LARGE FORMAT SOLUTIONS THAT WORK FOR YOUR BUSINESS

The Imidia M180S is designed to balance the needs of your large format customers with your operating budget. The quality and reliability will make you comfortable right out of the box. The M180S offers three heating zones to optimize the finished product., and the optional second micropiezo head makes quick work of all your print jobs. The included dryer/blower unit provides you with a secure image that will not offset.

The M180S will quickly become the work horse of your print room producing Vehicle Graphics, Signs, Banners, and Events Graphics at running costs far below your competition.

Photoprint RIP Software is included with your purchase, allowing you to be productive day one.
