'They will be terrified, pains and anguish will take hold of them; They will writhe like a woman in labor, They will look at one another in astonishment, Their faces aflame. Behold, the day of the LORD is coming, cruel, with fury and burning anger, to make the land a desolation; and He will exterminate its sinners from it. For the Stars of Heaven and their constellations will not flash forth their light; The Sun will be dark when it rises and the Moon will not shed its light.'
—Isaiah 13:8-10

The purpose of this study is to depict the celestial array as it occurred on the 1st day of the 70th anniversary from Israel's declaration of independence in May 14, 1948. In other words, what did the sky look like that night and does it suggest or allude to anything to do with the 'Sun, Moon and the Stars'. Well, coincidentally, yes, the 'Sun, Moon and the Stars', in this case Venus all converged in the *Sign of Taurus* on May 15, 2018 and in approximate *phi ratio* to each other. Although the Sun is in *Taurus* around the season of Pentecost every year, think of the *Golden Calf* during that season on Mt. Sinai. What was noted, in particular was that the *New Moon* occurred on this day. A *New Moon* is always analogues to a 'transitory period' as the sliver of the *New Moon* is then anticipated to usher in the new month according to the Hebrew calendar, etc.

Does this particular *New Moon* on the 70th year anniversary of Israel's rebirth possibly signal such a coming 'transference' back to Israel from the end of the *Church Age* that is on the horizon? Obviously, that transition did not occur that very precise day but that the typology is given to occur sometime thereafter perhaps. What this study wishes to present is to associate all that this *New Moon* was and is alluding to, perhaps even prophetically in association to *Taurus* and *Uranus*. In researching these particular variables, many articles from the astrological persuasion were come across as such declared, that *Uranus* is about to enter *Taurus* for a period of 7 years. However, the physical planet of *Uranus* will not enter the literal *Sign of Taurus* until sometime in 2023.

It is as though such were also 7 years off or are using a different counting matrix. Why would there be such a discrepancy? Could this 70th year anniversary be suggesting a 7-year countdown to the *Tribulation Period*? What if there is to be a 'transitory' phase before the start of the 7-year *Tribulation Period* thereafter? This might be the case. It is as much the phenomenon as with the *Watcher Community* that cannot figure out which Hebrew calendar to correctly calculate Pentecost and/or all the other Feasts of YHVH, for example. One main reason for the discrepancy has to do with how the Astrologers use their fixed numerical counting charts rather than the direct observable methods of the sighting of the actual Star's movements. Such are not synchronized as they rather go off what is prescribed by such fixed computed calculations.

Mis-Calculations

In Astrology, such movements are interpreted in how the *Sun*, *Moon* and the *Stars* directly control and affect human's, right down to the day. This is of course prohibited by YHVH, as it ought to be His daily 'bread', the *Word* from His mouth off the pages of the Bible and through prayer that should direct, control, lead and affect one's daily life. For example, many *End Times Watchers* were anticipating that the Rapture event would have occurred on the Pentecost based on the Rabbinical calculations. Pentecost will always be a week off using alternate calculations. However, time and time again, all the prospective timelines will be wrong because the point of origin of when one should count the 50 days is incorrect. The 50-day count does not start on the 'High Day' Sabbath after the *Wave Offering* following Passover.

The 50-day count to Pentecost starts the day after the 1st Sabbath from Passover. This would coincide with Jesus' resurrection on Saturday, 3pm when 'He had been risen' by Sunday morning, as the 'First Fruits' of the coming resurrection, etc. The next argument and discrepancy then has to do with the notion if the 50th day count is in fact the 'full' Pentecost. Then there is language that states that it is from that point that an additional 50-day count is prescribed. It would make sense in that the Scripture does state that Pentecost had 'fully' come. Would this be the 'fullness' of Pentecost just after the *Summer Solstice*? Or is Leviticus 23:16 a reiteration of verse 15 as it is so often the poetic case in Hebrew writing? Realize that a 100-day count from the Sabbath after Passover in 2018 would put it around July 16. The date of July 16 is significant in that from the Revelation 12 Sign on 9-23 of 2017 is 9 months and 23 days. This 2nd 50-day count would be in proximity to the solar eclipse that occurs in July 13 and about 13 days from the unique and rare *Central Blood Moon* of July 27. What makes it unique is that it occurs over Jerusalem and on the Jewish *Valentine's Day* of *Tu'B'Av*.

This alternative count of Pentecost could be referring to a 100-day count then when both the wheat and the barley are harvested together. This would also be confirmed by the Valentine 'type and shadow' of how Ruth stayed with her mother-in-law, all throughout the 1st 50 day count of the wheat harvest. Only then did she rendezvous at the 'midnight hour' with Boaz when both the wheat and barley harvest had been gathered in. Thus, this would put Pentecost fully about a month forward to occur in mid-July of any given year, etc. This would also concur with the words of Jesus in saying how there is still '4 months away till the harvest'. This timespan would be 120 days that equals the same number of those in the *Temple Courts* when GOD the Holy Spirit came down and indwelt them with the 'Power from on High'. It was the time when the *Church Age* was birthed, because Pentecost had 'fully' come, etc. With this *New Moon* event synchronizing with the Sun in *Taurus* on Israel's 70th year anniversary led many to suggest just what this celestial convergence might be foreshadowing in relation to the Church, Israel and the world based on 1 planet.

Uranus

It concerns one of the Giant Gas planets, *Uranus* that is seldom seen, especially at this time in history and it will be occurring, in *Taurus*. Would or could such a celestial convergence mean something even prophetically is to come in light of a 'transference' and upheaval? What this study wishes to present is a suggestive correlation of the coming *Tribulation Period* in the context to *Taurus* and *Uranus*. It is using the factors of the Giant Gas planet, *Uranus* as it is leaving *Pisces* and how it will traverse briefly through *Aries* to then enter *Taurus* within the next few years. The factor of the Biblical inference given to *Taurus* will then be analyzed in how it depicts the coming 'Wrath of the Judge', that is Jesus. The depiction of the planet *Uranus* is that of 'Heaven' itself, which is one of the inferences to the name of GOD Almighty.

The time it will take for *Uranus* to span the length of the constellation of *Taurus* will be approximately 9 years. *Uranus* only visits each *Sign* of the *Mazzaroth* every 84 years. Some constellations are smaller in expanse compared to others, some *Signs* will have more or less years, in which *Uranus* will be in such a *Sign*. It is only in the Astrological charts that the counts are equal in a 7-year duration despite this obvious celestial discrepancy. A timeline provided will show the yearly increments of *Uranus*' progress pegged to the May 15 anniversary of Israel's modern rebirth. The years will be marked starting from right to left, as the trajectory of the planet *Uranus* along with its retrogrades will look traveling across the sky from Earth's perspective. Each year starting in the Fall, *Uranus* goes into its retrograde that lasts for about 5 months. There will be approximately 5 retrogrades in *Aries* and then about 9 retrogrades in *Taurus*.

What is interesting about the *Taurus* and *Uranus* connection is that on precisely the 70th year anniversary of Israel's independence with the *New Moon*, the position of *Uranus* was at the exact point on the *Ecliptic* where the 2 Fish of *Pisces* are 'bound' by *Cetus*, the 'Beast out of the Sea', etc. *Uranus* starts to leave *Pisces* in 2018 and will traverse through *Aries* thereafter for roughly 5 years. Astonishingly, from this 'unbinding' of the Fish from *Cetus* to when *Uranus* moves into *Taurus* and then exits it is in approximate *phi ratio* of time to the total 13-year movement of *Uranus*. As an added bonus of how even the constellations were created in *phi ratio* properties, if one also superimposes the spiral *phi ratio* onto the entire length of the constellation of *Taurus*, the fulcrum of the spiral is dead center on the *Pleiades*.

In terms of the name of *Uranus*, it is referenced to the ancient Greek deity of the sky *Uranus* (Οὐρανός). *Uranus* was considered the father of the first generation of the Titans. *Uranus* was the father of Cronus (*Saturn*) and grandfather of Zeus (*Jupiter*), which in Latin became 'Uranus'. According to research, *Uranus* is associated with great change. *Uranus* is supposedly, the 'Planet of Revolution' and known as the 'Great Awakener'. Such a factor combined with *Taurus* signifies a world transition and abrupt change that will be catastrophic. This is because *Uranus* is an outer planet, and thus the effects of its transit through *Taurus* will largely be seen on a global level and impact. The planet *Uranus* is the ruling planet of *Aquarius*. In the coming 'Golden Age' of

Aquarius, *Uranus* in *Taurus* also signifies a coming breakdown of the *Order*, the Luciferian *New World Order*.

The Tribulation Period

The world will be judged at last by the coming 7-fold *Seal Judgments* that are the *Wrath* of Jesus as the 'Judge'. *Uranus* is also said to affect security and food supplies. This again is ominous as there will be extreme famine in the world caused by war during the coming *Tribulation Period*. Like the classical planets, *Uranus* is visible to the naked eye, but *Uranus* was known as a planet as depicted by the ancient Sumerian scrolls and other cultures for example. The planet was not formally cataloged until it was declared 'discovered' by the English. It was the 'first planet to be discovered with a telescope' in 1781 by William Herschel. The *Uranian* axis of rotation is approximately parallel with the plane of the *Solar System*, with a tilt of 97.77°. As a result, *Uranus* rotates sideways and rolls around the Sun rather than spins like the other planets do.

Some propose that such an anomaly has been caused by the perturbations of Planet X or the 2nd Sun *Nemesis* Star System with each passing. Its average distance from the Sun is roughly 20 AU. *Uranus* makes a full rotation in as little as 14 hours. *Uranus* has 27 known satellites or Moons. *Uranus* is the 2nd planet to have rings in the *Solar System* after Saturn's. *Uranus* is what is known as a 'generational planet' because with an orbit of 84 years, this is the first and last time one will experience *Uranus* in any given celestial *Sign*. In terms of the coming 7-year *Tribulation Period*, it is such calamities brought about by this celestial combination that will demand a 'savior'. This is when the AntiChrist will come to deliver a false 'Peace and Safety' to Israel and the world, temporarily. Ironically, *Uranus* signifies a transition of a drastic change that is accompanied by the rise of global dictatorships.

It is rather interesting that the rise of the major dictatorial world powers that wanted to rule the world occurred when *Uranus* was in *Taurus*. Will it be no different with the coming AntiChrist? Esoterically, *Taurus* is also associated with the *Stock Market*, finances, money, a 'Bull Market', etc. It will be befitting of how during this time with *Uranus* in *Taurus*, the AntiChrist will roll out his economic-medical-religious *Mark of the Beast*, which a Bull is. No one will be able to buy, sell, or receive any government help or services without infusing into one's body literally this Luciferian matrix of total control. It will be a death sentence to those who do not take the *Mark of the Beast*, momentarily. For those who do take the *Mark of the Beast*, it will mean eternal damnation for such a devise will render humans, non-humans and thus not able to be redeemed by the only Human, the *GOD-Man* that can, Jesus Christ.

Taurus is also 1 of the *Cardinal Points* that forms the *Cardinal Cross* in the *Cosmos*. It makes up the 'Tetra' of the 4 *Living Creatures*, the Bull, the Man, the Lion and the Eagle. Such are the *Sentinels* of the very *Throne of YHVH* as seen in many books of the Bible. Many Prophets of old have seen such a majesty; Isaiah, Jeremiah, Ezekiel, Daniel and John, etc. This magnetic and heavenly pattern is replicated in the 2nd Heaven with *Taurus*, *Leo*, *Aquarius* and *Scorpio*, which in ancient *Zodiacs* was an Eagle. Such a motif was also incorporated on Earth with YHVH's Earthly People, the Jews as they encamped around the *Tabernacle of Moses*, a replica of YHVH's Throne.

The Throne of YHVH is where the *Judge* sits and when if one is ushered to the very presence of YHVH, the Creator, one will be judged.

Taurus

There were the 4 standards of the Tribes of Israel, the Bull, Lion, Man and Eagle, etc. With the astronomical association of *Uranus* in *Taurus*, many will easily overlook another Star cluster, pertaining to judgment. The beheading of the binary *Star Algol* near the Pleiades also depicts the coming judgment of Satan. It is known as the 'blinking demon' or *Ha-Satan* as it is a binary Star that is beheaded by *Perseus*. This is an echo to Genesis 3:15 in how the head of Lucifer would be crushed. However, in *Taurus*, we see the 'piercing' of the *Shepherd*. With such imagery in mind, the following is an expose of the work done by E.W. Bullinger in his Biblical interpretation of the constellation of *Taurus*. It will be highlighted in paraphrase format.

'This 3rd and last book is the concluding portion of this Heavenly Revelation of the storyline of the Mazzaroth. Taurus is the subject of Redemption completed, and consummated in triumph. No more sorrow, suffering, or conflict; no more the bruising of the heel of the Redeemer. His coming 'unto' this Earth is not to suffer for sin but it will be a coming in power to judge the Earth in righteousness, and to subdue all enemies under His feet. The 1st chapter is the prophecy of the coming Judge of all the Earth. The 2nd sets before us the two-fold nature of the coming Ruler. The 3rd shows us Messiah's redeemed possessions--the Redeemed brought safely home, all conflict over. The 4th describes Messiah's consummated triumph. Messiah, the coming Judge of all the Earth who saves or delivers, and Apis, i.e., the head or chief.'

Bull is clearly represented, and in all the Zodiac, which have, come down to us is always in the act of pushing, or rushing. The name of the Sign in Chaldee is Tor. Hence, Arabic, Al Thaur; Greek, Tauros; Latin, Taurus, etc. The more common Hebrew name was Shur, which is from a root, which means both coming and ruling. The stars in Taurus present a brilliant sight. There are at least 141 Stars, besides two important groups of Stars, which both form integral parts of the Sign. The brightest Star is in the Bull's Eye has a Chaldee name--Al Debaran, and means the 'Leader' or 'Governor'. The Star at the tip of the left horn has an Arabic name--El Nath, meaning 'Wounded' or 'Slain'. Another prophetic intimation that this coming LORD should be first slain as a sacrifice. Then there is the cluster of Stars known as the Pleiades. This word, which means 'the Congregation of the Judge' or Ruler.

It comes to us through the Greek Septuagint as the translation of the Hebrew 'kimah', which means the 'heap' or 'accumulation', and occurs in Job 9:9; 38:31, 32, and Amos 5:8. It consists of a number of Stars in the neck of Taurus, which appear to be near together. The brightest of them, marked in all the maps, has come down to us with an Arabic name-Al Cyone, which means 'the Center', and has given the idea to some astronomers that it is the center of the whole Universe. The Syriac name for the Pleiades is Succoth, which means Booths or Tabernacles, etc. Another group of stars on the face of the Bull is known as The Hyades, which has the similar meaning of the congregated. Everything points to the important truth, and all turns on the fact that the Lord is COMING TO RULE!'

The Transition

In this next portion of Bullinger's work, is astonishing as he too is a pre-Tribulationist and expounds on the fact, astronomically that the *Bride of Christ* is raptured before this 7-year *Tribulation Period* of the judgment and wrath of the *Judge* begins. *'There is nothing of 'the Church' revealed here. The Church will be caught up to meet the LORD in the air, to be forever with the Lord (1 Thess 4:17) before He thus comes unto the world in judgment. He will come forth to receive the members of His Body unto Himself, before He thus comes with them to destroy all His enemies and 'judge' (or rule) the world in righteousness. When we read this Sign of Taurus, therefore, we are to understand that His Church will be with Him, safe from all judgment. At a very early period, these Signs were appropriated to the 12 Tribes of Israel, and borne upon their 'standards.' This may be traced in the Blessing of Jacob (Gen 49).*

To reiterate, based on the background of the meanings and inferences of both the *Sign of Taurus* and the planet *Uranus*, here is the possible Biblical correlation concerning the end of the *Church Age* and the coming 7-year *Tribulation Period*. As a type and shadow celestially, the planet *Uranus* is the agent of transformation and change that 'unbinds' the Fish of *Pisces*, that is the representation of the *Church Age* Believers. Will such a company be 'taken up' as the depiction of the coming Rapture of the *Bride of Christ* before this coming transition? Will this be the generation to experience the transition into the *Tribulation Period*? Will the span of *Uranus* in *Taurus* from roughly 2023-2032 see the *Tribulation Period* as the 'fierce Wrath of the Judge' begin? *Taurus* represents the 'Wrath' of Jesus Christ, the Judge poured onto the Earth.

In other studies, mainly pertaining to the occult astrological interpretation of this time, such are saying that *Uranus* will be in *Taurus* for 7 years. The 7-year timespan would nonetheless correlate with the span of time of the entire *Tribulation Period* would be, as foretold. Is it coincidence that perhaps such a celestial timeframe of the coming *Tribulation Period* was pegged to the *New Moon* that occurred during Israel's 70th year anniversary of its rebirth? Some who are keen at such symbolism may criticize the fact that if the typology of a 'Wrath' in *Taurus* is to come, then it could prove that the Church would still be present during said 7-year *Tribulation Period* to suffer such a period of 'Wrath' still as the *Pleiades* would be dead center in the *Sign of Taurus*. Many believe the *Bride of Christ* will still need to go through the *Tribulation Period* as a 'test'.

The Church or 'Congregation' is symbolized by the 7-Star cluster of the *Pleiades* and will be in the midst of *Taurus* during that possible timespan. Coincidentally, the planet *Uranus* is the 7th planet from the Sun, so there is a lot of converging 7's. Also interestingly is that it will be in 2028 during the *Winter Solstice* that *Uranus* will exactly reach the ley-line of the *Pleiades* in *Taurus*. In other studies, the *Pleiades* is seen as the 7 Churches of Asia and the 7 historical segments of the *Church Age*, etc. Nonetheless, Scriptures are clear that the *Bride of Christ* is not appointed to *Wrath*. It is assumed also that the 'Wrath of the Lamb' starts from the 1st breaking of the *Seal Judgments*. It is in Heaven where the *Bride of Christ* has already been raptured to and is the 'Star Witness'

of such a pending *Wrath* to be poured out on the whole world by the *Lamb of GOD*, the *Judge* when the *Heavenly Court* is in session, etc.

It is the *1st Seal Judgment* that initiates of the *Wrath of the Lamb*, contrary to opposing views that it is not until the midpoint of the *Tribulation Period*, etc. The prophetic scenario could be that the 'unbinding' of the Fish by *Uranus* will be or could be the Rapture pre-event sequence. It is the Rapture that will shield the 'Pleiades' from such 'Wrath' that will be unleashed by the 'Fierce Judge', Jesus Christ. As noted, one of the meanings of the *Pleiades* is 'Succoth'. It is alluding to a 'Tabernacle' in which the Israelites were sheltered in and shielded by the *Presence of YHVH* during the *Wilderness Journey* to the *Promised Land*. One has to be reminded that the Rapture event does not initiate the 'Confirming of the Covenant' that is to start the 7-year *Week of Years* per the Prophet Daniel.

It is the AntiChrist what will be revealed only after the *Bride of Christ* is removed and 'covered' that will enforce, seemingly something that has largely been agreed upon already. For example, many believe that such a 'Covenant' is and will be the *Oslo Accords*. It would have prescribed a 7-year peace accord between Israel and the Palestinian Muslims. It will also be among the 'Many' that will no doubt be the various Superpowers, etc. With this as a possible prophetic backdrop, the astronomical interpretation of *Uranus* in *Taurus* has hopefully brought out the significance of their meaning. It could help in how one can better appreciate an *End Times* possible scenario pertinent to the particular *New Moon* that occurred in *Taurus*, pegged to the 1st day of Israel's 70th year anniversary and in anticipation of a 7-year trek of *Uranus* in *Taurus*.

The question remains, will the Rapture be like that of *Uranus* 'unbinding' the Fish of *Pisces* to be caught up at a corresponding Pentecost season still? Does this astronomical episode now occurring pegged to Israel's 70th year anniversary signal that a global transference and change is coming? Will such a change globally affect the economies, food supply and rise of a world dictator occur as the *Church Age* comes to an end? This study suggests that the *Bride of Christ* will soon be released and will facilitate a transition. Such a global change is at the threshold of reverting back to the dispensation of the *Law* regarding Israel. It is to deal directly with Israel and the world in judgment within this last generation. It is sort of befitting that the 'transitional' stage is that of *Aries*. It is a smaller constellation and one that alludes to a coming 'sacrifice' and slaughter.

Will it not be a horrific time on Earth during the *Tribulation Period* where there will be wholesale slaughter? However, this time, it will not be Jesus Christ who will be led as the 'lamb to the slaughter' not opening His mouth. This time, it will be the resurrected *Lamb of GOD* that will execute His *Wrath* as the *Judge*, in full force against those that are his willful enemies. The question remains, will there be a transitional period of a few years from the Rapture event to the start of the *Tribulation Period*? According to this astronomical study and model, it would appear that there will be. What will the *Tribulation Period* astronomically look like? Will this traversing of the Giant Gas planet *Uranus* through *Taurus* actually depict this anticipated time? The suggested timeline

leading up to *Uranus's* departure of *Taurus* in 2032 is nothing more than an inference as noted.

However, given the amazing nomenclature of each celestial variable, the Giant Gas Planet, *Uranus* and *Taurus* pegged to the *New Moon* on Israel's 70th year anniversary cannot be a mere coincidence. Hopefully, such a study provided has contributed to the appreciation of a possible prophetic sequence. This study has been based on said converging celestial elements at this point and time in history that are pegged celestially to Israel, apparently with the *Sun*, *Moon* and the *Stars* even.
