

Teaching *together.*

The opportunity to homeschool is a gift, and we understand that parents who embark on this journey with their children have specific needs. Our Flex Program is designed to meet those needs. As staff members, we embrace our responsibility to model respect, responsibility, and a personal relationship with God. Through these characteristics, students also learn the value of achievement, communication and diversity. The Flex program is ideal for parents who wish to teach their children at home, while providing additional opportunities to meet their child's social and academic needs.

Courses

At First Christian Day School, we strive to make our school an experience where each of our student's educational endeavors is appreciated and encouraged. Core subjects are taught from the whole child perspective, with an emphasis on meeting each student's unique academic, physical, emotional and spiritual needs. For our Flex Day students, there is no exception. Both core subjects and electives are available for enrollment.

Core Subjects

- English
- Science
- Reading
- Social Studies
- Math
- Spelling/Handwriting/Keyboarding

Elective Subjects

- Spanish
- Art
- Vocal Music
- P.E.

STEM and STEAM Programs

In cooperation with the Boy Scouts of America, the goal of the STEM Scouts program is to help boys and girls grow in character and knowledge as they explore their curiosity about STEM fields. It is hoped that their growing understanding will translate into lifelong skills, which will benefit them in their academic careers as well as into adulthood. While the program focuses on fostering an interest in careers relating to Science, Technology, Engineering and Math, it is ultimately designed to be challenging, thought-provoking and, most importantly, **fun**. STEM is available for students in 3rd-8th grades, and requires a \$200 fee paid directly to the Circle Ten Council.

Our STEAM program is designed to stimulate exploration and curiosity in STEM skills, but encourages a love and appreciation of Art as well. The program is available for students in 1st - 2nd grades as a Flex Program elective.

FCDS's STEM Scouts lab is one of the first labs to be implemented in Texas. We are very proud to offer this service to our students!

Financial Information

The benefit of the Flex Program is that parents truly are presented with a flexible course schedule and flexible payment plan. With Flex, families may pay monthly, yearly or by the semester.

Core and Elective Subject Pricing

All core subjects are offered daily or Monday-Wednesday-Friday at the scheduled class period with at home work for the remaining two days to be completed with a parent/guardian. Core subjects are priced at \$70/month/subject, OR \$350/semester/subject.

All elective subjects are offered one, two or three days a week, depending on the subject. Elective subjects are priced at \$35/month/subject, OR \$175/semester/subject.

* There is a yearly enrollment fee of \$100 per student.

Other Services:

In addition to course subjects, we also offer the following services:

- Participation in holiday parties, field trips, school events, academic competitions and family nights
- SAT – 10 Standardized testing (\$50 fee)
- Report cards
- School portraits
