

725 28th Street North Fargo, ND

Anchoring motivated students with education and people for productive futures!

Reflections from Academic Coaches

I am a senior at NDSU majoring in Math Education. This is my third year as an Academic Coach for LCF.

LCF has allowed me to work and teach students while continuing my own education. Here at Legacy, I get to develop skills in teaching, professionalism, and care that I will use for the rest of my career. Beyond professional development, it is uplifting to be able to help these students and watch them grow into productive citizens. Everyone at Legacy is working hard to reach their full potential!

I am a senior at MSUM majoring in Teaching English as a Second Language and English Education. I am an academic coach at Legacy Children's Foundation.

LCF is giving me an opportunity to build my teaching skills and work with a diverse and amazing group of students. The skills I am learning and developing at Legacy will be essential for me in the future. Being able to work with these students is a real privilege! I really enjoy watching them grow as students and people!

I am a senior at NDSU majoring in Science Education. I am an Academic Coach for the Legacy Children's Foundation.

I am grateful for a chance to gain experience for my future teaching career. Everything I learn through Legacy will go toward developing my teaching skills and strategies I will use in the future. I am honored to assist these students and see them grow in their strengths. Students improve within their studies in leaps and bounds. By using homework rooms, volunteering, and expanding on their social skills, these students can achieve greatness!

Advancing the full potential of students through personal care, relationships, and discovery!
