

## Universal Design for Learning

The Universal Design for Learning Implementation and Research Network (UDL-IRN) is a grassroots organization that supports the scaled implementation and research related to

Universal Design for Learning. Through collaboration, we support and promote the identification and development of models, tools, research, and practices designed to foster effective UDL implementation in educational environments. We encourage and welcome participation in these discussions. <http://udl-irn.org/>

## 21<sup>st</sup> Century Learning

Lead2Feed Student Leadership Program aligns with many of the critical areas for 21st Century Skills. Our Educator Advisory Board has developed an alignment document to match the skills taught in Lead2Feed lessons with 21st Century Skills. Document available [here](#).
