

Join us for this one day, hands-on workshop as we journey through the eras of history using fabric, pictures, fossils, fact cards and booklets. Learn how to present these lessons in the classroom in engaging ways that captures the children's interest and imagination.

UNROLLING THE SCROLL OF LIFE: A Visual Journey through the Clock of Geologic Eras

This workshop is geared to teachers in lower elementary classes who will teach these materials as part of their great lessons. It also benefits teachers in the primary classes, giving them ideas on how to present dinosaurs and other prehistoric periods. You will receive a summer lesson plan on dinosaurs. Parents can come and experience the joy of learning in the same manner as their children.

Speaker Ann Rose Gavey, M.Ed has been a Montessori teacher and trainer for the past 25 years. She has presented at the SF AMS Conference and at other international conferences. She is the founder Rising Star Montessori School in Alameda. (established 1982). She received her M.Ed from the College of Notre Dame and her Montessori training from Columbus Montessori Teacher Training.
