- Custom-prefabricated for every building
- Energy-efficient
- Durable
- Edge-to-edge watertight protection
- Backed by the industry's best warranties
- Professionally installed by authorized contractors with no disruptions to daily operations
- Code compliant

EXCEPTIONAL ROOFS REQUIRE EXCEPTIONAL DETAILS

At Duro-Last, we manufacture every roofing system to fit specific building requirements. The illustrations and photographs represented in this brochure are only a small portion of the functional and aesthetic accessories that we offer. Deck sheets are custom-prefabricated in sections up to 2,500 square feet each, and we produce virtually all other components in our controlled factory environment. Custom-prefabricated stack and curb flashings eliminate nearly all rooftop labor from the most critical roof areas — penetrations and transitions. Our EXCEPTIONAL® Metals division makes a wide variety of standard and custom metal details, providing the watertight integrity and appearance you expect.
