

Good morning!

Well, let's start today with a great video.....if you have ever been involved in something like this it is a memory that never goes away..... Check it out at <https://www.fox10phoenix.com/news/teenager-with-autism-sinks-3-pointer-during-basketball-tournament1> Sort of puts things in perspective sometimes!

I am going to leave it at that today.....I know there are chapter meetings this weekend and some have said they plan to look at yesterday's clip during their meeting or share with them for discussion. The views I have received are *all over the place!* I truly believe this clip is a great discussion clip and suspect that if this were used in a session at the convention it could take up a full hour.....think about positioning, who looks where and why, the actual contact or lack of, LGP of the second shot, the time on the clock, the situation of the game. There is a TON involved in the 8-plus seconds!

The clip is [here](#) to watch again (and again and again...).

So, enjoy the weekend, have a great game or games, stay well, safe travels and we will offer some thoughts on the clip next week!

Tim
