We are accepting NMLRA membership sign-ups thru the club. The cost is \$50 with \$5 coming back to GMLR.

Notes from The Meeting

#*!%&

There was NO monthly shoot Sunday, March 10, due to the deep Snow. Not only could we not get into the cabin, but neither could the van with all our supplies and furniture.

See you at:

the March 31st Shotguns,
the April 14th shoot, and
the April 28th Shotguns.

Spring Shoot is in the hole for May 10 thru 12. It is a blanket shoot. Bring your own blanket prize if you want to pick one. We still need donations for the drawings. And: trail setters, and lots of help. Please contact Booshway, Ted Hartman, to set trails for: Rifle, H & K, Pistol, Tradegun, Squirrel, Shot Gun, Archery, and Long Gong. Since it's also Mother's Day, bring her, too!

TRIVIA

1. Where does a Polar Bear keep his money?
2. What is it when a snowman loses his cool?
3. What do you get when you cross a witch and a snowwoman?
4. What type of ball doesn't bounce?

Never "Sweep" Someone. "Sweeping" means to accidentally point the muzzle of a gun at someone. Always keep the muzzle pointed in a safe direction, even if it isn't loaded. Always point it down-range or keep it straight up at the sky or straight down at the ground.

Terms you might hear when making bullets:

CAST

- a. To throw out a fishing line.
- b. A hard shell to protect an injured arm or leg.
- c. To make bullets from molten lead.

MOLD

- a. Fungi that grow on rotten food.
- b. Trim used on woodwork to decorate.
- c. A hollow form into which lead is poured to make round bullets.

BALL

- a. To have fun.
- b. A formal dance.
- c. A perfectly round bullet.

(1. In a Snow Bank; 2. A Meltdown;
3. A Cold Spell; 4. A Snowball)
