

BADGER TRUCK PULLERS ASSOCIATION 2019 SPONSORSHIP AGREEMENT

Formed in 1997, the Badger Truck Pullers Association has grown into one of the top truck pulling organizations in Wisconsin. BTPA was the first group in Wisconsin to create a sanctioned class for Super Street Diesels.

Besides the sport of pulling, BTPA also gives back to the communities by donating food to local food pantries, offering a scholarship for youth looking to enter the mechanical field, and supporting the Jefferson County Safe Ride Program.

Our banners are prominently displayed on the track at our pulls. Each pull that we contract has a list of our sponsors and are mentioned as often as possible during the pull. All our members are responsible for getting schedules up in as many public locations as possible in their area.

To show our appreciation, sponsorship entitles you to:

- Your business name announced during our events.
- Your business name listed on our club website at www.badgertruckpullers.com.
- Your business name on the schedule that gets displayed at businesses around the state.
