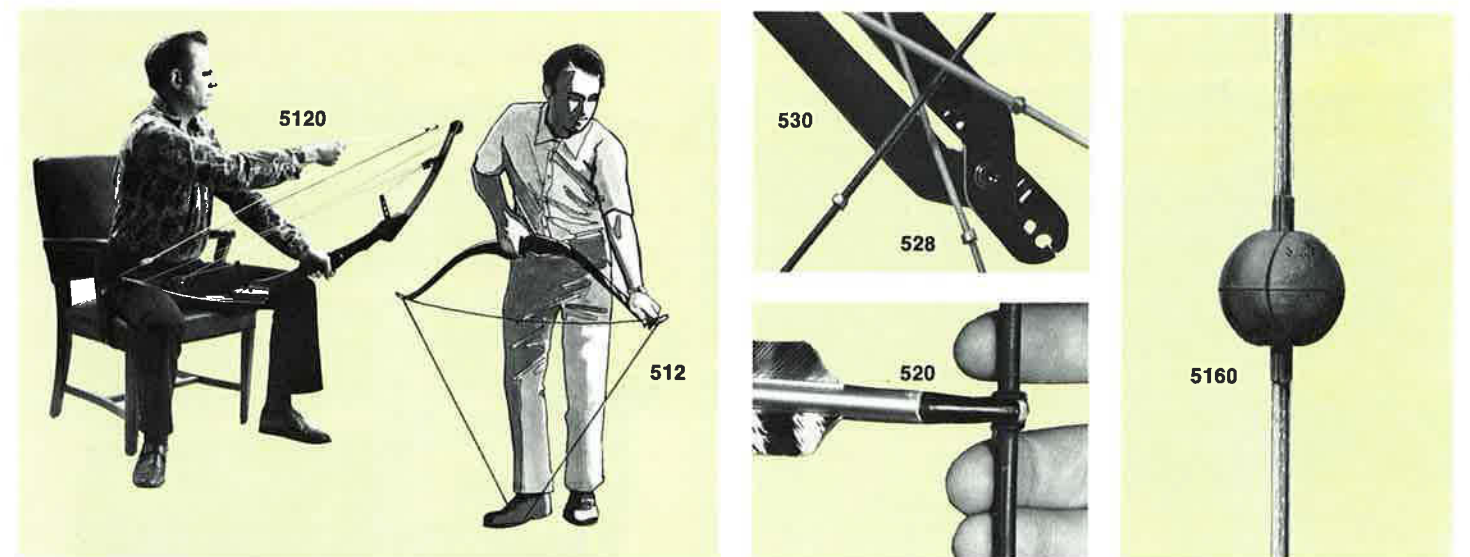

No. 502 DELUXE KWIKKEE KWIVER

Best quality bow quiver. Clings tightly to bow limbs and holds four arrows snugly.

No. 504 GROUND QUIVER

Ideal for camps and schools. Rugged design. Holds both bow and arrows. A must for group participation.

Bowstring Accessories

No. 5120 COBRA EASY PULL COMPOUND BOWSTRING CHANGER

For use with all compounds. Stainless steel mounts fit all cable terminals. Brass pulley eliminates abrasion on servings and loops. Uses the tent rope principle to hold bow compressed... simple and safe, can be used in the field, fits handily in your pocket.

No. 512 BOWSTRINGER

Provides an easy and safe method to brace your bow without causing limb twist.

No. 530 NOK-SET TOOL

One per package. Necessary to apply Nok-Sets.
No. 528 NOK-SET
A positive Nocking Point that will not slip. Suitable for any size bowstring diameter. Six per package.

No. 520 NOCK RITE BOWSTRING ATTACHMENT

For fast, accurate shooting. Balanced three finger action. Smooth arrow release. No slippage of arrow on string.

No. 5160 CABLE SILENCERS FOR COMPOUND BOW

Stops cable twang effectively.
No. 513 BOWSTRING KEEPER
Bowstring is kept neatly attached to unstrung bow. Twist is retained in string.
No. 514 WILSON-ALLEN NOCK LOCKS

These soft rubber bowstring attachments provide positive nicking point on the bowstring. Ensures consistent and quick arrow nocking.

No. 516 BRUSH NOCKS

A must for bow hunter. Stop brush from jamming under bowstring at bow nocks.

No. 521 KWIKKEE SILENCER

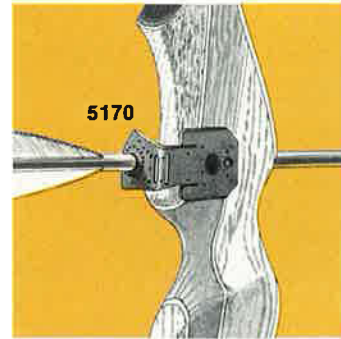

Bowstring attachment to deaden "twang" of bowstring.

Bow Accessories

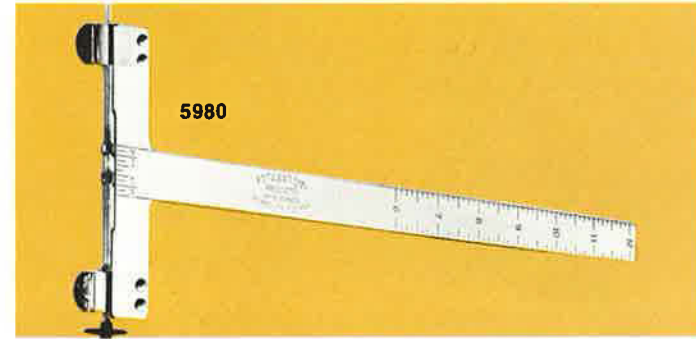

No. 5990 ACCRA CUSHION PLUNGER
A cushion plunger that is an important accessory to improve arrow launching. Developed to correct inconsistent release form. Particularly suited for compound bows, where the lighter hold develops release problems. Brass body, teflon point, adjustable spring tension for various arrow shaft sizes.

No. 5170 ARROW HOLDER
Holds arrow in ready-to-shoot position while moving through woods. Releases automatically upon drawing. Great in cold weather hunting. Cut out for cushion plunger.

No. 5980 POTAWATOMI BOW SQUARE
If your bow is to perform as it should, this fine bow square should be used for exact brace height and nocking point. The beginning step for bow tuning; minimizes noise, vibration and arrow wobble.

No. 5865 KAMO COMPOUND LIMB SLEEVE
Split sleeves with Velcro Fasteners. Camouflage elasticized cloth cover. Fits all compound bows.

No. 586 KAMO BOW COVER
Camouflage elasticized cloth cover to fit all conventional bows.

No. 5960 STABILIZER... TARGET
A must for developing consistent accuracy. Eliminates torque, provides better balance and shock absorption. Can be used with recurves or compounds. Available in silver anodized shafts with chrome weights. Specify 24" or 36".

No. 5961 STABILIZER... HUNTING
A small heavyweight torque eliminator designed for the hunting bow, compound or recurve. 2 3/4" long, 7/8" in diameter. It is made of steel, finished in black nonglare phosphate finish. Weight 257 grams.

Archery Field Equipment

No. 5976 RANGING No. 610... RANGEMATIC RANGEFINDER
Measures from 16 to 150 yards. A lightweight range finder (15 ounces), easy to handle, convenient to carry. Shock absorbing components, not affected by temperature extremes.

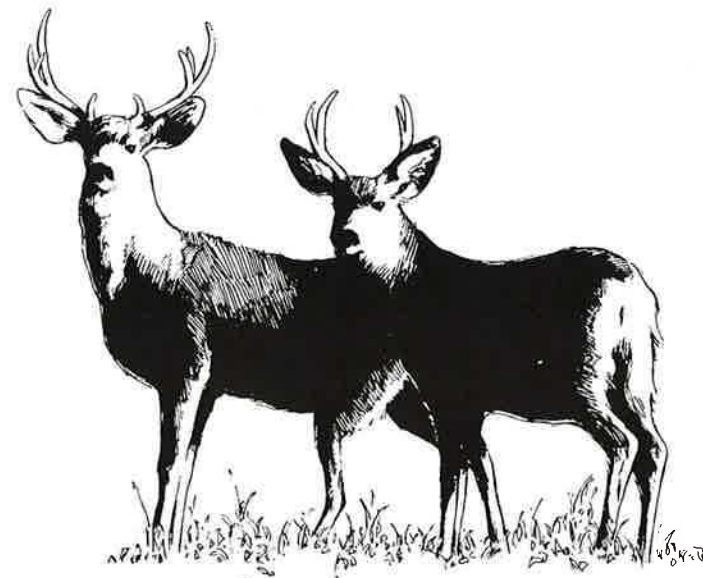

No. 5985 RANGER CAMO STICK
For exposed skin. In two colors, tan or green. It is not harmful to the skin, and contains insect repellent. Easily washed off in soap and water.

No. 526 BROADHEAD SHARPENER
A combination broadhead sharpener for keen, razor-sharp edges.

ARCHERY HANDBOOKS

No. 518 BASIC TECHNIQUES OF ARCHERY
An informative handbook dealing with all phases of Archery. How to shoot and aim. General information.

No. 5185 ABC'S OF ARCHERY
No. 5186 ABC'S OF BOWHUNTING

stemmler

At Stemmler, manufacturing archery equipment and bows in particular, continues to be as much an art as it is a science. While our archery tackle bears evidence of the newest technological achievements it also continues to demonstrate the old skills of our master bowyers and experienced crafts people. Stemmler prides itself on how well our equipment is made rather than how many were produced.

To this end, ALL STEMMLER EQUIPMENT is guaranteed to be free of defects in both workmanship and materials. Our customers are assured of receiving products that have been well-designed and tested. All archery tackle in this catalog has been accurately and carefully described to provide customer satisfaction.

SHOULD ANY PRODUCT BE FOUND DEFECTIVE, RETURN THE PRODUCT, PREPAID TO THE FACTORY FOR REPLACEMENT OR REPAIR.
