Dear Anthony,

I enjoyed reading your play Vandergrift. You are able to make complex situations on stage be entertaining; and that is a gift. George Gibson McMurtry was my great grandfather and my father lived in his home, as a young boy.

I wanted to know more about you and your connection to Vandergrift. I was amazed to read and view your broad profile online. You have a very commanding voice and wit. Thank goodness you gave that voice to my great grandfather in the play.

It was wonderful how you included Ida Tarbell in the story. Her evaluation in the press about Vandergrift told the "Vandergrift Story" from the experience of the community that lived there. The humor you brought into the relationship between Ida and George was touching and hilarious.

If you meet someone who would like to do a biography on George McMurtry please have them contact me. I know his story.

Best Regards,

Priscilla McMurtry
