Saturday, April 22nd

Noon CYNTHIA ROSE McCAW - MEDIUM/TEACHER/ENERGY WORKER/MUSICIAN

Join Cynthia-Rose McCaw as she discusses music, energy and meditation.

Hear about everyday ways to clear, release and energize your aura using music and meditation.

We are energetic beings with a soul. Using energy, holding or releasing energy is natural to us

and we do it all the time. Making conscious decisions to move, clear or release energy is beneficial to the whole of our being. This will be a mix of discussion and meditation.

Of the many the reasons we share our lives with animals, connecting to the world beyond ordinary human perception is coming forward more and more. Join Animal Communicator and Intuitive, Melinda Gillette, to explore how our wise animal teachers can guide us to awareness and participation with the universal community. The animals are ready, willing, and excited to help us learn.

4pm Brenda Hardwick - "Yes, you do have Angels!"

I hear the question "Do I have Angels?" very often from clients, and from people in passing. I am amazed that even the very religious seem to question their existence. Angels watch over and are available to everyone. I will discuss what Angels will do, and can do, when asked. How they fit into the hierarchy of The Divine, and why they are even willing to be bothered with us, considering the things that we do. Then I'll tell you how to call on your Angels, ending the session with a Wave of Love and Healing.

5pm JoAnne Palladino - EMBODY YOUR COSMIC SELF

You are the universe in form. You may intellectually understand this concept but how do you fully realize and embody this truth?

If you are reading this, my sense is there was a point in your life when you made a decision to walk through the door to spiritually awaken. Did your ego make this choice or was it your soul that spoke and you listened to its call?

There are points of progression that unfolds when you are on the spiritual path and there are stepping stones to quicken the realization of the cosmic self.

During Your Time Together JoAnne Will Share...

- 1. The Stepping Stones to Embody the Cosmic Self**
- 2. Practices You can Use to Quicken this Realization**
- 3. Her gift of Shmaya to Extend an Energetic Transmission to Support Your Spiritual Journey**

Sunday, April 23rd

Noon (Following Sunday's church service)

Aurelia and Al will be doing a power point slide presentation on the Power of Sound to Heal.

This will be a participatory presentation, designed to give everyone a Quantum Initiatory experience of sacred sound, with the intent to stimulate awareness of one's own innate ability to heal oneself through sacred intent and the right frequencies.

1pm Jason Antalek (Akashaman) - Understanding the Akashic Records

The Akashic Records are an energetic highway of information that holds the history, present and possible futures for each soul ever in existence. All the thoughts, decisions, choices and consequences of our current incarnation are constantly written into our personal Akashic Records. As we experience a planetary consciousness shift, it can be beneficial to tune into this wealth of wisdom in order to better understand ourselves. Through Soul-Level understanding we are able to accept our Divine gifts and grasp what truly drives us. By embracing our Divine gifts, we are able to empower ourselves and enjoy the abundance that is available while experiencing our current third dimensional reality. Soul-Level understanding validates much we know about ourselves while also illuminating the shadows created in our minds as blocks and restrictions.

These topics will be presented in depth and an adventurous Soul will get a live reading, shared with the group!
