Ray working on
a jammed skeg cable

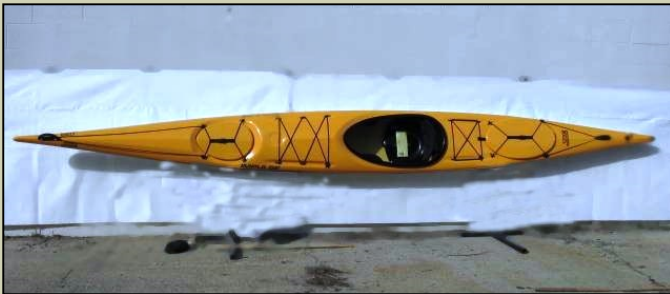

Due to health reasons, Ray Van Dusen is closing his company and has asked that we no longer run the ad for his *River Mouse Kayaks*. This will be a sad adjustment for everyone, especially those who've bought kayaks and gear from him, asked about boat issues, had him work on boat modifications or repairs, or learned paddling skills from him. He's been a generous resource that we've always known—Ray became part of RMSCK in December of 1995; he was a member with an equipment business since before any of the rest of us joined the club.

In addition to closing his shop, he's also selling three of his personal boats and his gear. Here is the information he sent about them; there are photos of the boats on the next page:

Ray says, "Each kayak has had the seat lowered as far as it will go; they all have been retro-fitted with aggressive thigh braces to help hold the paddler in the boat making it easier to do a roll and very easy to do a reentry and roll."

- Nimbus *Telkwa Sport* 18' in safety yellow: \$1200 (Ray says, "The best all-around boat that I have ever paddled!") <https://www.nimbuskayaks.com/telkwa%20sport.htm>
- Seda *Impulse* 18' in yellow: \$1100 (This boat has been down the Green River in Utah a lot and the Missouri River four times.) [Seda did not have a description of the *Impulse* on their website but there are several on-line reviews.]
- Current Designs *Sirocco* 16' 10" in lime green: \$700
<https://www.cdkayak.com/kayaks.aspx?id=41>
- Other gear:
 - New and used paddles
 - Used dry suit
 - Used PFD
