## Brain Teasers

### Last Month's Answers

1. "The fact is that John Adams wrote home to Abigail on the 3rd that this day, July 2nd, will go down in history," Davis explained on "CBS This Morning," "We'll celebrate it with parades and pomp and bells ringing and fireworks. And it was because Congress actually ruled it in favor of independence on July 2. But it was two days later, of course, that Congress then accepted Jefferson's declaration, explaining the vote two days before that really got fixed in the America's imagination as our birthday. July 2nd should be Independence Day."
2. The Declaration of Independence was signed by 56 men from 13 colonies.
3. 45
4. Turkey, bald eagle
5. 2.5 million
6. Pennsylvania Evening Post
7. 8

## Summer Time Safety for Pets

Summer may be winding down but we are coming in to some of the warmest days. When temperatures rise, fun and frolic can pose health threats. In these last warm days, it is more important than ever to take extra precautions to assure our pets stay cool and safe.

Here are some key tips to keep pets cool in the warm weather:

1. We all know this but some people still do it: DO NOT leave your pets in the car during summer months. Every year pets die from the heat after being left in a car “for only a few minutes”. Cracking the windows does not allow the heat to escape to safe levels.
2. Avoid walking your dog in the heat. Early mornings and evenings are the best time for walking your dogs. Even in the cooler hours, watch for signs of trouble. Dogs can experience glassy eyes, frantic panting, or an unsteady gait. These symptoms all indicate a dog needs help. Get the dog to a cool place immediately and to the vet if they don't recover after a few minutes.
3. If you leave a pet home indoors all day, make sure the air conditioner is on. If you typically turn your air off during the day, consider setting the temperature a little higher and leaving it on for your pet.
4. Water, water, water...make sure you check your pet's water supply often. Keep fresh water available to your pets at all times.
5. Shade. If your pet does go outside for any length of time, make sure they have access to shade. Pets can easily overheat and shade offers some protection from the elements.

Our pets rely on us to keep them safe and summer months offer special challenges. Cool temps, ample fresh water, plenty of shade and lots of loving will keep your pets happy and safe these last warm days.

## REMINDER

CLIENTS & COMFORT CARE STAFF, PLEASE REMEMBER TO CALL THE OFFICE WHENEVER YOU HAVE A SCHEDULE CHANGE!

# Brain Teasers

As shown in the image, the nine horses are fenced in by a square. By constructing just two more square fences, can you make sure that no two horses are in the same area?

Do you have a big announcement? A thank you? A great photo? Send your input for the Chatter to Taylor and she will add it to next month's newsletter!
