

NTEU Members Make America's Government Work

We print our nation's money. Lead the search for energy efficiency. We ensure that the airways belong to the people. We offer nutrition advice and help make sure there are doctors in rural areas. We encourage and protect savings. We ensure the safety of the air and water. We protect the commercial and creative value of intellectual property. We guard the nation's borders and facilitate its commerce. We safeguard the electoral process and we protect retirement income. We collect the vast amounts of revenue needed to serve this great nation.

**We do so much more that we are proud of,
and the nation is grateful for.**

We are the men and women of NTEU.

Our Union. Our Nation. Our Pride.
